PIRATES WIN FROM BRAVES

Fist Fight Peps Up Game at Boston

Boston, May 15 .- Pittsburg defeated Boston, 7 to 1, in a game punctuated in the eighth by a near riot took several policemen to Morrison turned back Boston with five hits, three of which were made by Burrus.

The trouble started when Earl Smith, Pittsburg catcher, ran toward the grandstand for a foul fly which he failed to catch. He got in an argument with W. J. Lewis of Boston, a spectator. They were preparing to 'mix" when onlookers said Smith hit Lewis a glancing blow. Police and others intervened and Smith was ordered out of the game as the crowd swarmed on the field.

As he passed down the steps to the visiting team's quarters beneath the grandstand a chair thrown by an unidentified spectator landed on top of him. When Lewis left the park he said he would swear out a warrant for Smith's arrest.

winnings. In connection with the world-famous Derby, it is recalled that no woman has ever won this event, although for years they have been among the competitors. Lady James Douglas, however, triumphed in the substitute race of 1918, her colt Gainsborough winning the 2,000 Guineas and the substitute St. Leger, The Oaks.

In regard to steeplechasing, Lady Nelson won the Grand National in Women owners, however, have

won numerous other big races, the records for last year alone showing that for the third successive season Mrs. C. Sofer Whitburn headed the winning women owners and came eighth on the general list. In the one year Mrs. Whitburn's colors incup following a short illness this came in for place in 22 races, bringspring, he has been hitting all kinds of pitching. And despite his long regime, may perchance again be a class event. On the other hand Eleanor, Lady Torrington, won the City and Suburban, Mrs. R. Jeffrey the Royal Hunt Cup, and Mrs. J. Rudd the Ebor Handicap.

Women for years have been in-terested in the raising of blooded horses, and in this regard it is recorded that Lady Sykes headed the worthy in that he has never been here of a woman ever having been licensed as a public trainer, but durother words, he has had but little ing the war women frequently carried on for the absent trainer men folks who were at the front. No woman either has ever been licensed to ride under Jockey Club rules, but there is talk that they may, sooner or later, and ride in such events as the Newmarket Town Plate and point-to-point races generally.

LESSONS FROM U. S. HIGHWAYS

Stockholm, May 15.—American road building experience, technique and machinery will be used in re-buildng and perfecting Sweden's national highway system in order to serve the country's ever growing automobile traffic. This has been announced here in connection with the op-

ening next June of a special laboratory for the testing and selection of new paving materials. The engineer in charge, Ragnar R. Schlyter, has personally made a study tour through the United States. Sweden spends 72 percent of the

income from automobile taxes for the re-construction, widening or re-paying of roads, 10 percent for new road building machinery, four percent for new bridges, two percent on new surface materials and two percent on research work. American methods of drainage have already been adopted in the southern part of the country and, allowing for differences in climate, the American style of surfaces probably will be followed. The scientists in charge have found that of all countries, the United States is the most advanced in the matter of making automobile roads.

Burleigh County Growers are Asked to Cooperate in Killing Pest

Gopher poison is being mixed at the court house for Burleigh county farmers and is ready for distribu-R. S. Zimmerman, leader of tion. rodent control for the United States Department of Agriculture has issued the following statement in regard to the gopher menace in this county: "For the last several years Burleigh county has not cooperated as a whole in poisoning the flickertail gophers. Here and there a township has taken steps to treat the infested area within a township, while other townships have neglected to consider the gopher as a serious factor in cutting down the annual yield. This spring so many of the townships called for gopher poison that the Board of County Commissioners passed a resolution authorizing the county auditor to arrange for cooperation with the U.S. Department of farmers throughout the county. By purchasing poison materials and other ingredients of which the bait is made, as well as poison sacks in wholesale lots, farmers in the county will realize a great saving. To date some 500 bushels have been treated and sacked ready for distribution. This bait was treated at Sterling, McKenzie, Bismarck, Wil-Wing. Farmers desiring bait may obtain the same from their

township officers. "We have an average of one gopher for every two acres, 529,920 "gophers" in Burleigh county. Nature has paired them off this spring and we will have 264,960 families. Each family will raise on the average four young 'gophers' this year. If we do nothing to offset the natural increase, we

will have 1,324,000 "gophers" by fall.
"From careful field tests it has been learned that a single 'gopher' requires one-fourth bushel of grain to put it in shape for its winter nap. At this rate, Burleigh county contributes annually 331,200 bushels of grain for the 'gopher' banquet.

"There is no harm in being conservative. Let us say that only-one fourth of this amount is consumed by our gophers. 82,800 bushels of grain is a lot to feed to the gophers. How many bushels will your farm contribute this year?

"Be sure and call on your township clerk for your portion of bait. Remember the county is furnishing this bait to you farmers with the expectation that you put it out. If you have gone over your field once, try going over the second time. There is one phase of gopher poisoning which is often neglected and that is the task of retreating the field. No one can find all the gopher holes the first time over. Better do the retreating before the grass and grain gets too high. Some farmers figure that we are a little late in getting out the bait. However, farmers in some of the counties in North Dakota do not attempt poisoning their gophers until the latter part of May as it is a proven fact that better results will be had when the gophers are storing the grain for winter use. In storing the grain, they carry the oats in their check pouches. The strychnine poison is then absorbed through the lining of their mouth, Agriculture and the North Dakota and the poison acts much more Extension Division for the treating of bait to be supplied to the various.

On not put the bait down the gopher of bait to be supplied to the various holes. The gophers in Burleigh county come outside to eat. They use their underground home to sleep in. Just a teaspoonful scattered on the hard surface of the mound will be sufficient for each gopher burrow.

REGINALD DENNY KICKS ON PAY AS MOVIE STAR

(By The Associated Press)
Los Angeles, Cal., May 15.—The
Los Angeles Times today revealed the salary and complaint of Reginold Denny, movie actor, together with his plans to go to Europe and stay there unless he received an increase in salary. Denny is working for Universal. He said, with an aggrieved look: "My salary is only \$850.00 a week, and up to a month ago it was only \$700 weekly."
