FRENCH CAPTURE LASSIGNY HILLS AFTER HARD FIGHT

New Hun Retreat in Picardy Believed Near.

Artillery of Allies Now Dominates Town and Roads Beyond-Haig Reports Capture of 28,000 Prisoners and 600 Guns.

London, Aug 14.-Since the allied offensive began on the Montdidier Amiens sector August 8 the total cap ture by the French First army and the British Fourth army have aggregrated 28,000 men and 600 guns, says Field Marshal Haig's communication from headquarters. The communication adds that the day passed in comparative quiet on the battle front.

French Hold Heights of Lassigny. The Heights of Lassigny, the stronghold on which the left flank of the German armies in the Picardy fighting rested is in the hands of the French. The artillery of the allies now dominates the town of Lassigny and the teads beyond. After stubborn fighting the French have repulsed a heavy German counter-attack on Lassigny mas-

It now seems inevitable that the Germans must again break into a retreat, or else hurl their dwindling rethe massif of Lassigny.

Cleared From Heights. The French official communique reveals that the enemy practically has been cleared from this high ground, since it is announced that the French have gained a footing in the park of Plessier de Roye, on the extreme northern end of the heights, and within a mile of the town of Lassigny.

Furthermore, more ground has been gained southeast of here, and a renewed advance undoubtedly will spell the doom of Novon.

Line May Crumble. In some quarters here it is expected the entire line of present enemy resistance will crumble, now that the anchor, or picot point at Lassigny has been won by General Foch's troops.

Control Divette Valley. The French, by gaining control of the massif of Lassigny now command not only Lassigny but the valley of the Divette, as well as the entire district

The capture of the massif must inevitably have the most serious effect on the German positions over a wide area, and this effect should begin to show within 48 hours.

Expect Roye to Fall. evacuation of Roye may be expected within a day or two, for the town is now under a cross fire. The abandonment of Roye by the Germans would

also make Chaulnes difficult to hold.

massif already have forced the Ger- travel at reduced rates. mans to evacuate a long line of trenches in the valley of the Oise and are calculated to force further evacuations almost immediately. Noyon will come under the fire of the French guns as soon as the artillery can be moved up. Then the road transports on the whole network of highways around Noyon will become a difficult problem for the Germans.

The Germans have evacuated their trenenes in the bend of the river west of Bailly and the French are occupying them. The move has been forced D., with having paid \$100 to him to obby French pressure in the valley of

First Phase of Battle Over. With the French Army in France Aug. 14.—The stabilization of the line on the old Roye-Lassigny front is considered as the closing feature of the first phase of the battle of the Avre. The second phase awaits only the arrival of needed re-enforcements and material. Reports from aviators state that the disorder on all roads leading to the rear of the German front is indescribable. Every crossroad constitutes an admirable target for the

Aviators, after serving to replace heavy artiflery by bombing front areas are now aiding the infantry and cav alry. When these forces are stopped posts. Then the infantry or cavalry rush in and capture the guns before the enemy can resume fire. through the battle of the Avre the

allies here were attacked by the enemy and forced to retire to the south bank of the river. Immediate counterattacks were launched and according to the latest reports the old positions of the allies on the north bank of the river have been restored.

French Win Village.
The village of L'Ecouvillon has been aptured by the French and further ground has been gained by them nor h f the St. Claude farm.

L'Ecouvillon is about three and onehalf miles southeast of Lassigny and virtually on the crest of the ridge verlooking the Oise.

Expect Evacuation of Roye. In the opinion of experts here the ENTIRE LINE IS PERILED evacuation of Roye may be expected vithin a day or two, for the town is ow under a cross-fire. The abandonment of Roye by the Germans would also make Chaulnes difficult to hold.

PERSHING HOLDS WIDE FRONT

General Officially Reports Formation of Body Including About 1,250,000 Men.

Washington, Aug. 14.—Secretary Baker was formally advised by General Pershing that the First American field army had been created, General Pershing retaining command of the army as well as of the entire American expeditionary force for the present. The dispatch added nothing to details of the army organization already made known from Paris, however, Mr. Baker said. Formation of the army is taken here to mean the Americanization of a definite part of the front has been completed. The only statement of the location of this American front given is that it is "south of the Marne." The extent of that front has not been disclosed, nor has the definite strength of the army been given. The advices indicate that it comprises, however, five full corps. serves forward in an attempt to retake which means approximately 1,250,000

The president shall make regulations for enforcing this provis-

Three other important amendments to the bill were adopted by the committee before the bill was ordered reported. The most important of these was one giving to volunteers and drafted men below the age of twenty-one the right to receive an education at the expense of the government at approved educational institutions. The period of this education would be the equivalent to the terms served in the army or navy, but in no case would exceed two years.

Another amendment adopted by the committee would remove discrimination against drafted men and volun teers in securing commissions in either the army or the navy on the grounds that they are too young.

Wives of soldiers shall not be dis qualified for position under the government because they are married, another amendment provides. Chamberlain Predicts Passage.
