Duluth, Aug. 9 .- Wheat started in strong this morning with yesterday' government crop report interpreted as bullish. Later moderate easiness developed in the absence of export demand with offerings by foreigners out of line, and final prices were off around 11/2c.

Operators are watching the rail-Operators are watching the rails road strike situation closely, as it is assumed that its settlement would lead to a more active movement of grains of all kinds to this market. From information received by operators, it is though that farmers over the northwest will not be in a rush to market their crops this fall but will pursue a policy of selling sufficient to cover their pressing liabilities. While it is taken for granted that the early market five per cent. Sales approximated to a more active movement of grains of all kinds to this market. Early reactionary tendencies were checked by buying demonstrations in public utilities and leathers which imparted strength to the whole list, but the market reacted towards the end on renewed selling pressure against some of the speculative favorites which was coincident with an increase in the call money rate to five per cent.
