HARD TIMES THROUGH WAR TAXES.

According to an Associated Press dispatch it looks rather gloomy for the farmers who sold their premises here and took up Canadian lands. The dispatch says it is believed that as a result of the war tax on land imposed by the Canadian government, a number of former Wisconsin farmers who went to the British northwest will be compelled to return to the United States. Information has been received that the tax will amount to about \$500 for each farm of 100 acres, which in the case of many of the former residents of Wisconsin would practically amount to confiscation. It also is believed that the imposing of the tax will put a stop to the immigration of farmers from the United States to the British northwest.—Mayville News.

HEALTHY HAIR SOFT AND FLUFFY

Beautiful hair does not just happen but is always a matter of care and proper nourishment of the hair roots. No matter if your hair is falling out, stringy, lifeless, and full of dandruff, Parisian Sage, an inexpensive tonic, sold by W. W. Albers, is all that is ever needed. It nourishes the hair roots and stimulates the growth of new hair. All dandruff is entirely removed with one application, and itching scalp and falling hair cease; your hair will be bright, vigorous, soft and fluffy.

Whether your hair is oily, dry or brittle, Parisian Sage immediately removes the cause and by toning up the scalp quickly restores the hair to its original brilliancy and vigor.

This delightful tonic is a real necessity and will not fail to give a lasting benefit to your hair and scalp.

THE HEART IS THE DYNAMO OF LIFE

It is the perpetual motion of existence.

One of the commonest symptoms of heart disease is shortness of breath and weakness upon the slightest exertion, with swelling of the feet and sometimes abdomen. Many cases of heart disease exist in persons who are apparently robust and who are not supposed to have anything the matter with them. Heart disease occurs as a complication of Bright's disease, the heart becoming very much enlarged and gradually weaker, as life advances. Rheumatism is also one of the commonest causes of heart disease.

If you are conscious that your heart is any more a part of you than your foot, it is a matter for immediate consultation with Dr. Turbin, the expert specialist and surgeon. Prompt attention oftentimes saves serious after trouble and possible death. The chances for recovery depend largely upon to what extent the disease has progressed. With the aid of suitable heart tonics which will act on the muscles of the heart and enable it to perform its functions, patients are enabled to live to an old age with comparative ease and freedom from pain.

Dr. Turbin has specialized on the heart for twenty years. He has seen every phase of heart weakness; has treated everything in the shape of a weak heart. He has found that often the so-called heart troubles are not from the heart at all. He can show you wherein your hope may lie.

Have you fluttering of the heart? Have you skipping of the heart? Have you palpitation of the heart? Have you pain in the region of the heart? Have you pain in side of shoulder-blade? Have you shortness of breath? Have you weak, sinking, cold or dizzy spells? Have you rheumatism? Have you throbbing of the heart in excitement or exertion? If any of these questions apply to you, case, it could be well for you to take immediate steps. Consult with Dr. Turbin. Dr. Turbin is an expert on heart and medicines.

Canada is Calling You to her Rich Wheat Lands

She extends to Americans a hearty invitation to settle on her FREE Homestead lands of 160 acres each or secure some of the low priced lands in Manitoba, Saskatchewan and Alberta.

This year wheat is higher but Canadian land just as cheap, so the opportunity is more attractive than ever. Canada wants you to help to feed the world by tilling some of her soil—land similar to that which during many years has averaged 20 to 45 bushels of wheat to the acre. Think what you can make with wheat around \$1 a bushel and land so easy to get. Wonderful yields also of Oats, Barley and Flax. Mixed farming is fully as profitable as an industry as grain growing.

The Government this year is asking farmers to put increased acreage into grain. Military service in Canada during the war has created a great demand for farm labor to replace the many young men who have volunteered for military service in the United States. The Government is offering excellent, good schools and churches convenient for literature and particulars as to required railway rates to Superintendent Immigration, Ottawa, Canada, or to GEO. A. HALL, 123-2nd St., Milwaukee, Wis.
