Embroideries Are Pre-Eminent

"It would hardly be possible to lay too much stress on the use of embroideries. They appear not only in bands, flouncings and all-overs, but in the most extravagant forms."

The above quotation from the Palm Beach fashion number of the Dry Goods Economist reflects the present popularity of embroideries in style circles, and foreshadow a great demand throughout the summer season.

ARDMORE LEGAL TALENT

ATTORNEY GREGG OF EASTERN DISTRICT PLACES RESPONSIBILITY ON DEPARTMENT.

When Governor Haskell and other Oklahomans had been indicted by the federal government in the town lot cases the governor sought for Ardmore legal talent and employed A. C. Gregg of this city.

Mr. Gregg spent much time on the legal questions involved and before he left here to try the case said that if the government should prove every charge made in the indictment that the government would not secure a conviction for the reasons that the allegations if proved did not constitute a crime.

Mr. Gregg was successful in having the indictments quashed and while he will make no statement for the press he is of the opinion that the suits are at an end.

ROCHESTER AT FLAMES MERCY

TWO FIRES BREAK OUT SIMULTANEOUSLY IN DIFFERENT PARTS OF THE CITY.

FIREMEN SEEM HELPLESS

Syracuse and Buffalo Fire Departments are Being Rushed to Rochester to Assist in Subduing Spreading of the Flames.

Rochester, N. Y., April 12.—The city of Syracuse appears to be at the mercy of two alarming fires, which are raging simultaneously in different sections of the city.

At 2 o'clock this afternoon the fires were still spreading and the loss at that hour had already amounted to more than one million dollars.

The Rochester militia are on duty in the streets and help has been summoned from Buffalo and Syracuse.

Fire broke out in the four-story building at the corner of Gibbs and Main streets. From there the flames leaped to Saint Peter's church in Grove street and then the big Jewish synagogue and apartment houses on Grove street, valued at more than \$100,000 were swept away.

The flames then attacked a score of residences on that and adjoining streets and are now spreading to other buildings. Numerous houses are now burning without a single stream of water to check the progress of the fire.

About the same time as this fire, another broke out in the First Reformed church on Nassau street in another section of the city, one mile away. Only one fire company could be spared for this fire and the church building soon fell a prey to the flames, which spread rapidly to adjoining residences and that fire is now spreading rapidly along the streets of that section of the city.

SERIOUS MEXICAN RIOT.

Six Policemen, Eight Rioters and Three Soldiers Reported Dead.

Monterey, Mexico, April 12.—A special in the News from Velardena, in the state of Durango, gives the details of serious rioting, which occurred here on the night of Saturday, April 10. The rioting, which grew out of religious differences, six police officers, six or eight of the rioters and three soldiers are reported dead and many of the rioters have been arrested.

The village priest, believing he had secured authority for the holding of religious processions outside of the church, started out on the night of Good Friday with one of the processions in which images were carried through the streets and chants were sung. A large crowd followed in the procession, as the inhabitants of this district are intensely religious.

Shortly after the procession had started the Jefe de Policia ordered the arrest of the priest for violation of the laws of reform and stopped the procession. The next night, Saturday, a large crowd of armed men entered the little town and proceeded to burn the residence of the chief of police of the town. The police force of Valardena, which is a small one, was powerless against the mob, but opened fire upon them, killing several. The fire was returned by the mob and six policemen were killed and two others wounded.

Troops were telegraphed for from Durango and immediately sent to the scene of the disturbance. The troops succeeded in quelling the rioting and made many arrests, including the priest and the chief of police, and took them to Durango. Two of the rioters were shot by the soldiers for resisting arrest. The affair created a great sensation in that district and more trouble is feared.

The Velardena district is a large mining district, and the town of Velardena is the location of one of the largest of the smelters of the American Smelting and Refining company.

IS CHITTO HARJO DEAD?

SENSATIONAL RUMOR IN CIRCULATION AT MUSKOGEE THAT CRAZY SNAKE IS DEAD.

Muskogee, Okla., April 12.—A rumor is in circulation here to the effect that Chief Chitto Harjo, alias Crazy Snake, had departed for all time to come from Hickory camp and vicinity and had become the proverbial good Indian in the happy hunting grounds.

According to the story a member of a McIntosh county citizens' posse who pursued the old chief into the fastness of the Tiger mountains, near Plover, after the killing of Deputy Sheriff Hermon Odum of McIntosh county and Town Marshal Baum of Checotah on the evening of March 27, shot and killed Crazy Snake and then fearing an investigation, buried the body in the brush, concluding the ceremony by swearing all the members of the posse to secrecy.

Asked today if he placed any credence in the story of Crazy Snake's death Union Indian Agent Kelsey said his district agents have been continually on the ground ever since the trouble began and should have learned of the death of the old chief if it had occurred. No report has been received from them verifying the story.

J. George Wright, Hayes commissioner, said today that while the story was not an improbable one, he doubted its accuracy and expected Crazy Snake to eventually turn up in the flesh. He said he conferred with Adjutant General Canton over the telephone last evening and the latter said that Colonel Roy Hoffman had returned to the vicinity of the Hickory grounds to join the dozen soldiers left there to continue the search for the old chieftain.

DESCENDANTS OF THE SIGNERS.

President and Mrs. Taft Receive Descendants of Signers.

Washington, D. C., April 12.—President and Mrs. Taft received the Descendants of the Signers, a society of lineal descendants of the signers of the Declaration of Independence, at the white house on Easter Monday. The occasion was the quarterly meeting of the board of governors of the organization.

The reception at the white house took place in the afternoon. Immediately before this the members of the society visited the department of state to see "the immortal document" which was signed by their ancestors. At night they held an entertainment at the Arlington Hotel, among the speakers at which were members of the cabinet, United States senators and foreign diplomats.

Today, the 176th anniversary of the birthday of Thomas Jefferson, the descendants go from Washington to visit the University of Virginia at Charlottesville and the tomb of Jefferson at his old home, Monticello. Dr. E. A. Alderman, president of the university, and members of the faculty welcomed them. The visitors took part in the Founders Day exercises and afterward will be entertained at luncheon on the university commons.

A committee from the local chapter of the Daughters of the American Revolution will then accompany the party in a procession to Monticello. There will be ceremonies at the tomb, with addresses by the president of the society and by the mayor of Charlottesville.

UNKNOWN MAN KILLED.

Struck by Train Near Sanger, Texas, Yesterday Morning.

Sanger, Tex., April 12.—This morning a southbound passenger train struck and killed an unknown white man at Spring Creek bridge, about a mile south of Valley View. The train was stopped and the body picked up and brought here. The man appeared to be 50 or 55 years of age, light complexion, with about ten days' growth of beard on his face, there were no letters or papers about the body or in his grip by which he could be identified. He had on two coats and blue overalls, and an Orr Brothers hat. He had a telescope grip, in which was a new suit of blue black serge clothes and a medium-sized natural colored Stetson hat, also a new razor, a pipe and some Catholic emblems, a cross and an image of the Virgin Mary. He was about 5 feet 8 inches tall.

HEAVY COSTS ARE ASSESSED

SUPREME COURT OF MISSOURI ASSESSES COSTS OF FOURTEEN THOUSAND DOLLARS.

IN STANDARD OIL OUSTER

Sum Represents Expense of Taking Testimony Before the Special Commissioner and the Feeing of the Witnesses.

Jefferson City, Mo., April 12.—Costs of \$14,450 were taxed against the Standard Oil company of Indiana, respondent in the recent ouster suit decided adversely to it by the supreme court of the state today.

The sum represents the expense of taking testimony before Special Commissioner Robert C. Anthony and the feeing of the witnesses.

THE LAND SUITS

The reporters for the Ardmoreite called at the office of Judge James E. Humphrey this afternoon and when asked about the present situation of the land suits by the government at Muskogee, Judge Humphrey said, "The whole question as to the right of the United States to maintain the suits was now in the hands of Judge Campbell for a decision. The demurrer was argued orally commencing the 22nd of March and lasted for three days and a number of printed briefs were filed. We confidently expect that the judge will sustain the demurrer and dismiss the cases. There may be some frauds committed here and there and the people of this state are anxious that actual frauds be prosecuted in the proper courts and the state courts of Oklahoma are able to care for the rights of its citizens. Should the court dismiss the cases it is very doubtful if the government would appeal as there is now a new administration and some care would be taken. If the court should overrule the demurrers then the demurrants would appeal to the supreme court of the United States, probably a few selected cases as test propositions."

Judge Campbell said at the conclusion of the argument that owing to the great importance to the state of these cases, that the consideration of the legal questions involved should have the right of way, that he would receive for fifteen days printed briefs and after that give the questions involved his immediate attention. It is probable that the town lot cases will be decided this week but the legal questions involved in those cases are entirely different from the land cases. It is understood that a decision will be reached sometime this month.

Pope is Determined.

Rome, April 12.—A semi-official communication from the Vatican today announces that on the occasion of the beatification of Joan of Arc this month the pope will receive the French bishops and hear their reports in the matter of the separation of the church and state in France. He has declared again, however, that he can not modify his attitude on this question.

"The pope has resolved to persevere in the status quo," the communication says, "and will abstain from approving any combination implying the recognition of the separation law."

NEW HIGH RECORD MARKS ESTABLISHED IN MAY, JULY AND SEPTEMBER WHEAT TODAY.

ONE MAN IN CONTROL

Patten Has Such Hold on the World's Available Supply That a Higher Price May Be Established—Crop Will Be Short.

Chicago, Ill., April 12.—May, July and September wheat established new high record marks at the opening today.

May wheat, the available supply of which is in the hands of one man, opened at \$1.27 to \$1.28, which is three cents better than the most sanguine predictions made months ago by the leading bulls.

July opened at \$1.17 3-8; September \$1.09 3-8.

The general belief is forcing itself upon the traders that there is a world's shortage of wheat.

DREW & RAMSEY.

MUSKOGEE CASE DISMISSED

MIDLAND MILLING COMPANY OF MUSKOGEE WANTED GRAIN RATE RE-ESTABLISHED.

Washington, April 12.—The Interstate Commerce commission today dismissed the complaint of the Midland Mill and Elevator company of Muskogee, Okla., against the Kansas Southwestern Railway company and others. The elevator company asked for the re-establishment of joint through rates on grain and grain products from all points on the line of the Kansas Southwestern railway to all points on the lines of the four other defendants. The commission decided that the facts disclosed by the record in this case do not show that the complainant is entitled to the joint through rates prayed for. The record showed that there are through routes and joint or proportional rates from all points on the Kansas Southwestern line to Texas and Louisiana points over sundry lines. No producer or shipper on the Kansas Southwestern and no consumer or purchaser in Arkansas, Louisiana or Texas has made complaint against the present rates.

KILLED IN WINDSTORM

HEAVY PROPERTY LOSS IN WIND STORM AT PITTSBURG TODAY. MANY INJURED.

Pittsburg, Pa., April 12.—One death and a number seriously injured is the result of a severe windstorm, which visited this city and vicinity today.

The property loss is very heavy.

BUSINESS INCREASED

THE BUSINESS OF SWIFT & CO. IN PAST YEAR—UNUSUAL ACTIVITY.

Ardmore this spring is the most active city in the state. The post office receipts show a greater gain than in any other city. Traveling men all say their sales in the Chickasaw nation are much heavier than last year; the freight and passenger receipts of the railroads have increased wonderfully and business in all lines is much better than a year ago. The merchants report that their sales are very satisfactory and even better than they had contemplated.

As an index to the growth of the wholesale business the Swift Packing company's business may be taken as a fair example. E. J. Jarvis has made his report to the company for the March period. It shows an increase over the same period of last year of eighty-six per cent. This is a remarkable increase in business and is a clear index to the prosperity of this section of the state.
