ELEVATOR MEN AGREE TO CO-OPERATE WITH N. D. WHEAT GROWERS

Grand Forks, N. D., July 24.—A. J. Scott, secretary of the North Dakota Wheat Growers, Associated, and a staff of field workers began the work recently of signing up the elevator men throughout the state to handle the wheat of the association members.

U. L. Burdick, counsel for the Wheat Growers of this state, recently drew up a contract for this purpose, which was adopted at a meeting of the board of directors held in Grand Forks, July 6th. A quantity of these contracts is now off the press and will be submitted to the local elevator men.

M. S. Blair, member of the executive committee, interviewed about 100 elevator men in various parts of the state previous to this meeting with a view of getting their ideas of how this wheat should be handled this fall. He received valuable pointers from these men, all but one of whom expressed themselves in hearty sympathy with the plan proposed and promised full cooperation both with the farmer and the central association in caring for membership grain.

The plan so contained in the contract is simplicity itself. It consists briefly, in the farmer bringing his wheat to the elevator where it will be graded, and dockage, if any, determined by the elevatorman under the rules of the state grain inspection department on the basis of the federal grain standard.

The elevator man will then give the farmer a negotiable storage ticket furnished for the purpose by the Wheat Growers association. This ticket may either be sent direct to the Grand Forks office of the association, which in turn will send the farmer a check or draft for a certain percent. (tentatively decided at 75 percent) of the current market price of the wheat.

Or the farmer may bring his storage ticket to his local banker, who will be in a position to draw a draft on the association through his corresponding bank for a like amount.

This advance was made possible by a loan of $25,000,000 from the U. S. War Finance Corporation, and the willing co-operation of the North Dakota Bankers Association.

This wheat need not keep its identity in the elevator, but in accordance with the contract it is mutually agreed that the elevator man shall shop or deliver to the order of the association wheat of a similar grade.

The elevator will not be called upon to store this grain indefinitely, but may store the wheat until called for provided he has bin room, and it does not interfere with his regular business. The warehouseman will of course be paid regular storage fees, and the cost of handling grain, the amount to be determined later.

It is estimated that 500 elevators at well chosen points in U. S. will be able to care for the membership wheat this fall.

The state terminal elevator in Grand Forks will pay an important part in this movement, especially if transportation east is curtailed on account of the railway strike.
