THE WAY OUT OF IT

A few plain truths told in a sarcastic way vein, by the state fire department at Madison:

He knew the gun was not loaded, but it was.

He looked for a gas leak with a match, and found it.

He lighted a match to see if his gasoline tank was empty. It was not.

He smoked while filling his auto tank, but will do so no more.

He smoked in the hay mow, but will not do so again.

He smoked in bed, so did the bed clothes.

He threw the matches into the waste paper basket. He is wiser now.

He threw a cigarette stub into some rubbish.

He used a wooden box filled with sawdust as a cuspidor.

He saved his city waste and aily rags and they burned his shop.

He washed his hands in gasoline near the stove. The doctor washes them now.

He allowed dangerous conditions to remain because "he never had a fire."

He does no longer boast of that record.

He did not worry about fire as he had "plenty of insurance," and forgot the safety of his wife and children upstairs.

He used a torch to thaw out frozen water pipes and set the house on fire.

He stuffed up the chimney holes with papers and rags.

She cleaned her gloves with gasoline and saved fifteen cents, but paid the doctor and druggist fifteen dollars.

NEW CHEESE FACTORY

There are efforts being put forth just now to have a new cheese factory built on the Smith road, 3½ miles east of Wausau. The idea is to find the right man who will put in the plant and the farmers will promise to patronize him. The first meeting was held about ten days ago and another one was held last Saturday, at which two cheese men were present, and it is possible that a deal will be made with one of them. Anyway, a cheese factory will be started there soon.

MADE AN ASSIGNMENT

The Wisconsin Graphite Co., owned by E. W. Sellers, at Stevens Point, has failed, and its owner has made an assignment. The total amount of indebtedness will run up to about \$100,000. D. E. Frost is the largest creditor with an amount of \$30,000, and George H. Altenberg the next to the extent of \$21,000. The company is capitalized for \$100,000. It has a mine at Junction City; the plant and grounds at McDill and the right to use 100 horse power on the Plover river. Mr. Sellers asserts that the assets will pay indebtedness if carefully handled.

BABY WEEK

A meeting was held at the city hall last Friday morning to consider the matter of observing "Baby Week" in Wausau, commencing May 21st. It was attended by many prominent men and women of our city and the indications are that the week will be observed. A committee of thirty were appointed to decide whether the week will be observed, with Mrs. G. D. Jones as chairman, and W. K. Mitchell as secretary. The balance of the committee is as follows: S. B. Tobey, Dr. Margaret Trevitt, Mrs. F. P. Stone, Mrs. S. M. Quaw, Mrs. Walter E. Evers, Mrs. Louis Dessert, Mrs. E. P. Gorman, Miss Gorman, Mrs. E. F. Stockum, Miss Tessendorf, C. F. Ogden, H. G. Flieth, W. R. Chellis, William Hudtloff, Dr. S. M. B. Smith, Dr. W. E. Zillich, Mrs. Walter Heinemann, Miss Cora Lansing, Mrs. Pehn, Mrs. A. A. Babcock, A. H. Zimmermann, Mrs. C. E. Peth, the incoming mayor, Judges Louis Marchetti, A. H. Reid and F. E. Bump, C. C. Yawkey, J. E. Giessele, L. K. Leak, G. W. Borowitz, C. B. Bird. The ministers and physicians will be invited to attend the meeting which is to decide the question of going ahead, and which is to be held tomorrow evening.

The idea of "baby week" observation is to attempt to lower the death rate of infants. It is said, by men of experience, that the death rate can be greatly lowered.

Theodore J. Werle of Milwaukee, was present and as he is one of the prime movers in the "baby week" movement in Wisconsin, he gave those present much valuable information.

The Y. M. C. A. building was offered for use on "baby week," by C. F. Ogden, and was gratefully accepted. Everything will be decided upon within a few days.

LUNG MOTOR DEMONSTRATED

B. D. Weyand, a representative from the Life Saving Devices Co., of Chicago, was in the city recently and gave a demonstration of the lung motor at Fire Engine house No. 1.

A lung motor was purchased by this city some time ago, and the demonstration by Mr. Weyand was given for the benefit of the public. This representative claims that many lives have been lost from poisoning from gases and fumes, electric shocks, apparently drowned, strangulations, asphyxia of new-born, etc., which could have been saved by using the lung motor. This device also relieves people suffering with pneumonia, whooping cough, scarlet fever, diphtheria, etc. During Mr. Weyand's stay in Wausau he sold one infant device to Dr. S. M. B. Smith. The ladies in charge of Baby Week here will have a sample infant lung motor on demonstration at that time.

ARRANGING FOR THE VETERANS

The committees for the department encampment, G. A. R. of Wisconsin which will be held in Ripon, Wis., are making arrangements for next June. Col. John W. Ganes, who is chairman, said the other day: "We will have no trouble feeding and housing all who attend. The parade will not be long, but it will be a mighty good one. On the right will be the band followed by Co. D, second regiment Wisconsin National Guard; then will come the Grand Army and the drum corps; then the Spanish war veterans and the boys scouts. Then will appear a marching living flag, consisting of school children, led by a fifty piece band. There will be the usual receptions by the Women's societies, camp fires and other attractions in abundance. Ripon is going to send every visitor home rejoicing over the week of good times."

ATTY GEN. OWEN AT MARATHON

Attorney General Owen gave a political address at Marathon City last Tuesday evening. He espoused the LaFollette side of the situation. Owing to the fact that the train was an hour late, the audience was not as large as it otherwise would have been.

POWER LINE

The electric power line connecting Wausau and Merrill has been completed. The Wisconsin Electric company had a large crew at work the past few weeks setting poles and stretching wires. The line consists of three heavy copper wires and a steel wire stretched across the tops of the poles, for a lightning arrester. Now, Mosinee, Rothschild, Wausau and Merrill are connected up with the power line, and should any of the places meet with trouble so that power should be cut off, it could be supplied from the other powers, as it was in July, 1912. At the time of the freshet, Wausau and Rothschild were able to be supplied from Mosinee.

SAVE TROUBLE

The Wisconsin Conservation Commission sent out circulars giving notice that ducks have begun to fly north and asks hunters to observe the law prohibiting the spring shooting of them. Violators will be prosecuted by the federal authorities and besides, paying the penalty imposed by our state courts. Persons making complaint will be entitled to one-third of the fine, which leads to the conviction of a violator. Violators can be brought into court up to a time limit of two years. The Pilot would warn hunters to read these laws, become acquainted with the penalties and take no chances, and you save trouble and expense.

NOTICE OF FINAL DETERMINATION

Notice is hereby given, that a final determination has been made by the common council of the city of Wausau, as to the damages that will accrue and of the benefits and damages to be assessed upon the abutting real estate by reason of the proposed improvement of Forest street from Third to Sixth streets and of Grand avenue from Forest street to Strollers' Lane, by the construction of a vitrified brick pavement thereon.

PURCHASED CANDY KITCHEN

Early the past week Walter and Frank Wintetki purchased the John Stark candy kitchen and ice cream parlors, on Third street, between McClellan and Grant, and took possession on Tuesday. It will continue to be operated under the name of John Stark, who will remain with the store for some time. Frank Wintetki has made Stark's candies for the past four years and the goods will continue to be kept up to their usual high standard. Walter Wintetki has been with F. W. Burt for the past eighteen years. As soon as possible, he intends to give his undivided attention to the new store. Both young men are well known in the community and will run an institution worthy of patronage.

The Merrill Business Men's association was reorganized last Wednesday and will be more in accordance with the Merchants and Manufacturers' association. A board of directors was elected consisting of one from each line of business. The directors met following the meeting and elected the following officers:

President—J. B. Cromer.
Vice President—Wm. Peterman.
Sec'y—A. E. Hoffman.
Treas.—E. A. Krembs.

OUT TO A SUGAR CAMP

On Wednesday afternoon a party of ladies enjoyed a pleasant trip to the Dessert sugar camp, which is located six miles east of Mosinee and about twenty miles from Wausau. The trip was made in the Dessert auto, and the warm sunny day made the ride most enjoyable. Mr. Dessert has recently installed new machinery for sugar making, which makes the industry both scientific and satisfactory; and watching the boiling white sap in the receptacles as it passes through the different degrees and stages until it gradually changes into delicious golden maple syrup was most interesting. Three delightful hours were spent at the camp. The party included Mrs. Louis Dessert and daughters, Misses Louise and Blanche, Mrs. C. H. Ingraham, Mrs. R. H. Johnson and Miss Hermione Silverthorn.

March went out like a lamb after having come in like a boisterous lion. Everyone in the city should take great interest in cleaning and beautifying the city this year. A clean-up day will soon be commenced.
