Uncle Sam Wants Better Children.
The federal department of labor has established a children's bureau to teach parents how to care for children and has just issued a booklet on "Prenatal Culture," which is for free distribution.

For some time Uncle Sam has been paying considerable attention to the improvement of hogs, chickens and livestock, as well as teaching us how to raise pumpkins and potatoes, and it is encouraging to find attention now being turned toward improving the human race.

WHY YOU SHOULD VOTE FOR

HON. ROBERT A. BOOTH,

Republican Candidate for United States Senator.

Are you better off now than you were under a Republican administration?

Are you satisfied? If you believe in the principles of the Republican party, if you are convinced that these principles are best for the country, then prove it by voting for your standardbearer, Robert A. Booth, Republican candidate for the United States Senate.

You know that under Republican presidents the people of the United States have good times.

You know that under Democratic presidents you have Democratic times.

Remember the prosperity under McKinley, Roosevelt and Taft.

Remember conditions under Cleveland and Wilson.

The issue in this campaign is not one of personality. It is not one of non-partisanship. It is a question of whether you prefer prosperity under Republican administration.

Do you have work enough? Are your wages good? Is your business what you want it to be?

If you are satisfied with present conditions, well and good; if you believe that the present situation is better than under McKinley, Roosevelt and Taft, you know what to do.

The way to bring back prosperity is to help elect a Republican Senate. The Republican candidate in Oregon is R. A. Booth.
