

**TARBOROUGH:**  
SATURDAY, APRIL 1, 1848.

**Democratic Convention.**  
The delegates to the Convention at Raleigh, will bear in mind that Wednesday, the 12th inst., is the time appointed for holding the Convention, the following are the delegates appointed for this county:—  
R. R. Bridgers, H. T. Clark, L. C. Pender, Jno. S. Dancy, Wm. S. Battle, Jesse Bulluck, Theo. Thomas, David Williams, Wm. J. Armstrong, Jas. H. Armstrong, Jacob S. Barnes, Jonathan Roundtree, L. D. Vines, S. E. Hart, R. D. Wimberley, F. H. Knight, Moses Baker, Wm. H. Hines, Jo. D. Jankins, David Cobb, James R. Thigpen, J. H. Daniel, Jesse Harrell, Harman Ward, Henry Cherry, Wm. Cherry, John Lawrence, B. Batts, S. B. Staton, Wm. S. Baker, Patrick McDowell, H. B. Bryan, L. R. Cherry, Willie Bradley, Josiah Cutchins, David Barlow, James S. Battle, T. L. Maner, Chas. Harrison, Richard Bynum, Theo. Atkinson, Bennett P. Pitt, McGilbrey Jones, Richard Savage, Reddin S. Petway, Joshua Barnes and L. L. Dancy.

The following note was received sometime since, but misplaced.

New Berne, March 10, '48.  
Mr. Howard. Dear Sir: We wish thro' the medium of your paper to tender our thanks to the citizens of Tarboro' and the surrounding country, for the warm reception they gave the Gov. Graham.

The loss of the steamboat Wayne by fire, and having a large number of hands and flats on hand, and having contracts for bringing down freight, we are under the necessity though with great reluctance to take the Gov. Graham from Tar river and put it on the Neuse.

With the assurance that we will put another boat on that river as soon as it can be built, we remain with high esteem your obt. servts. **DIBBLE & BROTHER.**

**Congress.**  
In the Senate, on the 22d March, a bill from the House providing for a loan of sixteen millions of dollars, was taken up, and some slight amendments adopted. In the House, Mr. Haralson from the committee on Military Affairs, reported a joint resolution, which was passed. It is of interest to discharged volunteers, and is as follows:

Resolved by the Senate and House of Representatives, That, all cases of application for bounty land warrants, under the act approved Feb. 11, 1847, the honorable discharge of the applicant, showing that the same was predicated on a Surgeon's certificate of disability, shall be considered as satisfactory evidence to the Commissioner of Pensions that the disability was incurred in the course of the service.

The following account of the fist fight which recently occurred in the House of Representatives, we find in a Washington letter to the Petersburg Republican:

A fist fight occurred to-day on the floor of the House at about half past 2 o'clock, between Messrs. Haralson of Georgia, and Jones of Tennessee. The vote had just been taken by yeas and nays on the question of adjourning to Monday next. The two gentlemen were sitting together talking upon different matters when Mr. Jones said to Haralson, you vote one way when the names are to be recorded, and another when they are not. Haralson said "if you mean me, it is a falsehood," when Jones retorted, "you lie;" whereupon Haralson rose and struck Mr. Jones in the face with his fist. Jones returned the blow with his fist, and some half a dozen blows passed between them, they in the mean time overturning one or two desks, when they were separated by several members rushing to the place, and pulling them apart. The Speaker called upon the sergeant-at-arms and soon restored order.

**Another Member of Congress Dead.**—We regret to state that the Hon. John M. Holley, member of Congress from Seneca and Wayne counties, in this State, died at Jacksonville, Florida, on the evening of the 8th inst., probably from the rupture of a blood-vessel. He was at the dinner table on that day, as usual. His widow and son left Jacksonville on the 10th for the North, having the remains of the deceased in charge. Mr. Holley, we understand, went South for the benefit of his health,

soon after the opening of the present session of Congress.

The district which he represented, is politically a close one, but has usually been represented by a Democrat. Mr. Holley was a Whig.

N. Y. Journal of Com.

**Mission to Mexico.**—In consequence of the continued illness of Mr. Sevier, Nathan Clifford, (U. S. Attorney General,) was on Saturday last nominated to the Senate as Associate Commissioner, and confirmed by that body. On the same evening, accompanied by Mr. Walsh, Secretary of Legation, he set out for Mexico. The Union says: "Arrangements have been made to carry out the Commissioner at once from New Orleans to Vera Cruz, and thence to the Capital; and similar ones for conveying Col. Sevier, who hopes to leave Washington on Tuesday or Wednesday."

**From Mexico.**

By the arrival of the U. S. Brig Mary Jane, Capt. Hussey, from Tampico, the 8th instant, (says the New Orleans Picayune,) we have received papers from the City of Mexico, to the 23d of February.

A courier reached Vera Cruz just before the New Orleans sailed, who left the Capital on the 26th of February. The only glimpse of news derived from him was to the effect that an armistice for two months had been assented to by Gen. Butler, and that it would be formally signed on the 27th.

**A Murderer Apprehended.**—We understand that Brown, the free man of color, who recently committed murder in Halifax county, in this State, and for whose apprehension, Gov. Graham issued his Proclamation in our paper, was taken at Petersburg, and is now in confinement, awaiting trial on the charge.—*Raleigh Register.*

**Most distressing Accident.**—On Sunday, the 19th instant, in Gates county, North Carolina, Francis Madrie, a young man of amiable disposition and fine promise, was driving a young lady to a neighbor's house; his horse ran off with great violence, and we lament to say, that he was thrown from the vehicle and killed. The lady was seriously injured, but our informant states she is likely to recover. Francis was the eldest son of Joseph Madrie, Esq., a most estimable citizen of Perquimons, N. Carolina.—*Norfolk Argus.*

**Abandonment.**—A new born male infant was found in the outskirts of the town, on Saturday morning last, wrapped in coarse cloth. No clue to the author of this unnatural and criminal abandonment is ascertained. It is an act which bears its own comment.—*Wilmington Commercial.*

Fifteen thousand dollars were stolen from the vault of the Exchange bank of Petersburg some time between 1st of Jan. and 16th of Feb. last, but the robbery not discovered until within a few days back. A reward of \$2500 is offered for the recovery of the money.

**Pork at Cincinnati.**—During the past winter 412,161 hogs were killed in Cincinnati, and 74,860 brought there, dressed, from the country.

**Foreign.**

The steamer Caledonia has arrived at Boston, with Liverpool dates to the 12th ultimo.

The intelligence by the Caledonia may be thus summed up: Republicanism is established in France—her independence acknowledged by England, Belgium, Switzerland and Austria, and other surrounding nations. Louis Philippe and other Royalists are in England. All Europe is tremendously agitated, and the people are leaning towards Republicanism. No more fighting in France—soldiers favored the people. Italy turning towards a Republican form of government. Riots in London, Liverpool and Belgium. This is the most important news that has ever come from Europe. Money depressed. Breadstuffs unchanged,—nothing of Cotton.

From the European Times, March 12.—The Revolution in France is now *au fait accompli*. The abdication of Louis Philippe—the appointment and rejection of a Regency—the complete triumph of the Parisians over the Army—the establishment of a Provisional Government—the erection of a Republic—the overthrow of the House of Peers and titles of distinction—the precipitate, abject flight of all

the members of the Orleans family with their misguided Ministers to our own shores, or to other places of exile—the immediate recognition of the new Republic of France by Great Britain, Belgium, Switzerland, and the United States—have all fallen in such rapid succession, that the events of "an hour's age doth hiss the speaker;" each teeming with some mighty occurrences affecting the destinies of whole nations and dynasties.

Previous to the outbreaks it appears that a movement had been made in France in favor of extending the right of suffrage to a greater body of electors. The Government opposed this measure. For the purpose of rousing the people to a sense of their rights, and to expedite this electoral movement, banquets were gotten up, against which the ministry set themselves directly in opposition, fearing some encounter from the people of Paris. This very resistance produced the catastrophe which the ministers wished to prevent. Under the electoral law of France of 1831, only 200,000 possess the right of suffrage, out of a national population of 35,000,000.

Paris, Feb. 29th.—Mr. Rush, Ambassador of the United States, accompanied by Mr. Martin and Maj. Pineson, also waited on the members of the Provisional Government, to whom he delivered a flattering address. The following details of this interview are taken from the *Nation* of to-day.

At 2 o'clock, the Representative Minister of the United States went to the Hotel de Ville, in formal recognition of the Provisional Government, to whom he delivered a flattering address. It was appropriate in the representative of the American Union, to be the first to welcome our infant republic, for there is no bond more powerful between nations than community of sentiment. The step taken by the Minister of the United States has made existing circumstances of serious importance. Although fully accepted, it has touched actually all the members of the Provisional Government; and after an interview, in which were exchanged the noblest sentiments, they in a body accompanied this representative of a great nation to the threshold of the Hotel de Ville as proof of the cordial affection which must ever exist between the American and French Republics.

It is said that the revolution has spread throughout France. All the Departments have joined the Republic. Louis Philippe and the Royal family, with Guizot have arrived in England.

Never has any intelligence from the old country so electrified our citizens, says the *New York Sun*, as did the news brought by the last steamer. The enthusiasm among all classes is immense. Two large meetings have been held, one in the Shakspear Hotel, the other in St. John's Hall, and now it is proposed to get up, on the arrival of the next steamer, a general illumination in which every body and every body's wife may participate.

**Wilmington Market, March 24.**

Bacon—There have been some few arrivals of Bacon since our last report, and the market appears to be a little better stocked.—Prices continue without change. 7 1/2 a 9 cts.

Corn—The cargo of 2,000 bushels mentioned in our last has been disposed of at 60 cents, and 1600 bushels have been received since, from the North Counties, and sold afloat at 57 cents.

Lard—There is a fair stock of North Carolina Lard on the market. Quotations remain firm as formerly reported 7 1/2 a 8 c.

Naval Stores—Turpentine has gone down still lower since this day week, notwithstanding the very light receipts. On Friday and Saturday our former quotations were maintained, but on Monday a decline of 10 cents per barrel was experienced. The sales of the week foot up only about 3,180 barrels, at the following rates—\$2 25, \$2 15, \$2 20, for soft, and \$1 25, a \$1 15 for Hard, up to last evening; most of the latter having been taken at our lowest figure. We can hear of but one sale to-day, 550 bbls. included in the sales of the week, which was effected at an advance of 5 a 10 cents per barrel on yesterday's prices, for soft. We quote soft turpentine at \$2 15 a \$2 25, and hard at \$1 15 per barrel.

**Washington Market, March 29.**

Bacon, 7 a 8 cents; Lard, 8 a 10; Corn, \$2 00 a 2 25; Peas, 45 a 50 cents. Naval Stores—turpentine, \$1 80 a 1 85; scrape, 1 00 a 1 05; tar, 1 00 a 1 05.

**Popular Remedies.**—The most popular remedies of the present day are those which cleanse and purify the blood, and

which are known to be innocent in their qualities. Such remedies as Antimony, Mercury, Zinc, and having recourse to Bleeding in disease, are now, it is hoped, going out of fashion, and Vegetable remedies will be soon the popular medicine. Then

**Brandreth's Pills.**  
Will be used and appreciated. They are known to act beneficially on every part of the body; being taken up by the chyle they pass into the blood, which they purify, and it should be remembered that they only remove those parts from the blood which were the cause of inflammation or disease of any kind.—Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind, which eighty-four years have proved never to do injury, but always good.

**Interesting Statement From the Empire State.**

Schuylerville, New York, April 28, 1847.  
Mr. S. W. Fowle—Dear Sir: A desire to benefit the afflicted has induced me to make the following statement of facts. My son, now seventeen years of age, has been afflicted, during his whole life, with a constant cough and pain in the chest, accompanied with night sweats and hectic fever, which produced great emaciation and debility. During this time he was attended by many physicians of the highest repute, whose prescriptions gave but temporary relief. All our neighbors who saw him regarded him as one who was rapidly approaching an early and premature grave, I was prevailed upon by a friend to try

**Wistar's Balsam of Wild Cherry,** He commenced its use, and the first bottle gave him astonishing relief, and after using four bottles, his disease was overcome, and he was restored to sound and permanent health. **WM. PETITT.**

**Worms are swept away** from the Stomach and Bowels by *Jayne's Tonic Vermifuge*, as by the besom of destruction. They perish under its searching influence instantly, and are expelled with the mucus in which they are imbedded. The cure is in almost all cases permanent, and if a recurrence of the disorder should take place, a few doses of the preparation will never fail to produce the desired object—for the effect does not weaken with repetition. Those who suffer from *Piles* or *remittent fever* or any complaint where a mild tonic or alternative may be desired, will find in *Jayne's Tonic Vermifuge* a most valuable remedy.

**Still more proof.**

Darlington, Beaver Co., Pa., Feb. 18, 1839.

Dr. D. JAYNE.—Dear Sir,—My little son, when about two months old, was seized with a bowel complaint. It continued for two weeks without intermission, and notwithstanding the remedies prescribed by a respectable Physician, we gave up the child a victim, as we supposed, to a fatal disease. But I providentially heard of "*Jayne's Carminative*," as an effectual cure for bowel complaint, and immediately despatched a messenger to a town seventeen miles off for a bottle. By the use of this medicine, in less than thirty-six hours the disease was checked, and by its constant use for a few days, the child was restored to perfect health. Shortly after this, there occurred a similar case in one of the families of my congregations. I prescribed "*Jayne's Carminative*," and the result was a speedy cure.

The same child, owing to exposure, when recently coming up the Ohio, was attacked by that horrible malady the *Croup*. We landed in the night at Beaver Point, and when our fears were alarmed lest the hoarse sepulchral cough was the forerunner of death, we gave him a teaspoonful of your *Expectorant*, and applied some liniment to the throat and breast; and before many minutes the hoarseness was gone, the child breathed freely and slept sweetly. Owing to these circumstances it cannot be wondered at why I have so high an opinion of your medicines, and why I advise every family to keep them on hand, ready for any emergency.

Respectfully yours,

Pastor of the Presbyterian Church, Darlington Pa.
