Bas-Reliefs of the Stone Age.

Some large bas-reliefs dating from the Stone Age have just been discovered at Lancel, in the French province of Dordogne. They are sculptured on the rock of a shallow grotto, and solely represent animals. It is thought that the primitive sculptors probably refrained from introducing the human figure in art by a tabu similar to the present Mohametan tabu on such representation. The animals shown in the reliefs are reindeer, oxen, bison, and a huge horse of prehistoric dimensions.

FOUNDER'S DAY.

Monday, April 1st, will be "Founders Day" in the Ladies' Literary club. This day is conceded to be the most important in the year, as it marks the anniversary of the organization of the club; and at this time each year it is customary for the club members to gather together to celebrate its birth and being, and to do honors to its founders. The day is always celebrated in a most fitting manner and this year will be no exception, as the entertainment will be in charge of the executive council. A beautiful luncheon will be served at one o'clock in the dining room of the club house to which all members are invited. The founders will be the guests of honor. There will be informal talks and reminiscences and later all will adjourn to the club house parlors where a social time will be enjoyed. When Well-Known Wausau People Tell It So Plainly.

When public endorsement is made by a representative citizen of Wausau proof is positive. You must believe it. Read this testimony. Every backache sufferer, every man, woman or child with any kidney trouble will find profit in the reading.

Otto W. Krenning, 631 S. Fourth Ave., Wausau, Wis., says: "I was troubled by kidney complaint for over a year. I had frequent pains in my back that made it hard for me to get around and the kidney secretions passed irregularly. I was also subject to dizzy spells, during which everything turned black before me and I often felt to the floor. Since using two boxes of Doan's Kidney Pills I have felt a great deal better and the pain in my back has disappeared."
