Remarkable Outbreak of Sympathy For Kelly's Men.

THE MOB SEIZES A TRAIN FOR HIM.

The Leader of the Army Refused to Accept It Because It Was Stolen and Starts To-day to March His Men East—Railroads

Flaty Refuse Transportation.

OMAHA, April 21.—General Kelly is all the good words hitherto said of him, and more. He displayed the rarest judgment and fortitude when he declined to put his men on board a train stolen at Council Bluffs—stolen by the engineers and firemen of the Union Pacific. It was a Union Pacific engine, with Union Pacific cars, on the Rock Island track. Kelly declined it because he said he had not yet broken any law and did not intend to start in here. There was great excitement here all day, and it was intensified at nightfall by the news that a train had been enptured to relieve Kelly.

Crowds thronged the streets, and an imnense open air meeting was held. Rumors of the calling out of federal troops,
and state troops, of deaths in Kelly's camp
ind of every conceivable nature kept the
rowd on a tension hard to withstand.
But no unusual disorder ensued, and as if
by a miracle the clash that seemed ineviable was avoided, and Kelly's men slept
tt Weston. At daybreak they marched to
council Bluffs. A new start east will be
made on foot. Quiet was restored in the
ity.

United States Officials Will See That Mail Trains Are Run.

St. Paul., April 21.—There were few developments in the Great Northern strike. President Debs of the American Railway union received a telegram from Organizer Hogan from Butte, Mon., stating that he would start from there with a committee of the men to come to St. Paul to confer with officials of the road. Similar messages had been received from other points, and Mr. Debs is still confident of the result of the strike. He is especially pleased over the conference he had with the brother-hood chiefs before their departure.

The railroad officials also had received many messages and showed a few from men along the line saying they regretted the strike. When asked if traffic must remain at a standstill while the men decided whether they desire the acceptance of the brotherhoods or the union in the conference, Mr. Hill replied:

"I think not. The United States mashal, under the direction of the United States attorney, went with a posse to prevent interference with the mails at St. Cloud. The government has undertaken to protect its interests, and if the action of the United States attorney, went with a posse to prevent interference with the mails at St. Cloud. The government has undertaken to protect its interests, and if the action of the United States attorney, went with a posse to prevent interference with the mails at St. Cloud. The government has undertaken to protect its interests, and if the action of the United States in followed up it will result in the immediate running of all mail trains and an immediate resumption of business. The company must deal with its employees and not with labor organizations which are fighting for supremacy. The company is ready to move its trains whenever and wherever there is any law enabling its men to discharge their duty." dergency? Hox, W. H. M. Puzey, Chairman. This was at once followed by this one:

Denounced the Man Who Married a Little Girl to a Tramp.

PHILADELPHIA, April 21.—William Eamwood, who has the appearance of a Coxy army recruit, with his stubby beard and dilapidated appearance, appeared in the dock before Judge Gordon to answer two charges growing out of his recent marriage in Canden. The prosecutrix was his 15-year-old bride, Dora Hart, a dark haired girl, with childish, innocent face and short skirts, whom he had invelged by means of intimidation to the house of Rev. Dr. Burrell, where they were married.

In charging the jury Judge Gordon said: "There is one feature of this case which is probably the most abhorrent of all its incidents, and that is the facility with which this marriage was procured. It appears that this full grown man of degraded appearance took by threats this 15-year-old girl in short dresses, with her hair hanging girlishly down her back, to the house of this man called a minister of God, who promptly performed a marriage ceremony uniting them as man and wife.

"If this minister was within this jurisdiction and amenable to our laws, I would not hesitate a moment, as to my duty, but would place him in the dock with this defendant, where he rightly belongs. No language can adequately characterize the baseness of his conduct. It was by his act that this crime you are now trying was consummated, and no honest man could have been deceived as to the youth of this girl."

To H. H. Warner & Co.

It gives me pleasure to express my faith in the virtues of your "Safe Cure," which is the only medicine I ever take or recommend.

Six years ago I received the most pronounced benefit from its use at a time when suffering from mental over-work, and I have subsequently in my travels as a public lecturer recommended it to many people, and personally know of several cases where the "Cure" succeeded when the doctors failed.

Although a perfectly well woman I take several bottles every Spring just as I take additional care in the selection of tonicgiving food at this season, believing in the ounce of preventive rather than the necessity for the pound of cure, and in every instance the "Safe Cure" has the effect to give new energy and vitality to all my annie Janner Miller powers.
