How can that building be fireproof? It's made so by a fire insurance policy. Our policies will cover you for any amount and our premium rates are pretty reasonable.

## Fire

is liable to destroy your building at any time. Why not provide for such an emergency? When it does come you can erect a new building with the money paid over to you, in accordance with the terms of the policy. You then feel the blessings of fire insurance. Why delay any longer? Call on us for full particulars as to policies, premiums, etc.

## The Lecture Last Night.

One of the most intelligent and appreciative audiences assembled at the opera house last evening to hear Geo. R. Wendling's lecture on "Stonewall Jackson."

Mr. Wendling showed himself to be one of the most scholarly lecturers that has yet appeared before an audience under the auspices of the Lyceum course. He won the approval and attention of his audience at the start and retained it through his vivid descriptions of the thrilling scenes from 1861 to 1865, in all of which Stonewall Jackson was the true Stonewall until his death, were realistic and showed the feelings of the speaker and careful study of the subject.

Mendelsohn's Male Quartette, which will appear at the opera house January 3, will be the next number of the Lyceum course.

## Opera House.

Manager Robinson has a treat in store for his theatergoers all next week. He has secured the well known North Bros comedians to appear here the entire week, changing the play at each performance. This company comes here highly praised by the Dallas and Fort Worth papers, and our theatergoers can anticipate a treat. A very delightful feature of this attraction is the ladies' orchestra, known as the famous Palmer Sisters, considered the finest ladies' orchestra before the public, and during the past summer the principal attraction at Cycle Park, Dallas. At each performance they will give a half hour musicale before the curtain rises. During the engagement the prices will be 15, 25 and 35 cents, and on Monday night one lady will be admitted free if accompanied by a person with one paid 25 cent ticket purchased before 7 p. m.

Tonight hear "Eli Perkins."

## Suit Against the Frisco.

R. H. West and others returned last night from Sherman where they have been in connection with the law suit of R. Woody vs. the Frisco railroad. Mr. Woody is suing for \$10,000 in the Sherman court for damage done to him by an employee of that road. Many of our readers will remember Mr. Woody as the man who was hurled by hot water being thrown on him some time ago by a passing Frisco engine in a cut near Ardmore. Mr. Woody claims that water was thrown on him purposely, intentionally, therefore the damage suit. The jury was charged this morning with no verdict has been given as yet.

Painfully Scalded.

Little Mannu Boys, who is making her home with Mr. and Mrs. W. R. Burditt, was painfully scalded yesterday afternoon. The little girl conceived the idea that she must do her washing. A vessel with her doll clothes were arranged and the child went to the stove for hot water. A pint cup was filled with boiling water and in conveying it to the clothes the child fell, the water saturating the sleeve and causing a painful burn on the arm. Emergency remedies were at hand and she was soon relieved of intense pain.
