Ballance, Tulsa, republican; county republican; Sherman Mootser, Hanna, McIntosh county, republican. Time for filing for all state offices will close at midnight Sunday, Secretary McAlester of the state election board has announced.

STATE GUARD PRAISED

Governor Speaks to State Troops at Oklahoma City—Reserve Can Be Depended On He Says.

OKLAHOMA CITY, June 12.—The Oklahoma national guard was praised as a "reserve which could be depended upon always to defend law and order" in an address delivered today by Governor Robertson to members of the national guard attending the training camp here. The governor criticized the postponing of the Oklahoma City police force.

The governor said he was friendly to labor and wanted both labor and capital "to get what is coming to them, but when they enter into conflict it is the duty of the police and national guard to see that they do not infringe on the larger rights of the public."

Governor Robertson and other state officials were guests at a dinner given at noon by the national guard. In addition to the governor, state officials who attended were Attorney General Frazier, A. N. Leach, state treasurer, J. A. Whitehurst, president of the state board of agriculture; R. H. Wilson, state superintendent of public instruction; Lester Taylor, chairman of the state industrial commission.

Boilers of an electric light plant in Spitzbergen have been heat insulated to prevent them thawing the always frozen ground and sinking into it.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!
Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your greaser has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy white the skin becomes. Yes! It is harmless and never irritates.—Advt.

Electro-Medical Doctors Modern Treatment Methods

Consultation, advice and examination, including where required the X-Ray, Chemical Analysis and Blood Pressure Test entirely free. Such is the offer made The Electro-Medical Doctors to the sick and ailing who call upon them during the next seven days.

The Electro-Medical Doctors' object in making this offer is to give every sufferer a chance to know what can be done with the wonderful new Electro-Medical System of Treatment in his or her own particular case. Cases that cannot be greatly benefited or cured will not be accepted for treatment.

The examination is the most important part of the proceedings when a sick person calls at The Electro-Medical Institute, whilst it is free during the next seven days, yet it is as accurate as if the patient had paid the regular examination charges in full. The most delicate man, woman or child need have no fear either of the X-Ray or of the electrical treatments as they are harmless, painless and safe in the hands of experts.

The diagnostic and treatment apparatus used at The Electro-Medical Institute are many. The machines—delicate and intricate electrical devices—find the cause of the trouble with astonishing accuracy. At the Institute the fact is proven that science has so modified and tamed electricity that the weakest child or invalid can stand its force without fear or pain. The forces of electricity are sent through the

The Electro-Medical Institute, located on the second floor of the building at 214 1/2 South Boston St. (Between Second and Third Streets) is rightly called "A Healthy Place for Sick People." The Electro-Medical Doctors are offering free X-Ray Examination, Blood Pressure Test and Chemical Analysis, where required, to all sick and ailing who call upon them during the next seven days.

The upper and lower photograph shows an X-Ray examination being made of a patient through the wall of one of the consultation rooms at another Electro-Medical Institute. The patient is standing on the opposite side of the wall in the consultation room, opposite the X-Ray tube. An X-Ray examination cannot even be felt and is therefore painless.

No force is so uniformly potent in relieving and eliminating human ills as electricity in the hands of experts who understand the use of the currents. It is the only remedy upon which all human beings can rely. It is positive and certain in action. If you value your life—your health—and want to keep your looks and keep vitality and are tired of drugging—then throw away medicine bottles that may contain strong drugs or poisons and take the modern treatment at The Electro-Medical Doctors, which is within the reach of all sufferers. The treatment that has snatched many from near death, from a life of pain and suffering. For each and every disease there is a definite electrical current which treats conditions—not symptoms—electricity works with nature—not against it. It reaches sick spots which medicine does not reach and it causes no pain, no sickness—no bad taste. Every day you delay brings you nearer the incurable stage.

Among the ailments treated at The Electro-Medical Institute are anemia, asthma, biliousness, bladder and blood troubles, bronchitis, bowel trouble, catarrh, cystitis, constipation, dropsy, deafness, stomach gases, gall stones, gastritis, goitre, hysteria, headache, heartburn, intestinal troubles, insomnia, kidney trouble, liver complaints, weak lungs, nervous debility, paralysis, skin diseases, rectal troubles, rheumatism, stomach trouble and other diseases of women and of men.

Modern electrical treatments have no comparison with the old crude electrical batteries and shocking currents. At The Electro-Medical Institute the current that lights homes and runs street cars is used and is harnessed to the wonderful machines by which every jar and jerk is removed and it is then sent through the body as softly, smoothly and pleasantly as a ray of sunshine.

At the Electro-Medical Institute such treatments are given as X-Ray, high frequency D'Arsonval, Diathermic, Oudin, Tesla, Galvanic, Faradic, Sinusoidal, Auto Induction, Auto Condensation and other currents, also Vibratory treatment, Ultra Violet Light, Actinic light treatment, Ozone inhalation, Medicated inhalation, in addition to many other treatments, the cost of which is so moderate that it is no longer the privilege of the rich only as has so often formerly been the case.

Whilst there is no sensation of the high voltage current going through the body, the patient may become aware of the force in his system by the doctor touching him and drawing out a string of sparks from any part of the body or igniting a sheet of paper from the body or even illuminating an electric globe whilst the patient holds the globe in his hand—all the time the patient feels nothing.

The effect of electrical treatments are marvelously rapid. Relief can be given on one or more treatments, whilst often a cure is accomplished in the milder cases in the same time.

This treatment is decidedly beneficial in diseased conditions of the nose and throat, anemia, catarrh, asthma, lack of vitality and nervousness.

THE RIGHT SYSTEM

Discouragement greets many sick people month after month and often enough year after year in their search for health. Often enough they never find it and go through life in misery and pain. The sooner the sick learn it is not the doctor that counts, but the system of treatment he practices, the sooner there will be less of this hopeless seeking for health.

Practically all system of medicine and electro-therapeutics is practiced by The Electro-Medical Doctors, and hence the wonderful results they obtain in nearly all cases they accept for treatment.

FOR SUFFERERS

"In cases of rheumatism, asthma and kidney diseases and also in neurasthenia with high arterial tension, the application of high frequency currents causes a reduction of the blood pressure. This reduction is progressive from one treatment to another and occurs in cases of arterio-sclerosis (high blood pressure) for which the high frequency currents are an excellent treatment"—Toussay. (Used by The Electro-Medical Doctors.)

EAR, NOSE AND THROAT

The Electro-Medical Doctors at 214 1/2 South Boston Street, maintain a special department at their Tulsa Institute for diseases of the ear, nose and throat. Here the patient finds medicated vapor inhalation, mechanical devices for the vibration and massage of the ear drum, sprays operated by pure air and other treatments of remarkable efficiency. In catarrhal, atrophic, bronchial and weakened lung conditions—modern methods of treatment for those afflicted.

Goitre Visibly Vanishes Under New Treatment

Sufferers from goitre are invariably troubled with their heart and find it hard to breathe. Other symptoms are headache, bulging eyes and easy fatigue. The enlargement of the throat itself give a peculiar appearance and even for this reason many persons would prefer to have an operation rather than permanent disfigurement.

The Electro-Medical Doctors have a modern method of treatment that quickly reduces goitres without the knife and without injurious effects to the general system. This is composed of electricity and internal medicines which has long since proven its remarkable efficiency in the treatment of this annoying and dangerous disease.

Skin Eruptions Quickly Healed

How often an otherwise perfectly healthy person finds embarrassment in an unhealthy skin—sometimes caused through a disordered physical system.

Skin diseases are varied and many. They are as a rule stubborn to heal—stubborn to banish. There are scores of various skin diseases and a thorough knowledge of them—with the experience in treatment—is needed by the physician who would give quick relief to the patient.

Acne, Eczema and psoriasis are the most common of these ailments and sometimes a patient is known to have treated years, without getting the slightest relief.

The Electro-Medical doctors have treated in their Electro-Medical Institute thousands of such cases with success. Not success after long treatment, but often in a few weeks to a month proves sufficient to clear the skin entirely of the unightly condition.

Afflicted people should consult The Electro-Medical Doctors at their Tulsa Institute at 214 1/2 South Boston street, immediately. Disease never stands still. It gets better or worse—and it stands to reason if the system was not strong enough to avoid the affliction, then it cannot throw it off. Get the best treatment—the quickest and have the trouble over once and for all. Why treat and treat day after day, from year to year—always suffering embarrassment from skin eruptions?

Tulsa Welcomes You to An Open Shop City

To the Public:

Once more the Tulsa Open Shop (Square Deal) Association, feels that it should state its position and remind every citizen of Tulsa that it stands for a square deal for every individual, firm or organization in this vicinity.

We believe that every citizen of Tulsa, regardless of his affiliation with any organization, wishes to see the wonderful growth which has characterized Tulsa during the past few years continue. WE KNOW that the interest of every citizen will be best conserved if this wonderful growth is encouraged and permitted to continue.

We want it clearly understood that this association harbors no ill feeling against any individual, firm or organization; that it extends a welcome hand to any honest working man who is seeking employment; that it is familiar with not only our present building but with the greater building program which lies just ahead of us. And that it has no desire or intention to bring into Tulsa more mechanics in any trade than will be needed to carry on this building program. We invite every citizen of Tulsa to join hands with us in this movement to make Tulsa a bigger and better city.

In standing upon the principles of open shop we feel that we are standing upon the only principle that will permit Tulsa's wonderful growth to continue, and as Tulsa prospers so will her citizens prosper.

We want it clearly understood that this association believes that any man has the right to belong to any organization that he may desire.

We want the good working men who have helped to build Tulsa to know that this association is standing for a square deal for them; that we are not unkind of the work that they have done in building their homes and ours—Tulsa. We believe that they too realize that Tulsa is fast growing toward big city ways and that if this growth is to continue our doors must always be open to any honest man who is seeking employment, and there will always be work enough for all.

We do deny the right of the Business Agent, Walking Delegate and International Organizer to come into this community, and tell us how to conduct our business, where to buy our wearing apparel and food, and unless we do as they command, that we will have to close up our business, or quit our work and leave town.

Just who are these men, who do they represent, where did they come from, what standing have they in our community, who is paying their salary, and how long would they continue in this work if the working man took a firm stand and refused to contribute to their support, for the privilege of having them dictate to them?

This association extends an invitation to all these men who have helped to build Tulsa to join with them in their efforts to continue this great development in this wonderful city.
