BALDWIN TRIO BADLY USED IN AUTOSMASH-UP

L. Larson Seriously and Two Others Badly Injured Sunday Morning

L. Larson, aged 50, is suffering from a severely fractured jaw, concussion of the brain and probably from a fractured skull; Mike Ryan has a broken arm and one ear missing and Harry Johnson is badly cut and scratched by barbed wire and has only recovered consciousness in the last few hours from concussion of the brain as a result of a spill which Mike Ryan's automobile took early Sunday morning while the trio were returning from a Red Cross dance near Baldwin. All of the injured men reside at or near Baldwin. They were brought to St. Alexis hospital about 3:30 Sunday morning by Cashier Streeter of the Baldwin State bank, and Dr. V. J. LaRose is attending them.

Mike Ryan, who was the first to recover consciousness after the accident, was able to pass up talking, cannot account for the smashup. He says he remembers nothing from the time he and his associates left the dance until he "came to" and found himself tangled up with a barbed wire fence near the roadside, while his companions were lying unconscious nearby. He then crawled and walked to a neighboring farm for help.

WOMAN BADLY BURNED; FALLS ON LIVE WIRES

Mrs. Joseph Greyerbiehl in Serious Condition as Result of Accident

Mrs. Joseph Greyerbiehl, 218 11th street south, is in St. Alexis hospital in a serious condition as a result of burns which she sustained this morning when she fell unconscious from an electric shock upon two live wires furnishing current for an electric washer and which very badly burned the lower part of her body before she was discovered by other members of her family.

Mrs. Greyerbiehl, who was soon restored to consciousness under the ministrations of Dr. M. A. Roan, was unable to account for the accident. She remembered, she said, having turned off the current because the motor of her washer did not seem to be working properly. Then there was a flash, and she remembered nothing further.

The burning wires scorched great welts upon one limb for its entire length. One foot was badly burned, as were her right hip, her left side and her right arm. Had Mrs. Greyerbiehl's predicament not been promptly discovered by other members of the family, there is little question that she would be burned to death. As it is, she is in a very serious condition, but Dr. Roan is confident that she will recover.

At St. Alexis hospital this afternoon she was reported to be resting as comfortably as could be expected under the circumstances.

Electricians are unable to account for the accident, as the wiring and insulating of the motor connections appear to have been in good condition, and no defects have been found, which would account for the short circuiting that apparently caused the shock.

House Authorizes President to Name Prohibition Zones

Washington, D. C., Sept. 9.—Without a dissenting vote the house today passed the senate resolution empowering the president to establish prohibition zones.

ITALY PROTESTS. Washington, Sept. 9.—A protest against the provisions in the war time prohibition bill barring importation of wines, except those in transit, after having been made by the Italian government through Ambassador di Celere. Real Sober Boy. Cliff Norton, a popular Bismarck commercial traveler who now is doing his bit at Camp Shelby, Hattiesburg, Miss., as a member of the 113th supply train, looked like a real sojourner in a photo which he has mailed to Adjutant General Fraser. Private Norton says that any man who's not in the army is missing half his life.

Smoking on Mason. Lieut. Sidney Mason's friends are smoking at Harris & Co.'s this week on the popular young soldier's recent marriage. Lieut. and Mrs. Mason are spending their honeymoon on Mrs. Mason's big ranch in Sioux county, where they are harvesting a record-breaking flax crop.
