## SCHEDULE IS RE-ARRANGED

### Jamestown College Will Not Play Here—Three Home Games on List.

The rearranged schedule of the University of North Dakota football eleven was announced this morning by Coach Paul J. Davis. Considerable difficulty has been found in arranging the schedule this year on account of the uncertainty of the date for the Homecoming day. Jamestown was scheduled to play here but word was received from them cancelling the date.

The schedule as it now stands is one of the best for several seasons as three good home games are listed. Fargo college will play here Saturday, South Dakota State a week from Saturday and Hamline on the 23rd of the month, Homecoming day. Little is known of the strength of any of the teams, but the Flickertail eleven is in fine shape this year and will give each of them a hard battle. A number of the "U" players are confident of the outcome of Saturday's battle.

The schedule is rearranged as follows:  
October 9—Fargo college here.  
October 16—South Dakota State here.  
October 23—Hamline here.  
October 30—Aggies at Fargo.  
November 6—S. D. U. at Vermillion.  
November 20—Marquette at Milwaukee.

Officials for Saturday's game were announced this morning by Coach Davis. Giesler of Fargo will referee the game and Tierny will umpire. Giese of Crookston will act as head linesman.

## DEAD BUT UNBURIED

(From the New York Evening Post.)  
Nothing less becomes the Prohibition party than the way in which it is taking leave of life. For half a century it put a presidential ticket in the field and waged a vigorous campaign. It never won a single electoral vote. When prohibition came, it came as the enactment of the two old parties, which had done their best to keep the question out of politics. Yet the Prohibition party always had the respect of open-minded men and women. Now with its cause won, it

## How to Select a Curtain

There are three viewpoints to watch when you select new curtains.

First—Look at the curtain to see how the design will fit the decorative scheme of your room.

Second—Look through the curtain to make sure it is so transparent as not to obstruct your view—unless, of course, the view is unpleasing.

Third—Look at the curtain again, this time against a dark background, to see how its design will appear to your neighbors viewing your home from the outside.

Oh, yes, one thing more. Look at the construction of the curtain to see that it is not a mere woven material but a lace having a tied (or knotted) mesh which won't slip and will hold its form and beauty until worn out.

Our stock of curtain materials has been selected with these four requisites in mind and includes everything for attractive window dressing, including a special showing of the famous Quaker Craft-Lace.

## How Much Insurance Should You Carry

"You may write my application for \$1000," said the prospect.

"Yes," replied the agent; "that is for the undertaker. How much do you want for your wife and children?"

One Thousand Dollars Insurance is not enough for any man with dependents. Just how much insurance a man should carry depends upon his income, his vocation and station in life.

Your family during your life-time can much better get along without the premium money than they can without the premium money when you are dead. Think it over.

is being made a vehicle for candidates who have been defeated for nomination in their own parties. Senator Thompson, losing the Republican nomination for governor, wins the Prohibition nomination. Mrs. Boole, falling of the Republican nomination for senator, is successful in obtaining the Prohibition nomination. It must be admitted that the question of what the Prohibitionists are to do with their place on the ballot is not an easy one. In Massachusetts, where they did nothing at all, it was promptly appropriated by a group of rather "well" politicians. There ought to be a way by which a party with no reason for living could die in name as well as in reality.

## FOREMAN EXPECTS NO MORE TROUBLE

Was Hardly Able To Work Before Tanlac Restored His Health, Says Nelson, But Feels Fine, Now.

"Thanks to Tanlac my troubles are a thing of the past and I am now in the very best of health," said Charles Nelson, of 923 Hague avenue, St. Paul, Minn., foreman for the Northwestern Copper and Brass Works.

"About a year ago my appetite left me entirely, and ever since that time I've been suffering from a mighty bad case of nervous indigestion, that is until I got Tanlac recently. Gee would you believe it, I was eating and drinking in such quantities that I would almost be sick, and I would have awful sharp shooting pains in my left side, and some times just left me so weak I couldn't stand on my feet. My nerves were so shattered I could hardly sleep, and every night I

have simply paced the floor in such agony I could hardly stand it, and in the morning I would be almost completely worn out.

"I read statements from people whom I was personally acquainted with praising Tanlac for the good it had done them, and that's what led me to try it. Well, I couldn't have done better thing, for four bottles of medicine have built me up and now I'm in the very best of health. Why, I have a wonderful appetite, and can eat and drink all I want without having to suffer a bit from indigestion or bloating, and my side is free from pain. My nerves are steady I just sleep like a baby at night. I've regained my strength and energy, and I feel like a new man every day, and I would have credit for my present good health to Tanlac in solid gold.

Tanlac is sold in Grand Forks by Dr. J. E. Scott, and in other places by Dr. J. E. Scott, and in other places by Dr. J. E. Scott.
