The astronomers are as susceptible to the winsome flattery of the newspaper reporter's pumping methods as the soubrette—both talk very fluently when met by accident.

Every citizen should read carefully the replies of the New York Sun, published in another column, to the man whose contention is that the words bayonet and force are not to be found in the Force bill. That the shadow is not where the substance is.

A woman's jealousy is frequently increased by a separation from her husband. She does not philosophize, "I do not want him and I do not care who gets him;" but: "If I cannot have him no body else shall". Because that is perfectly unreasonable is, perhaps, the real-statement of the purpose of increasing them.

This false teaching that taxes imposed on the whole commonwealth, to make one man richer or one private industry prosperous, benefit the whole, is as pernicious as the doctrine that a few raps or manifestations, no matter how often they may be proved to be false, demonstrate that the medium is in communicactation with all ages and conditions of departed spirits. THE GERRYMANDER.

THE ORIGINAL GERRYMANDER. Indiana behaved herself fairly well till the legislature of 1873 decided to drive Dan Voorhees out of congress. It put his county of Vigo in a district ative in expression—and brief. It is neither too long not too turgid to be read. It is terse and comprehensive. It states the position of the Democratic party completely and concisely. It might have done that with the one important paragraph in which it says:

To Tour in Ireland

Sarah Carney, sister of Mrs. Marconey of 104 North Harrison street, Misses Annie Hannau, Maggie Gawey and Miss Mary MeGath left at 1 o'clock this afternoon on the steamer City of New York for Ireland. The young ladies will take in all the places of interest on the "green isle" and will be gone about six months.

Rape.

Levi Ruth, a respectable-looking white man was in the dock at the Municipal court this morning on a charge of attempting to rape little Annie Grossman, the 9-year-old dangster of Solomon Grossman of 109 Shipley street.

Ruth was arrested last night by Patrolman Haines on a complaint from Mr. Grossman, Ruth was detained at the station house without ball until this morning.

Mr. Grossman, Ruth was detained at the station house without bail until this forming.

Little Annie was very timid when put on the stand and told the story to the court in a faltering voice. She stated that she met Ruth at Front and Shipley streets last Wednesday night. There had been a still alarm of fire during the evening and Annie approached him and asked him where the fire was. Ruth told her to come with him and he would show her. He took her along Front street to French, where they stopped awhile. They then went up Front street again to Market. They stayed there awhile andRuth grasped her by the hand and took her over Market street bridge. On the west side of the road, just below the bridge, there is a clump of bushes, Ruth enticed the child into this place. He then attempted to commit the deed, it is alleged.

Little Annie cried and wanted to go to her home, but Ruth told her he would go home with her. He then left her and she went to see one of her playmates, Ida Wilson, who lives a few doors above her home.

She told Ida what had happened but

With the first streak of dawn the streets were alive with all classes and conditions of mankind. Men, with sober faces, expressing the loss of lifetimes of labor; weeping women and curious sight-seers shouldered one another in the general press.

The scene is one of desolation and it is being viewed by thousands of persons.
The insurance men are here adjusting the losses. In one or two cases where there is no insurance the work of clearing away the debris has been begun. Every building on the Delaware side of the line is down.

The railroad company has begun work upon a temporary depot and hotel for the accommodation of its patrons and both of the surface. It is thought homeless employes.

An Old Tank Found.

While Street and Sewer department employes were digging a pipe trench on Market street near Eighth this morning, they discovered a large tank several feet under the surface. It is thought that it was placed there during the revolutionary period. It is in a remarkable state of preservation, considering its interment of more than a century.

Water Commissioners' Short Meeting. Water commissioners held a short meeting last night. The bank balance was reported as \$82,770.03.
