

SENATE REFUSES LOW RICE TARIFF

Southern Democrats Join
With Republicans to
Increase Rates

WASHINGTON, July 8.—There was another wide split today among the democrats on the tariff, a number of them joining with the republicans in rejecting the lower rates in rice written into the bill by the finance committee majority. The lower rates were approved on motion of the committee, which receded from its amendments.

Separate votes were held on each item, but roll call was demanded on only two, those on rough rice and on milled rice. On the first roll call, Ashurst of Arizona, Roosevelt of Hawaii, and Robinson of Arkansas, of New Mexico, Kendrick of Oklahoma, and Shepard of Texas, voted with the majority, while Senator La Follette, republican, Wisconsin, voted with the remaining 11 democrats in favor of the lower rates.

While the rice paragraph was before the senate throughout the day, the debate took on a wide range. Senator La Follette renewed his attack on the bill and particularly on the cotton schedule, speaking for three hours. He declared this was not the time to revise a tariff because of fluctuating conditions in the business world. Although he attacked the present system of tariff building, under which he said "the tariff grabbers" went before congressional committees, secured for the rates they wanted and a rule were given exactly what they asked for.

Repeating the claim that tariffs protect the wages of the workers, Senator La Follette said that "labor never gets any benefit from a tariff if the manufacturers can prevent it."

On the manufacturers making profits of 10, 20, 50 or 100 per cent will not voluntarily increase the wages of their workers," asked the speaker, "what is the use of talking about effecting an increase of those wages through a tariff?"

Robs Filling Station.
Shortly before the shooting, Beaver, walked into the filling station and after backing Dan O'Hara, the clerk in charge, against the wall, rifled the cash register, stuffing \$120 in his pockets. All of the money was later recovered. As Beaver stuck his gun in a hip pocket and ran out the door, O'Hara, so he told the police, went to the other door and shouted the alarm. C. E. Lamir, 2435 South Quanan, also an employee at the filling station, who was sitting on the porch of his home, some 50 yards from the station, notified both police and county officers. The shooting occurred while Lamir was at a phone.

Beaver, according to his brother-in-law, Dave Connor, a former police officer, has been mentally unbalanced for some time and yesterday evening was drunk. Beaver lived with his brother-in-law.

Wounded a Month Ago.
"About a month ago," Connor said, "Beaver was accidentally shot and severely wounded in Enid. He has never been a bit weakened. Not insane or crazy but he often said peculiar things and acted queerly. Yesterday evening he came to my house and slipped in the back door getting my revolver. His younger brother attempted to stop him but failed, due to Beaver's threats of death."

"Beaver has been doing light work at Electric park near Red Fork since he was able to get out. He has never before gotten drunk and I think that his conduct Saturday evening was due largely to the whiskey."

**BILL VALIDATING
INDIAN TITLES IS
PASSED BY SENATE**

Continued from page one
Before District Judge Owen Owen. His decision aroused a storm of protest, not only from property owners in that section but throughout the entire city. The decision was appealed and is now in the supreme court.

Shortly after that decision scores of other Indian title suits, all based on the same proposition, were filed in the district court, and are now pending. It is the contention of attorneys for the property owners that the bill which just passed the senate invalidates all of this litigation into a cocked hat. Attorneys in the Probate Heights case claim that the bill means the winning of their case. However, H. B. Martin, attorney for the Indian women, says that the bill will have absolutely no effect on the case. That is another matter to be fought out in court. At any rate the passage of the bill will be a strong point in favor of property owners whose homes are now in litigation and it will put a stop to future suits.

The bill was introduced in the house of Congressman Chandler.

Chick Factory Overhauled.
Specimen to the World.
WYOKA, July 8.—Baby chicks from the Wyokan hatcheries here have been sent to all parts of the country, and orders came in in such numbers that the company had to return thousands of them.

Dream of Wealth Shattered, Woman Is Left Penniless

Waitress Induced to Accompany Rich Man; License but No Wedding

WASHINGTON, D. C., July 8.—Stranded and penniless, her dream of becoming the wife of a "millionaire" rudely shattered by the sudden disappearance of her fiancé whom she had known but three weeks, Miss Helen Ader, 40, is today awaiting the receipt of transportation back to her home in Pittsburgh. The story she related to the police reveals in romance anything ever penned by famous novelists.

Miss Ader was employed in a Pittsburgh restaurant where she earned barely enough to support her widowed mother and six younger brothers and sisters. Two weeks ago, a man giving the name of Hayes Walker, entered the restaurant and talked with the girl.

He told her, according to the police version, that she was above being a waitress, and offered to make her his wife with the promise that he would provide a \$10,000 income for her mother and the other children.

Enraptured by the glowing picture of riches, ease and comfort which would be hers if she became the supposed millionaire's wife, Miss Ader took him around to their home and gained her mother's consent to the marriage. They secured a license.

Followed then a trip to Harrisburg, Baltimore and finally Washington, Walker, deftly evading Miss Ader's request that the marriage ceremony be performed.

Thursday morning, Miss Ader awoke to find herself penniless and deserted. The marriage license torn to bits. She induced the man who had rented the couple a room to give her sufficient money to dispatch a telegram to her mother relating the story to her benefactor.

DEVELOP FAD OF AUTO POKER

Numbers of License Tags
Form Hands in Game
of Guessing

PITTSBURGH, Pa., July 8.—Automobile poker has become so popular in Sharpsburg, a suburb of a lot of the young men of the town have recently devoted more time to the latest in gambling than they have to their work. In fact, the craze has swept the village to such an extent and the players in some instances have become so bold, that it has become necessary for the police to take notice and shut down on the practice.

Youths have stood on street corners making wagers on the poker hands on the automobile license of passing cars. Seven or eight take part in the new game. Each player puts his money in a "pot," and then they take the first seven or eight cars that pass a given point, the player whose car has the best poker hand winning.

Number one on the license plate contest for an ace. Some of the license plates have straight, full houses, single pairs, two pairs, four of a kind. Even five aces count. As more than 11,111 licenses have been issued in this state this year six aces are possible. Of course, six aces are in bad repute in some sections of the country where regular poker is played, but in automobile poker it's all right if you are lucky enough to draw them. Of course Red Harte never contemplated such a situation as six aces being a lawful hand.

MEDIUM DENIES TRICKERY CHARGE

Lee Says Jealousy Cause
of Expose Circulated
to Discredit Him

E. D. Lee, self-styled materializing medium who was branded a trickster by members of a group of spiritualists at a seance at the home of Joseph Hutchinson on the Sand Springs road Friday night, denied Saturday that he was guilty of fakery, and declared it was jealousy of one branch of spiritualists for another that caused him to be so accused.

Lee denied emphatically that E. S. Brooks, proprietor of the Archer hotel, had unmasked him and caught him impersonating an Indian spirit. He said if those in the audience thought it was a fake spirit they simply were mistaken.

Lee says he is a member of the Oklahoma State church, while the others who were at the seance are members of the National Spiritualist association. He said there is great jealousy between the two organizations, and that the reported expose was a move to discredit him.

Lee, who is stopping at the Fox hotel, declared he would remain in Tulsa for the state spiritualist meeting later this month.

Those who attended the seance at the Hutchinson home, reiterated their statements that Lee had been exposed as a fake. They said Brooks grabbed what purported to be the materialized spirit of an Indian maiden and that it turned out to be Lee. They declared they recognized the medium in the brief moment the lights were on.

No action has been taken by the authorities although it is violation of a state law for admission to be charged at a spiritualist meeting.

DUTT MAY LEAVE FIRST CHRISTIAN

Continued from page one
are up in arms over the board action, characterizing it as dubious in implication and containing a grave injustice to the pastor. Indignation meetings have been held by several church organizations, and action over the situation has permeated the entire church membership.

Dutt Takes No Stand.
Reverend Dutt, as yet, has taken no stand and the board has remained silent since the step which threw a bombshell into the smooth-running church machinery. Settlement will probably be attempted at the regular meeting of the board the third Monday of the month or a special called meeting before that date. The pastor's friends request that the previous board action be rescinded, it is said.

Reverend Dutt has occupied the pulpit of the church for the past five years, with the present year the most successful in the church's history by a wide margin. He is well liked in and outside his church and is active in the ministerial alliance. An outstanding figure in the Brotherhood of the Disciples of Christ both in Oklahoma and throughout the denomination, he is to have entire charge of all music and chorus singing at the international convention of the brotherhood early this fall. He has been in ministerial work for 25 years and is the author of several widely-circulated books and articles on religious themes.

Many Changes in Pastors.
The First Christian church has had more changes in ministerial service than any other large church in the city.

The pastors who succeeded each other in turn during six years were Rev. D. A. Wickizer, Rev. J. G. McGowan, Rev. George P. Taubman and Rev. John W. Darby. Reverend Taubman now has the largest men's Bible class in the world at Long Beach, Calif. Reverend Dutt was

called to the pastorate in March, 1918. During the present church year the church has lost Richard Heilbron, first religious education secretary in the city, and Ernest Evans, student organizer, now returned to St. Louis.

Mail Wreck Injures 15.
GRAND SALINE, Texas, July 8.—About 15 persons were injured, some of them severely, when the Sunshine special of the Texas and

Pacific was wrecked here this afternoon. Only the engine and diner were left on the rails, the remainder of the cars being thrown into the ditch, many of them upended and badly smashed.

A new household water sterilizer which does its work with chlorine gas generated by electrolysis can be connected to any light socket and is made of glass so its operation can be watched.

SPREAD GOSPEL BY PRINTERS' INK

Episcopals Favor News-
papers to Aid Religious
Publicity

NEW YORK, July 8.—Newspaper advertising to further the spread of the gospel is strongly advocated by the publicity department of the Episcopal church, which has brought out its recommendations after a thorough study of the question of advertising in a pamphlet entitled "A Handbook of Church Publicity," issued under the authorization of the national council of the church.

"No one can look at the newspapers and magazines and doubt that it pays to advertise," said the Rev. Robert P. Gibson, executive secretary of the publicity department, and author of the leaflet. "Why should not this method of such proven efficiency be used for the propagation of the gospel? Advertising is not necessarily material. It merely seems to be so because we are not accustomed to it for church purposes."

One of the striking features of the book is Gibson's strong advocacy of the fullest use by the churches of the advertising columns of the daily press not only for mere church notices but for spreading the gospel among the masses.

"We have thought of publicity in the newspapers as merely a method of giving public notice of a service or a meeting, or of making public the account of something that has taken place," says Gibson. "We have thought too much of building up the attendance at a service or of exploiting persons or organizations. We are only beginning to think of church publicity in the public press as evangelistic in purpose. The newspapers themselves are really far ahead of the churches in their recognition of this evangelistic opportunity. Many editors are convinced that the problems of the world will never be solved rightly until Christian principles are applied and that church publicity is one of the functions of the public press to present and apply Christian principles."

"Advertising with an evangelistic purpose," says Gibson, "where the aim is to reach the unchurched, must be in the newspapers." Gibson suggests a form of advertising to churches which will take the shape of a miniature sermon, briefly interpreting some passage of scripture or briefly applying some Christian principle. The length of a hundred words in length, with

the name of the preacher and his church annexed are also recommended.

Church promotion by radio, motion picture, etc., is also considered in the handbook.

REPORT THREE ROBBERIES

One Home Plundered on Fourth, and Two Other Robberies.

Three robberies were reported to the police Saturday, one of which occurred on July 4th. H. A. Walker, 1921 East Davenport, reported that thieves had stolen a suitcase from him together with an Elgin watch, \$11 in money and a Kodak.

C. H. Allen, 1419 South Edward, told police that a boxmover, hand saws and grass shears was stolen from his garage sometime Saturday morning or Friday night.

A suit of clothes, Waltham watch

and a pair of pants of a total value of \$15 was the loss of Robert Palmer, sometime during Friday night when thieves entered his room in the Red Wing hotel.

**Ford Enlarges Factory
Maintained in Canada**

DETROIT, July 8.—The Ford Motor company of Canada has purchased 125 acres of land which will give it an additional 2,000 feet on the present Walkerville plant and enable the company to produce 500 cars a day immediately and 1,000 if the trade demands it. W. H. Campbell, vice president of the company, announced today. More than \$1,000,000 has been spent on the program. It was said. Additional shops and buildings will be erected on the property and a gigantic power plant is contemplated.

The molybdenum steel parts of the Willis Sainte Claire, made of the toughest, strongest known metal, do not wear out. We build to endure.

New Prices!

This is important! We are now able to deliver genuine Willard THREADED RUBBER Batteries for \$27.05 and up! Threaded Rubber Batteries always have cost less "per month" and "per mile". Now they actually cost less in DOLLARS AND CENTS.

The how and why of these remarkable prices make a wonderful story of manufacturing achievement. Just as the standard over-size Willard "SJ" Threaded Rubber Battery was and still is a marvel of value, so the new full-size Willard "SR" Threaded Rubber Battery proves to be an eye-opener of quality at the price!

First cost as well as ultimate cost now argues in favor of Willard Threaded Rubber. Make no purchase, risk no money, on any battery until you have visited one of the service stations named below and heard the whole of Willard's astonishing price story.

Service on All Batteries at Any of the Stations Below. Drive in and Ask About the Willard "SR" Threaded Rubber Battery
