

LITTLE ENTENTE MAKES DEMANDS ON HUNGARIANS

Threatens to Send Troops
Into Country Unless
Charles is Surrendered.

London, Oct. 27.—(By the Associated Press).—The little entente, composed of Rumania, Czechoslovakia and Jugoslavia has dispatched a note to Hungary demanding the surrender of former Emperor Charles, the demobilization of the Hungarian army and reparations sufficient to defray the expenses of the little entente's mobilization, according to a Vienna dispatch to the Central News Agency today. Unless Hungary replies satisfactorily within two days, the little entente troops will enter Hungary, the dispatch said.

Paris, Oct. 27.—(By the Associated Press).—The Allied council of ambassadors today decided that former Emperor Charles of Austria-Hungary and ex-Empress Zita should be placed immediately upon a British battle cruiser in the Danube pending another meeting of the council next Saturday, when a final decision regarding their disposition is to be made.

NESTOS SPEAKS TO BIG CROWD AT FARGO MEET

(Continued from page 1.)

In the state," said Mr. Nestos. "Any one who says that the next administration, in case the Independents are successful at next Friday, intend to do away with what beneficial labor legislation already has been put on our statutes, is not telling the truth."

Talks for Others.
"As soon as these unfounded and slanderous charges were brought to my attention I took the matter up with my colleagues on the Independent ticket and we have talked the situation over carefully. I am therefore in position to talk for my colleagues as well as for myself when I declare that there is no foundation in fact to those charges."

All Three, Workers.
"Why should Johnson, Kitchen and myself want to hurt the man who toiled? We have all three of us, gone through the mill; we have had to work and work hard, both to pay our way through school in order to get an education and to support our families. We have all of us belonged to what is generally called the working class the greater part of our lives."

"The Independent movement is not a reactionary movement; our aim is not to destroy, but to save; not to retard progress, but to direct it in sane and sensible direction, so that as many members of society as possible may benefit by each step forward; we want to do the greatest good to the greatest number of people."

"But we refuse to appeal to the galleries in order to get a few extra votes; we refuse to make promises which cannot be fulfilled; we do not appeal to class or selfish interests; we do not preach political anarchy; and we will not tolerate it; nor will we tolerate dishonesty in public affairs and wrong doing in office."

Laborers And Farmers Suffer.
"The laboring man as well as the farmer is suffering under the existing conditions in our state. The ruined credit and the lack of confidence which has removed millions of dollars from North Dakota are hurting the workingmen as much as anyone else. Shortage of money means closing down of industrial activity; and the resulting hard times mean cheap labor, unemployment and general suffering."

"It is not about time that we get away from the idea that there of a necessity must be a bitter feud between the different members of society? Are business men and professional men necessarily crooks? They are called so by our opponents; above make a mental list of the merchants, physicians, lawyers and ministers whom you know and then ask yourself how many of them are lying awake at night in order to devise ways and means to crush the farmer or the workingman. It is easy to make general charges and to say that the ruin is one class in the heat of a bitter political feud and get away with it for a time. But things like that have a way of punishing the very people that tried to use class hatred as a weapon of offense."

"The problem for the business man, no matter what his line of business, is no less a pressing one than is the problem of the farmer and the officials of our school districts and many of our business men will be forced to see by the way of the credit condition is speedily improved. And the workingman comes in for his share of interest here again. If credit conditions are better, if building operations have ceased, if every farmer and business man finds it necessary to retrench on every hand, then there is going to be little for labor to do, and suffering and sacrifice will be the lot of the laborer also."

Must Restore Credit.
"For that reason one is forced to the conclusion in order to promote the welfare of the whole state its farmers, its laborers, its business men and its educational and other public institutions, a restored credit must be ours if we are to avoid increased disaster."

"Our credit today is practically destroyed and there is no sufficient reason for or explanation of this condition."

WILL HELP DIRECT PUBLICITY OFFICE AT ARMS PARLEY

Philip H. Patchin.

Philip H. Patchin, who was connected with the office which dispensed news of the Paris peace conference to the newspaper men, will hold a similar position at the disarmament conference when it opens in Washington. The headquarters of this branch of the conference will be in the War and Navy building. It will be through this office that the public will get the news of the progress of the conference.

dition outside the turmoil of the state and the attitude of the present administration. It is true that the general conditions are unfortunate and this, of course, intensifies our trouble, but the inflation of land values which has caused much of the financial trouble and hard times in Iowa, Illinois and other states did not come to trouble North Dakota.

Politics Cause For Condition.
"The chief cause for the lack of credit in our state is political, and is peculiar to North Dakota. The lack of confidence which has caused the destruction of our credit comes partly from certain laws enacted in our state, and partly from the character of our state administration and the mismanagement of our affairs during recent years."

A. G. Diwet, former member of the legislature from Richland county, who was one of the Independent floor leaders against the notorious House Bill 44, which aimed to change the constitution of North Dakota by legislative action, gave a concise and thorough review of the legislative record of the Nonpartisan league and showed how they by means of tricky laws had managed to squander public funds with a certain degree of safety. He also showed that state taxes had increased five hundred percent in North Dakota during the last four years and are still going up, while the state taxes in Minnesota decreased by nearly one-half since they reached the high water mark during the war.

CHINESE TO U. S. SCHOOLS.
Shanghai, Sept. 8.—(By Mail).—Forty-nine Chinese graduates of Tsing Hua college which was founded with funds of the Boxer indemnity remitted for educational purposes by the American government, are to enter colleges and universities in the United States this year. These students sailed from Shanghai for America in August.

HURLBURT NAMED JUDGE.
Madison, Wis., Oct. 27.—Wilbur E. Hurlbut of Omro was named as judge of the Third judicial circuit to succeed Judge George W. Burnett, deceased by the death of Blaine today. He will serve until a successor is elected and qualifies.

Analysis Of Situation In State Promises An Independent Victory If Voters Get To Polls

(Continued from page 1.)

The change in this section of the state is expected to be one of the big factors in determining the results of the election.

Slope County.
There remains the Missouri Slope, which is more or less a puzzle. Morton county, which gave Frazier a 1,117 majority in 1918, and dropped to 642 in 1920, last fall gave him a majority of 592. A change of 500 votes in the county would mean an even break and men familiar with conditions look for just that, conservatively a 50-50 break.

Oliver county is the home of a number of the most radical leaders of the league. Many of the farmers, however, are disgusted over the record made by the state administration, and there is expected to be a decided increase in the league vote there, although the league are expected to carry in the county.

In Mercer county there will be little change. Neither the Nonpartisan league nor the Independents appear to have made material gains. Newspaper squabbles in Dunn county, together with the exposure of the Werner state creamery insolvency and losses, and general distrust of A. L. Liederbach as a competent person to direct a state following the rule "that a prophet is without honor in his own country," have all aided in turning votes. A conservative estimate would fix the possible change at a cut of 200 from the Frazier majority over O'Connor of 578.

Adams county, which gave Frazier a 257 majority last year, is expected to slide close to the independent column. Bowman and Slope counties have given little indication of change, although some believe that the Independents will make substantial gains in Bowman.

Southwest Counties.
Strenuous work has been done in some sections of Billings county with the result that a considerable change will be registered. It is asserted that the league will have no opportunity to stage any of the election frauds which were perpetrated last fall and which seated Gust Wog in the senate. All precincts will be closely watched.

Golden Valley county, always in the Independent ranks, will according to best advice from that district show a considerable gain over the league last fall when O'Connor carried it by 383. Stark county will without question be found strongly in the Independent column with an even greater majority than was given O'Connor, 230. The recent activities of Harry Dunbar and Attorney General Lemke in forcing the junk heap wreckage of the Dickinson Record-Post, the league paper in the county, was the final straw to many farmers who held stock in the paper. Stark county's majority will be materially increased as a dozen men familiar with conditions there.

In Sioux county the Indians of the Standing Rock reservation are not leaguers. They never have been. However, it so happens that among the influential politicians of the county are men closely allied with the league opposing the league. Sioux county undoubtedly will remain in the Independent column, but the results in the county are problematical, with reference to a change of the O'Connor majority of 233.

HURLBURT NAMED JUDGE.
Madison, Wis., Oct. 27.—Wilbur E. Hurlbut of Omro was named as judge of the Third judicial circuit to succeed Judge George W. Burnett, deceased by the death of Blaine today. He will serve until a successor is elected and qualifies.

Farmer Dead And Son In Serious Condition As Result Of Quarrel

Benidji, Minn., Oct. 27.—James Lang, 46, a farmer near Puposky, is dead and his son, Charles, 20 years, is in St. Anthony's hospital here as the result of a quarrel over a road contract. The quarrel occurred yesterday afternoon and as a result the father struck the boy with the flat side of a double bladed ax, rendering the son unconscious.

The matter was immediately reported to the sheriff who arrived there late last evening to arrest the father. When the sheriff arrived the father asked the privilege of finishing his chores before coming to Benidji and this request was granted. The deputies watched the man until he passed around the corner of a haystack, where he was hid from view only a moment. As he did this he drew a 32-caliber revolver and shot himself through the heart. He lived only a few minutes after the shot. The boy's condition is serious and it is not believed that he will recover.

James Lang, the father, has a wife and six children who have lived with him on his farm near Puposky.

INSTALLING HIBBING LIGHTS.
Hibbing, Minn., Oct. 27.—Hibbing, famous as the richest village in the world, soon will shine forth at night in its sparkling dress of electric lights, which are being installed at the new village site.

Operations of mining companies recently forced removal of the principal section of the city to another site. As a result the "richest village" has been without its white way for some time. Electrical contractors hope to soon complete the city's public lighting system.
