The LaMoure Chronicle says that contracts have been let for grading the Casselton branch of the N. P. and for a building at Milnor for headquarters. This is taken to indicate very positively the extension of the line from Milnor to Oakes or Glover this summer, giving through connections from Leeds to the Twin Cities. It is now stated the Casselton branch will not be run to Dickey, but that the junction with the J. R. V. line will be at a point about three miles south of that town, and that the transfer will be at LaMoure. The Foley Bros. of St. Paul got the contract for the Casselton extension of 66 miles and the Milnor extension of 24 miles will be awarded in a few days and completed in time to haul out the fall crops.

The familiar figure of the hobo is seen once more. There is a great demand for farm hands in the state. The Fargo papers say that employment agencies could find farm work for 2,000 hands at once, but the farmers can not afford to pay the prices—\$35 and \$40—a month which many of the men from the lumber woods ask. Within a few weeks many of the men who are now spending their winter's wages will be broke and looking for work in Dakota wheat fields.

The funds derived from the balls will be added to the \$4,000 already collected for the purpose of building an orphan's home for this state. If \$15,000 is raised the Supreme Lodge will assist the members in building the home. Minnesota has such a home in which orphans are educated and aged and disabled men and women cared for. The plan to raise money in this state is commendable and it is hoped that it will be successful.

S. E. Ryan: I notice in your North Dakota News items last evening a statement to the effect that the gang at Williston had "proved too much for Rev. Smith" and that "he had to move on." "Let me correct this. Mr. Smith was expecting to move from Williston before ever he took up the prohibition fight. Instead of the gang proving too much for him, he has 18 of them under indictment, and public sentiment thoroughly aroused. Before leaving for conference he was given a public ovation, his salary paid in full, and was also given a gold watch. I had a man sent in his place that the gang can not bluff or scare.

MADE APPOINTMENTS

Mayor Rose Names His Appointments For His Term of Office.

All Are Confirmed by Council Except Malcom Sinclair For Assessor.

Mr. Rose Recommends Strictest Economy be Observed During This Year.

All the members of the council for the ensuing year were present Tuesday evening with the exception of Aldermen Wilder and Klaus. The three new aldermen, Chapman, Bensch and Kurtz were present. Mayor Rose expressed the hope that the new council would be as harmonious a body as the old. The mayor also told of the straitened circumstances of the city and recommended that the strictest economy in expenditures be observed. He was of the opinion that the chief of police could look after the sidewalks and streets and report where repairs were needed. The police officer could also look after the purchase of lumber and material for the city. The water problem, Mr. Rose thought, may solve itself as the pressure is growing better of late. The aldermen were urged by Mr. Rose to attend meetings promptly at 8 o'clock and when appointed to do certain committee work, to do the same promptly and carefully.

Mayor Rose submitted the following appointments:
Assessors—Malcom Sinclair, City clerk—Geo. C. Eager, Attorney—John Knauf, Surveyor—B. P. Tilden, Chief of police—M. Wink, Water commissioner—H. Past. The following committee appointments were submitted:
Finance—Trimble, Chapman and Crum.

Streets and bridges—Wilder, Wonneberg and Klaus.

Waterworks—Wonneberg, Trimble and Klaus.

Lights—Klaus, Wilder and Kurtz.

Sewerage—Crum, Kurtz and Chapman.

Public grounds—Chapman, Wilder and Kurtz.

Assessments and taxes—Bensch, Wonneberg and Chapman.

Fire—Kurtz, Trimble and Bensch. License—Wonneberg, Wilder and Crum.

Printing—Wilder, Wonneberg and Bensch.

Judiciary—Trimble, Klaus and Crum.

Board of Health—Klaus, Trimble Wonneberg and Crum.

In the selection of the committees, Mayor Rose stated that he had favored the senior aldermen who had been accustomed to the work.

The appointments were all confirmed by the council with the exception of Malcom Sinclair for the office of assessor. Mr. Trimble stated that a number of taxpayers had expressed their disapproval of Mr. Sinclair's appointment, it being rumored that such would be the action taken. Aldermen Bensch, Chapman, Crum and Wonneberg voted aye, Kurtz and Trimble, no. As it is necessary for five members to be favorable to secure the confirmation of an appointment, the matter was left over to the next regular meeting.

The personal bond of J. B. Durkee in the sum of \$10,000 as treasurer was filed. It was agreed that Mr. Durkee could obtain an additional personal bond in the sum of about \$10,000 instead of a company bond it would be accepted. The bond of P. Gaffney as police magistrate was also filed. The matter of supplying J. H. Crum, city justice, with a code and docket was referred to the printing committee. As Dr. Rankin's term of office does not expire until 1901, no appointment was made.

At the meeting of the old council a communication from H. Past was read. Mr. Past stated that he had purchased the street sprinkler and asked for the contract for the coming summer. The petition was referred to the committee on streets. Mayor Steel announced that he and the city clerk had completed the deal with the bank for the park property and had received deeds for the same. There was an insurance, Mr. Steel stated, of \$1,485 on the buildings and the policies had also been transferred. A communication was received from S. F. Corwin in which he stated that owing to other duties it would be impossible for him to act as assessor.

On motion the resignation of Mr. Corwin was accepted.

On motion the following bills were allowed:

NEW SETTLERS ARE BUSY.

New Settlers are Busy Tilling the Fertile Soil. Some Will Sow Flax.

Emigration Agent Daugherty of the Northern Pacific land department was in Jamestown Thursday on his return from Wells and Foster counties where he has been looking after a number of new settlers who arrived from Kansas and other points in the south recently. He states that the newcomers are well pleased with the climate here and believe that the outlook is very encouraging. Nearly all the settlers bought land. In some cases portions of the land had been cropped. A number rented tracts on which to raise some grain this year. Some are breaking the new ground and will sow flax in this way realizing on their investments at once.

The next train load of settlers will arrive in August with Mr. Daugherty in charge. It is expected that Stutsman county will get some of them.

Mr. Daugherty is of the opinion that the Northern Pacific will send settlers to Stutsman county next as the lands in Foster and Wells have advanced to such a figure that newcomers with a limited amount of money cannot do as well from now on as they could in this county. The price of land in the two counties is now from \$10 to \$20 per acre.

Parties who know of the future value of these North Dakota lands for stock and mixed farming are buying ranches now while the price is within reach.
