

Easy To Make

No desert is more generally liked than Ice Cream or Ices, and none easier to make if

Peerless Iceland Freezer (One motion)

The freezing takes three minutes. Dasher is cleaned by simply dipping in hot water. All gearing is enclosed. It runs easier and lasts longer than any freezer made.

SUPREME COURT DECISION

THE MOODY CASE FROM RICH-LAND-RAILROAD CASE FROM EDDY COUNTY.

The state supreme court has decided in the Sheriff Moody case from Richland county that the action of the lower court, Judge Glaspell presiding for Judge Lauder, will not be reviewed on mandamus proceedings, and that the plaintiff has mistaken his legal remedy which is by appeal The mandamus proceedings brought by the attorney general against the district court requiring that court to hear the case and the charges of malfeasance against the sheriff of Richland county, were therefore not heard.

In an appeal case from Eddy county, of P. H. West, against the N. P. railway. Judge Glaspell's decision was reversed. The case is of interest on the point of negligence of parties who may be injured in railway accidents. Plaintiff P. H. West brought suit to recover value of a team killed at a crossing The court says:

1. Failure to give the statutory signals and running the train at too rapid a rate of speed does not excuse negligence on the part of one in charge of a team killed at a railroad

2. Plaintiff's servant appoached a railr ad crossing with which he was familiar, with his horses on a trot, knowing that a train was approaching at a high rate of speed and very near to the cossing: that a view of the train was obstructed by buildings and cars from a point 127 feet back from the track until he arrived within 8 feet thereof. But for the noise of his wagon, he could have heard the train in time to have avoided a collision with it. Under these circumstances, he was guilty of negligence preventing a recovery, first: for attempting to drive in front of a rapidly moving train in close proximity to the crossing, whereby his team was struck and killed by the cars, and second, for not stopping and thus quieting the noise of his vehicle and thereby enabling himself to hear the train before getting upon the track in front of it.

THE FARMER'S EXCURSION.

The following from President Worst of the Agricultural College regarding the farmers' excursion is published that all interested may know the object of the literality of the railroad company and the desire of the college faculty that the excursion be of benefit to the farming interests of the state:

"It is distinctly understood that these excursions are conducted upon honor, and that no one will be permitted to take advantage of these low rates who does not come for what ment station. Our desire is to afford sented a number of deiplomas merithe may see and learn at the experithe farmers of the state a pleasant ed by schoolars for different subjects outing and an opportunity to become in their schoolastic course. familiar with the purposes and work of the experiment station. Persons having enjoyed former excursion privileges should not be favored this

"All delegates should proceed to the agricultural college early in the morning after arriving in Fargo. The street cars run directly to the college grounds. As soon as delegates arri ve at the drill hall, on the college grounds, they will be divided into squads of fifty or less and each squad placed in charge of a guide who will conduct them over the experimental grounds and through the buildings. The guide will answer questions and explain the purposes of the different experiments, etc. The squads will leave the drill hall, beginning at 8 o'clock a. m., but no guides will be furnished after 10 a. m. Deleagtes coming on their honor to visit the experimental station should all be on the ground before 9:30 a. m.

"Each afternoon at 1:30 o'clock the delegates will n.eet again at the drill hall where lectures will be delivered, questions answered and the work and purpose of the experiment station and its relation to the agricultural interests of the state fully explained."

JAPANESE ORATOR.

To the average newspaper reader there is nothing at this time more interesting than something concerning the Japanese nation and its people. Half a century ago they were a people unknown to the other nations of the world. Commodore Perry took with him a solendid fleet when he sought to procure a port treaty with the nation. From that time to the present, with a progress that is without parallel in the history of the world, they have sprung from semibarbarism to a place among the foremost nations of the world, and are now demonstrating to an astonished world the fact that as a naval and military power she is in the front ranks. While other nations which boasted of their war powers, were cringing before the powerful bluff of tne Romanoffs, the Japs buckled on their amor and with an intrepid and daring unparalleled in the world's history since the days of heroic Greece, smote him hip and thigh, until the cringing coward and braggart roared for mercy and time to get ready. The Devils Lake Chautauqua management recognizing this condition, and seeking to give its patrons the best possible of every thing, proncured at an enormous cost, the celebrated Japanese minister and statesman, Iyeuaga, to deliver two lectures on his country and people and the present war with Russia. He was for many years minister of foreign affairs of Japan and personally conducted much of the preparation for the present war. He is an occidental as well as oriental scholar a brilliant and polished orator and will be a treat for all who hear him.

ST. LOUIS EXPOSITION.

The Chicago Great Western Railway will allow a ten day stop over at either Chicago or Kansas City on payment of \$1 fee on through tickets to the World's Fair. For rates and other information apply to any Great Western Agen, or J. P. Elmer, G. P. A., Chicago, Ill.

G. O. WALTERS, Edmunds, N. D.

NORTH DAKOTA

Glandered horses are being killed in the neighborhood of Grand Forks.

Ninot Optic: Tuesday at 8 a. m., the north bound Soo flyer was wrecked about half a mile east of Cathay when traveling at a rate of thirtyeight miles an hour. The wreck is supposed to have been due to the spreading of the rails at that point. The engine passed over the place and rolled into a ditch about eight feet deep, the tender was turned over and was bottom side up, the mail car was thrown across the ditch and the baggage car and one coach went over. There were about 140 people on the train and no one was seriously injured. The engineer and fireman stuck to their post. The fireman was uninjured and the engineer had ! only a couple of slight scratches. The train was delayed about eleven hours. There were a number of local people on the train among them Presiding Elder Moore and J W.

Harry Savey of Nicholson was kicked in the law by a horse and knocked over backward, his head hitting on a rock and fracturing his skull.

Sheriff Olson Saturday afternoon at Mayville arrested John Broadway, a laboring man, on a charge of murder alleged to have been committed some seven years ago in North Carolina. The arrest caused a sensation, as the man has been here about six years and has borne a good reputation.

A LETTER FROM THE FAIR.

Mrs. Wise is in receipt of a letter rom Mr. Wise, who is taking in the World's Fair at St. Louis. He says that the fair is a show of stupendous proportions and almost beyond comprehension. He was especially attracted by the sights to be seen along 'The Pike' and says that this place alone is most as good as a trip abroad as far as seeing the different people that inhabit this globe. They are here from all quarters of the earth in their native dress-and undressand it is well worth a visit. He says that the various reports that are heard regarding the cost of seeing the fair may be depended upon according to the ability that you may know the teller has for handling money and then he winds up by telling Mrs. Wise to get that buggy that they were looking at at the KurtzCo., warehouse so that they can have it to use during the carnival. There is an unusual variety in stock to select
