TIP TO THE POPE.

Official American Request Made for the Appointment of a Cardinal.
Rome, Nov. 23.—Pressure has been brought to bear upon the pope from an official American source for the appointment of an American cardinal at the next consistory.

The feeling has been conveyed to Pius X. that, besides Catholics, even a portion of American Protestants think the United States inadequately represented in the sacred college, the numerical inferiority of cardinals in proportion to those of other countries, compared with American Catholic population, appearing as a slight to the nation at large.

WESTERN TESTIMONY.

It is Wanted by the Prosecution in the Thaw Case.

New York, Nov. 23.—It was unofficially stated that District Attorney Jerome and counsel for Harry K. Thaw, who is now in the Tombs prison awaiting trial on a charge of having murdered Stanford White, will apply to the court for a commission to take testimony bearing on the Thaw case from a number of persons in the west, several of whom are in California. A representative of the district attorney, it was explained, would be present to cross-examine the witnesses. In this way there will be no trouble about the admission of the depositions as evidence when Thaw is placed on trial. Clifford W. Hartridge and John H. Iselin, of Thaw's counsel, and District Attorney Jerome held a conference today, but would not make any statements.

Plot Discovered.

St. Petersburg, Nov. 23.—A dispatch received here from Astrakhan reported the discovery of a plot to kill Governor General Sokoloff and the arrest of the terrorists implicated. The governor general was awakened at night by an unknown man, who said he had been detailed with several companions to kill him on the following day, but that, tortured by his conscience, he had determined to abandon the plot. Sokoloff immediately investigated the man's statements and caused the arrest of all the terrorists implicated.

Vanderbilt and Whitney.

Brooklyn, N. Y., Nov. 23.—The great \$1,000,000 highway which is being constructed in Long Island for the exclusive use of motor cars is now well under way and work in it is being pushed with all speed. At a meeting of the Automobile Club of America today it was announced that the race on the new highway would be between W. K. Vanderbilt, Jr., and Harry Payne Whitney. This leads to the belief that the course will be the scene of frequent tests between amateur drivers who like to travel at a high rate of speed.

Negro Lost Out.

Chicago, Nov. 23.—Fordinaand L. Barnett, the colored assistant, state's attorney, who, according to the police returns, was elected judge of the new municipal court at the recent election, has been unseated by the canvassing board. The police returns gave Barnett a plurality of 499, but the of-

3-Cent Car Fare.

Milwaukee, Wis., Nov. 23.—Milwaukee is to have 3-cent car fare soon, having granted the Milwaukee Northern Co., which is building an electric line from the north to the city, a franchise on the condition that it give a 3-cent fare from Lindworm farm into the city.

The Milwaukee Street Railway Co. was a competitor for the franchise, but the Milwaukee Northern won by agreeing to the low fare proposition. It also guaranteed to have its road in operation within one year.

Aroused Protest.

St. Petersburg, Nov. 23.—The announcement of the impending Jewish reforms has aroused, as expected, the opposition of the reactionary elements. Telegrams of protest are reaching the emperor and Premier Stolypin from all parts of the empire.

The Public In Speculation.

The public as a body never buys anything when it is cheap. There are numerous reasons for this. To begin with, the point of view of the successful speculator and that of the public trader are entirely different. The first named operates on deductions, on carefully erected theories of what conditions will be a year—two years—hence. The unsophisticated trader acts upon whatever of the future is already apparent. It is again a platitude to say that Wall street discounts everything, good or bad, but how many people who mouth this axiom extract its full meaning? They do not realize that this discounting means, not the gauging of the known, but of the wholly unknown. The man who acts today on the probable conditions of the long, unseen future is the man who makes money, in Wall street or in any other enterprises for that matter, and the man whose mind goes farthest ahead makes the most money. "If I could only see the tape a month ahead!" cries the tyro. There are many men who see it a year ahead, not in its flurries and fractions, but in its great and important entirety. —Thomas Gibson in Moody's Magazine.

Furs Not Always What They Seem.

Does the average fur buyer know that the far eastern mink is simply a dyed marmot with the black stripes painted in with a toothbrush? Does the buyer know that the low priced black lynx sets are nothing but common wildcats or Roumanian cats or in some cases soft Chinese wolf skin? Does he know that the white ermine pillow muffs selling for a song are really weasels, and yellow weasels at that, since a white weasel commands almost as high a price as its dear relative, the ermine? Then the sable lynx scarfs and muffs that sell for a few dollars are of course nothing but coneys or hare, while the cheaper caracal sets are simply kid astrakhan, which is something entirely different from caracal—as different indeed as ordinary Persian is from broadtail. The beautiful imitation white fox sets that appear also are generally moulton, or in some cases combed white tibet. —Nugent's Bulletin.

Mere Matter of Caution.
Washington Star: "Why do you avoid making speeches yourself?" asked the friend.

"It's better to have someone else attend to the oratory," answered Senator Sorghum. "In that way you can ascertain which of your opinions are unpopular and repudiate them."
