

Holiday Trips Enjoyed!

If you have planned a holiday trip you will enjoy it all the more if you are equipped with a proper traveling outfit, the first essentials of which are Trunks and Suit Cases.

Monson makes the largest variety of Trunks and Cases to be found in the state, and you deal direct with the maker, no between profit here, one profit from maker to user, and Monson pays the freight.

Patronize a home industry that employs home labor, and makes trunks better than the kind that you buy elsewhere. The eastern manufacturer makes trunks for the jobber's profit, and then comes the merchant's profit. Here it's only one, and that is

MARVELOUS GOLDFIELD

Some Facts About This Wonderful New Camp, Showing Production and Low Cost of Mining.

Goldfield, in southwestern Nevada, only about two years old and practically without any money invested in machinery, is producing more gold than any three of this country's greatest gold camps, which have millions invested in mining machinery. Goldfield is known as the poor man's camp. Less than \$2 per ton mines, mills and markets the ore, which is phenomenally rich; it is practically southern California climate and miners work comfortably the year round. It is a healthy section. The altitude is about 6,000 feet above sea level; the water, clear, sparkling and pure and living not expensive. The gold-bearing ledges are the widest ever known and contain unheard-of values and all susceptible of the cheapest known treatment (cyanide).

Now, do you want to be a manufacturer of new basic dollars? Unless you are a miner you never made a new dollar in your life, but wrestled them away from the other fellow and he did the same thing.

If you have the wholesome desire of becoming a producer of gold (the very backbone of our commercial life) this is your opportunity. You know it knocks at each man's door once in a lifetime.

We come to you with credentials that no man of understanding would care to doubt, and tell you of wonderful Goldfield—only a babe. Why, just one of Goldfield's many mines (the Mohawk) is now shipping, according to mint returns, more gold than the whole great Cripple Creek region. Think of it! and, honor bright, not a mine in wonderful Goldfield, had as good ore or as wide ledges as the Homestake Summit, the shares of which a limited number we offer you at 10 cents each, and these shares are full paid and non-assessable; can never cost you any more, and just as liable to be worth \$10 or even \$20 a share, within a few months as any of the many mines in Goldfield, which have done so. Their ore was not as good as ours, when they were no deeper than we are (all ore in Goldfield increases in value with depth).

You say, if it is so good you would not sell any of it. We would not sell any of it if we had the money for development. We sell a portion, take the proceeds and make the whole worth a thousand times as much by development. We think this good business.

We have expended \$5,000 in work on this mine and have between one and two hundred thousand tons on the dumps that assay around \$20 per ton, and are only about 70 feet deep.

Our president and manager is Hon. Wilbur F. Smith, who was the first state treasurer of South Dakota. He is a practical miner of thirty-five years' experience. Our superintendent S. R. Thompson, has had an equal experience, mining and milling, and is a manager of men as well as mines. Mr. Thompson was the manager of the largest mines in the world, the old Homestake of the Black Hills, for many years, and was also Seth Bullock's manager of the Iron Hill gold mines for a number of years; he is certainly the man for the place, and we pay him largely in stock, which evinces his confidence.

We are past the guess or prospect stage; it is simply a matter of development, to bring big but honest money to every stockholder. \$100 buys a thousand shares; \$1,000, ten thousand shares. The small man profits exactly pro rata with the large man.

We have used all precaution human ingenuity could suggest to assure success. We have men of ripe experience at the head, whose ability and honesty is unquestioned. We have their record for thirty years open to your perusal. We have the deeds for one hundred acres of these wonderful ledges proven beyond doubt by the work spoken of. We are right and want those who are right to join us in the cleanest enterprise on earth (gold

mining.) If we make 90,000 per cent a month we do not harm our brother man. We find it, and benefit all mankind by increasing the supply of gold or circulation per capita.

It goes without saying that we could not eat or wear gold, neither is it houses nor horses, but it will procure all we want, and it is new money. The producer of the new basic dollars is the trustee of all philanthropists.

I say all hail to the man who dare do something. Columbus dared—Fulton dared. Wm. Penn dared. Edison is now daring to do something, and all mankind as well as themselves benefited. Let us dare a little bit: \$100 is as small an amount as I am privileged to sell, and it makes as much bookkeeping as \$1,000 worth. I say this to explain the reason for the limitation, and know it will meet your approval. Now if interested, call on or write to C. A. Bates, vice president Homestake Summit Co., Hotel Metropole, Fargo, for balance of week. We have samples of rich ore from some of the developed mines and also pieces of our own ledges all characteristic of Goldfield. Room 46.

P. S.—Mr. Smith located this land before Goldfield had a reputation and had his choice of all that wonderful section.

SHORT HORN SALE

Registered Stock and 1 Percheron stallion.
NOVEMBER 15th
at A. E. Jones' barn, Lisbon, N. D.

The Stanton Funeral.

The funeral services over the last earthly remains of L. B. Stanton, who died suddenly Wednesday morning at a hotel in Tower, will occur at the family residence in this city, 220 Ninth street north, at 2:30 o'clock Friday. Rev. C. R. Adams of the Presbyterian church will officiate and interment will be made in Riverside cemetery.

Ladies' Suits and Coats.

At very special prices, Friday and Saturday, at A. L. Moody's.

THANKSGIVING.

Proclamation by Governor Charles Designating the Observance of This Day.

State of North Dakota, Executive Department, Bismarck.

Agreeably to established custom and in harmony with the proclamation of President Roosevelt, I do designate, Nov. 29, as

Thanksgiving Day.

Within and for the state of North Dakota. The abundant crops, the steady growth and development of the state, the splendor of its institutions and the patriotism of its citizenship, are potent reasons for returning thanks to the Giver of all good, for the bounties he has bestowed. Let us, therefore, on the day appointed, refrain from our secular avocations and return reverent thanks to God for the bounteous good with which he has blessed us, and for the blessings of free government and its wise and beneficent institutions.

Done at the capitol at Bismarck and the great seal of the state affixed this fifth day of November, 1906.

E. Y. Scales,
Governor.

By the governor:
E. F. Porter,
Secretary of State.

A Bag of Gold

was saved by a boy. He started with only

10 cents

Some days he saved

20 cents

One holiday he saved

50 cents

Out of his first week's salary he saved

\$1.00

So fast did his money grow that he soon had

\$5.00

Then he worked and saved to get

\$10.00

At the end of the year he was delighted to find that he had saved up

\$100.00

RAILROAD NOTES

Switchmen to Arbitrate.

Chicago, Nov. 8.—The threatened strike of switchmen on twenty-three railroads entering Chicago has been postponed, pending further negotiations between the officers of the union and the managers of the roads. The unions are inclined to accept the proposal of arbitration made by the managers and it is declared by both sides that there is no immediate prospect of a strike.

Cars Were Ditched.

The spreading of rails caused a wreck which tied up the Casselton branch of the Northern Pacific yesterday afternoon. An east bound freight train was what made all the trouble. A part of this train went into the ditch while the remainder was piled upon the track east of Embden on the Casselton branch. One member of the train crew had his leg badly bruised, but this was the only injury resulting from the accident.

During the night the wreckage was cleared away and this morning the trains are running as usual.

CHANGE OF TIME.

Southwestern Comes in Twenty Minutes Earlier.

There has been a slight change in the running time of the Fargo Southwestern train. According to the new schedule the train reaches Fargo at 6:45 p. m. in place of 7:05 as formerly. This will make it more convenient for those traveling men who reside here and desire to make a trip down the branch and return in time for supper.

In addition to the change in time there has been a change in the train crews. Formerly the crew leaving here took the train only as far as Edgeley, where another crew met it and took it on to Streeter. According to the present arrangements both crews will make the entire run to Streeter, one crew taking the train each way each day.

Winter Tourist Rates.

The Big Four route announces a low tourist rate from Chicago to Florida and Cuba, and many other southern points. Fastest time to Jacksonville; 11:30 p. m. train arrives early second morning. Inquiries of I. P. Spilling, general northern agent, 238 Clark street, Chicago, Ill.

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for Sore Throat, Coughs and Colds, at all druggists. Price 50c and \$1.00. Trial bottle free.
