Failure Near Good Well

At seven feet in the sand, the Gladys Belle Oil company's well in section 2-18-13 failed so rapidly that it was necessary to shut down and provide tankage before it could be drilled any deeper. The sand was found at 528 feet.

It is the first well outside of section 4-18-13 to produce any oil and is practically the only direction that an extension is possible. It is located in the northwest corner of the northeast quarter of the northeast quarter of the section and is two locations southwest of Ballard's second well on the Jarrell-Osborne farm. The test well is due in the pool.

There are forty 250-barrel tanks in the field full of oil and with the exception of the wells which are supplying fuel to the drilling wells, the production of the field is shut in. It is now almost certain that a line will be laid from the field to the railroad at least and that in the near future

WITH THE LIVE ONES

W. S. Parks, formerly of Pawhuska, is now at Tulsa where he is interested in the management and development of the Lone Oil company.

J. E. Kelly of the Kelly Oil company of Ponca, Kan., was at Tulsa yesterday in connection with the Arkansas, Louisiana and Texas development.

J. H. Fisher, general superintendent of the J. H. Galey Petroleum company, the Gypsy Oil company and the Gulf Pipe Line company is at Tulsa for a few days visit. Mr. Fisher makes Beaumont his headquarters.

One buck, four turkeys and plenty of small game is the prowess of a hunting party composed of all men which returned to Tulsa on Monday. In the party were George H. Johnson, C. M. Lancaster, C. W. Grimes, Baker Grimes and Carl Hudson all of Tulsa and Frank Hudson of Pawnee. The men were camped in McCurtain county and were gone 10 days.

C. J. Henthorn, southwestern representative of the Macomber & White Rope company left last night for a trip to the southern oil fields, making the North and Southeast Texas fields. He will then go to Columbus, O., for the holidays after which he will go to Chicago and eastern points before returning to Tulsa, where he makes his headquarters.

If I Ate That I Would Die

You Will Never Fear Food If You Go to a Dinner Carrying Our Little Stuart's Dyspepsia Tablet.

You needn't pass up all those savory dishes just because you are afraid it won't the stomach will say to them. Armed with a box of Stuart's Dyspepsia Tablets, you can set defiance to the most unsatisfactory stomach and be assured that your food will be perfectly digested in spite of the stomach's objections.

"At Every Banquet You Will Always See Some Person Who Is Afraid Of Food."

Stuart's Dyspepsia Tablets are a compound of pepsin and those elements that must be secreted in the stomach if the food is to be digested. When the stomach fails to secrete enough of these digestive corrosives the only sane remedy is to supply a sufficient quantity of these elements to digest the food. This is the service for which Stuart's Dyspepsia Tablets were made and they are recommended by leading doctors and scientists. One of these tablets is sufficient to digest the largest dinner. They stop almost instantly all forms of indigestion, such as sour stomach, belching, heartburn, dizziness, headache and dysentery. Stuart's Dyspepsia Tablets contain digestive elements, a single grain of which is capable of digesting 3,000 grains of food, such as meats, eggs, grains, vegetables, starches and mineral matters of all kinds.

If your stomach is sluggish or worn out let Stuart's Dyspepsia Tablets do your digesting for you until the stomach can recuperate. Give it a little vacation. It has a hard enough struggle at the best with all you put in it. And even when your stomach is in perfect condition, you will occasionally need one after a big banquet or other social affair that taxes your stomach to the uttermost.

Make Stuart's Dyspepsia Tablets the ever-ready friend and assistant to your stomach. Get a box of your druggist today. Adv.

While passing on the Ranger Winkenhofer & Mickelson well in section 11-16-11 the mast broke and a Mr. Hendon, employed by Bert Hemmingway had his leg broken. He was brought to Tulsa for treatment.

Charley Wilson who has been drilling at Ponca City, was at Tulsa yesterday. Mr. Wilson has been in Kansas for several months and has drilled 12 wells on the property in which he is interested. He says he is home good producers. His three dry holes came in a row and it is suspected that Clarkson is drilling all the dry holes but as the rest of the wells will all be producers and the fear of getting any more dry holes will be entirely eliminated.
