LEMKE'S NEW ORDER BEING CONSIDERED

Supreme Court of State to Pass Upon Second Restraining Order.

Bismarck, N. D., Sept. 23.—The supreme court today was considering the plea of William Lemke for a new restraining order in the railroad rate case.

After the board of railroad commissioners promulgated a new order authorizing increases of 45 per cent in intrastate freight rates and 20 per cent in passenger rates, on Tuesday afternoon, effective Sept. 20, Lemke began seeking new grounds for an injunction.

Statements appearing in The Courier News, Grand Forks American and other league newspapers to the effect that the supreme court enjoined the railroad rate increases late yesterday are shown to be false by Lemke's new plea.

It was a coincidence that the supreme court formally published the injunction it granted last week about the same time that the board of railroad commissioners was issuing a new order granting the increases and avoiding the mistakes of record on which the first injunction was based.

Unless the supreme grants the injunction, Lemke says, the increased rates will be effective Sept. 26.

Lemke presented his petition late

yesterday and the court continued discussion of it until a session today.

Based On New Grounds.

Lemke's new petition is based, in part, on grounds which the court did not consider in the previous injunction, although a part of Lemke's petition. This included the charge that sufficient notice had not been given shippers at the hearing August 12 and that there was no real hearing because the shippers were not adequately represented.

Lemke is willing for the railroads to have a 35 per cent increase, but wants it based on the statutory rate rather than the existing rate. This question was one of the chief matters of debate at the hearing of August 12 in the senate chambers, at which Lemke, though then a special assistant attorney general by virtue of appointment by the governor, was present. Neither was W. A. Anderson, secretary of the industrial commission, who now contends with Mr. Lemke that there was not a real hearing, though Mr. Anderson was notified in a special letter of the hearing. Neither was J. A. McGovern, of the state mill and elevator association present, though notified by special letter.

One of the not unusual statements made in the affidavit of Frank Milhollan, members of the commission, in an affidavit accompanying Lemke's new petition, was that there was not sufficient notice and the public was not represented. Milhollan, though a commissioner, and though he gave first public notice of the railroad's petition for an increase, was not present at the hearing except for the close. He had been in Washington, D. C., the week previous and failed to return in time.

Wants Time Till Oct. 16.

Lemke asked the restraining order be granted so that the matter would remain in status quo until Oct. 16, when the commission has announced against its order, which is still held open for the purpose of removing dis-

criminations in rates or other adjustments. Though Lemke was not at the first meeting, notice of which was published in his newspaper, it is expected that he will make a play at the hearing Oct. 16.

Land In Crop For 41 Years Produces Flax Crop Of 31 Bushels

Grafton, N. D., Sept. 23.—The flax yield reported in years in this section of the state has been reported from the farm of Gordon brothers, 922 1-2 bushels being produced on 30 acres, or a little over 31 bushels per acre. The land on which the flax was raised was farmed without a rest of any kind from 1879 until 1919. It was raised in 1919 as a cultivated intensively for the purpose of killing sow thistle.

TESTIMONY OF CHILD MAY SEND WYOMING RANCHER TO PEN

Bowman, N. D., Sept. 23.—The testimony of his 6-year-old daughter, who told how her father "shot Uncle Laban and threw him into the river," may send Frank Hickey of Sundance, Wyoming, to the pen. Hickey was arrested about a year ago charged with the murder of Laban Woods, a neighboring rancher, following the making of a written confession by Hickey's wife, giving details of the alleged crime. As no further evidence could be secured at that time and as the law forbids either a wife or husband to testify against the other, the man was released, but has since been re-arrested and is now awaiting trial.

It was alleged in Mrs. Hickey's confession that her husband was jealous of Wood, but without cause.

Industrial Meets Held For Williams Children

Williston, N. D., Sept. 23.—Four industrial contests for children, held this week in different parts of Williams county, preliminary to the annual boys' and girls' industrial contests to be held the first week in October at Williston.

First prizes of \$5.00 and second prizes of \$2.50 are being offered to the winners of these sectional contests. The winners will meet in next month to compete for the county prize which is a free trip to the annual meeting of the boys' and girls' club workers at Fargo to be held in December.

A contest was held here recently. Other dates are: Williston, Sept. 22; Grenora, Sept. 23, and Ray, Sept. 24. A program consisting of a demonstration by the Williams county public health nurse and by the home demonstration agent, and also of talks by representatives of the North Dakota agricultural college is given at each place.

Prominent Canadian Grain Man Resigns

Winnipeg, Man., Sept. 23.—Frank O. Fowler, manager and secretary of the North Dakota West Grain Dealers' association, has resigned.

Mathew Snow, one of the originators of the grain growers' movement in Saskatchewan, who has been connected with the grain growers for the past twenty years, takes his place.

The Northwest Grain Dealers' association is an association of elevator owners and operators and through the association they are enabled to act collectively in the purchase of supplies for their elevators, and in seeing that the country elevators are properly conducted according to the Canadian grain act.

Wishes Canadian Papers To Have News Service Of British Tendency

Winnipeg, Man., Sept. 23.—Sir Roderick Jones, managing director of Reuters' News Service, London, following the western Canada tour made by the Imperial Press party, expressed the hope that in the near future there will be a substantial direct British news service placed at the disposal of Canadian newspapers.

According to Sir Roderick, the need for a British service is much greater now than before the war. He explained that most of the foreign news service to this country comes via the United States of America, and "while I am not going to impeach the U. S. news service, it must be admitted that it is served and provided for the U. S. public and not for the British public in Canada," he declared. He pointed out that this service via the United States was complicated, naturally, from the point of view of the cosmopolitan people of the United States, whether Irish, Polish, Lithuanian, or any other nationality. "But a service that is good for the United States is not necessarily good for people residing in Canada," he said.

Many Canadian Soldiers Have Incurable Diseases

Winnipeg, Man., Sept. 23.—One thousand Canadians who fought at the front are insensate and likely to remain so permanently. 1,500 have tuberculosis and 103 have incurable diseases. Thirty-five hundred are being treated in the military hospitals.

CORN BORER CAUSES CONCERN AMONG THE CANADIAN FARMERS

Washington, Sept. 23.—Discovery of the European corn borer in the vicinity of St. Thomas, Canada, has caused the department of agriculture to send a staff of entomologists to Michigan to confer with local agricultural authorities to forestall possible infestation of the corn crop in that state.

Experts of the bureau of entomology, the department announced today, are concerned over the appearance of the corn borer in Canada as certain sections of New York, Massachusetts, New Hampshire and Pennsylvania

already have been quarantined to keep the insect from making its way to the corn belt.

The corn borer in Canada is farther west than heretofore reported on this continent, the department's announcement said, and the corn affected is of the flint variety which in New England and New York has ap-

peared to be especially susceptible of injury by the borer.

WORRY AND WRINKLES

Despondency is a thing of evil results. Worry produces nothing but wrinkles and wretchedness. Let the reader put a note on her bureau, on her desk, and at the head of her bed, just two words, "Don't Worry."

Worry is the greatest foe to the happiness of any household. An anxious, despondent face, a fretful, complaining voice, will make every one uncomfortable.

A woman's nerves are more truly the cause of worry than outside troubles. The nerves are to a woman's body the telegraph system which surely warns her of any trouble in the feminine make-up. Doctor Pierce's Favorite Prescription is the ideal woman's tonic for such conditions. When a woman complains of backache, dizziness or pain—when everything looks black before her eyes—a dragging feeling, or bearing-down, with nervousness, she should turn to this "temperance" herbal tonic, known as Dr. Pierce's Favorite Prescription. It can be obtained in almost every drug store in the land and the ingredients are printed in plain English on the wrapper. Put up in tablets or liquid. Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., will send a trial size of "Favorite Prescription" tablets for 10c. Also write Dr. Pierce for confidential advice and you will receive the medical attention of a specialist, wholly without fee—no charge whatever.
