## THE DAVENPORT BILL

FAVORABLY CONSIDERED BY DEPARTMENT OF JUSTICE PERTAINS TO OKLAHOMA.

Washington, D. C., April 27.—(Special)—The Davenport bill providing for the creation of three divisions in the eastern judicial district of Oklahoma has met with favorable consideration at the hands of the department of justice. This is regarded as the first step towards the enactment of the bill into law. The fact that less than 30 days of the present session of congress remain may operate to defeat the measure at this time, but it is regarded as a foregone conclusion that the bill will be enacted into law next session. If the bill becomes a law it will greatly facilitate business in the courts in the new state and will enable attorneys to have their cases continued from one court to another in the same division. Under the present conditions when court closes at one town postponed cases cannot be heard or considered in any manner until the court has made the entire circuit and returns to the town of "original jurisdiction" which usually means a postponement of a year.

### How is This.

An annuity policy with the Prætorians would pay you \$50 per month for life for the loss of any two limbs; \$50 per month for life or the loss of both eyes from an accident; \$15 per month for life for the loss of any one limb, or after reaching the age of 70 all payments cease, and you would receive \$50 per month for life for physical disability, and at your death the amount of the annuity would revert to your widow until death or remarriage. On the death or remarriage of said beneficiary the \$50 per month would revert proportionately to the minor children until each of them attain the age of 21. See M. B. Wheeler, State Manager, room 6, Sims-Pennington Bldg.

Foley's Orimo Laxative is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Cures constipation. Sold by all druggists.

## FINANCIAL LETTER.

New York, April 27.—(Special)—There were three far-reaching and important happenings last week in the financial world. First was the announcement of the \$10,000,000 bond issue of the Pennsylvania railroad, \$20,000,000 to be issued here and \$20,000,000 to be sold in London and Paris. Kohn, Loeb & Co., the local bankers, announced at the close of the week that the subscription books for the \$20,000,000 reserved for this country would be closed before April 27, as already nearly \$20,000,000 subscriptions had been received. The success of the issue is therefore assumed, and the effort of the announcement was world wide, as it shows that American investors still have confidence in American securities.

Another important occurrence was the advance of 4 points in the stock of the Standard Oil company. This stock is up 80 points since April 1, and 220 points since the October panic. This is an appreciation in the capital stock of the company of \$20,000,000. The advance in financial circles, is interpreted to mean that the Rockefeller-Rogers-Stillman-Frick crowd is once more hopeful, and believe that business improvement is near, and advances in the prices of stocks certain. This idea resulted in sharp advances in all issues traded in on the New York and Consolidated stock exchanges, and Union Pacific, United States Steel and numerous other issues made new high records for the year.

The New York legislature passed an anti-bucket shop bill which has caused alarm in certain circles. It will result in a number of wire-houses leaving the state. The passage of the bill is due to the efforts of Ogden D. Budd, president of the Consolidated Stock Exchange, who has for years been working a determined fight against the bucket shop evil.

Wall street on Friday received a shock, when it was announced that T. A. McIntyre & Co. firm, with many branch offices throughout the country, had failed. The failure is said to be a bad one, and is considered the worst failure in the history of Wall street. In the face of the new stocks advanced, showing that the market has been thoroughly liquidated and is now in a position to respond to good news.

Cash continued to flow to this center from the interior, and despite the shipments of \$7,500,000 of gold abroad and the announcement that the United States treasury will recall \$50,000,000 on deposit from national banks throughout the country, rates for time and call money were slightly easier.

On Tuesday the United States steel corporation will announce its earnings for the first quarter of 1908. It can be said on excellent authority that the earnings, all things considered, will compare very favorably with the first quarter of 1907.

On technical grounds it would appear as if the stock market was entitled to a slight reaction.

## GAVE \$200,000 UP TO WED

MILLIONAIRE'S BRIBE PUT ASIDE BY HIS DAUGHTER.

William Penn Camblos, Philadelphia Banker, Offered a Fortune in an Effort to Prevent or Postpone a Wedding.

New York, April 27.—Incidental to a happy honeymoon at the Plaza hotel the secret came out this afternoon of how, rejecting her father's offer of \$200,000 to give up the man of her choice, Miss Helen K. Camblos, 19 years old, daughter of William Penn Camblos, a millionaire banker and broker of Philadelphia, brought to an end her pretty romance last Monday evening by becoming the bride of William J. Ryan, proprietor of a number of theatrical ticket offices in Philadelphia hotels.

The wedding took place in the church house of St. Patrick's church, Philadelphia, the ceremony being performed by the Rev. William Kiernan. After the ceremony Mr. and Mrs. Ryan, happy at the successful termination of their plans, came to this city in a motor car and registered at the Plaza.

The determination of the young couple to have the marriage performed was reached suddenly and was carried out with astonishing promptitude. Last week they both spent several days at Atlantic City, where they met and discussed their future plans for their happiness together. All at once, he laughingly admitted, Mr. Ryan suggested that they get married without further delay. They had long known each other and had been engaged for some time, although no date had been set for their marriage.

Miss Camblos was favorable to the idea and together they journeyed in a motor to Philadelphia where they suddenly appeared at Mr. Camblos's office much to that man's astonishment.

"We have decided to get married—and right away," Miss Camblos told her father. Mr. Camblos said nothing, but quickly drew from a private drawer his check book and proceeded to write out a check to his daughter's order for \$200,000.

"That check is for you," he said, turning about from his desk abruptly, "if you will agree to call this taking off for a while, anyway."

Miss Camblos looked from her father to her suitor and then back at her father.

Mr. Ryan said nothing. He awaited the girl's decision without offering a word in his own favor.

"I guess we'll get married," the girl said.

Leaving behind the \$200,000 check, the young couple started out at once to find a minister. They went to St. Patrick's Catholic church, and the Rev. Father Kiernan performed the ceremony.

### He Got What He Needed.

"Nine years ago it looked as if my time had come," says Mr. C. Farthing of Mill Creek, Ind. Ter. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at W. B. Frame's drug store. 60c.
