SPECIAL NOTICES.

☞ PHILOSOPHY OF MARRIAGE.

The Proprietors of the New York Museum of Anatomy have determined, regardless of expense, to issue free (for the benefit of suffering humanity, and suppression of quackery) four of their most interesting and instructive Lectures on Marriage and its Disqualifications, Nervous and Physical Debility, Premature decline of Manhood, Indigestion, Weakness or Depression, Impotency, Loss of Energy and Manly Power; the Great Social Evil, and those Maladies which result from youthful follies, excesses of maturity, and ignorance of Physiology and laws of nature.

Those Invaluable Lectures have been the means of enlightening and saving thousands, and will be forwarded free, on receipt of four stamps, by addressing SECRETARY, New York Museum of Anatomy and Medicine, 618 Broadway, New York.

☞ FOR MORE THAN TWENTY years MATTHEWS' VENETIAN HAIR DYE has stood the test of trial, and is constantly increasing in public favor.

THE VENETIAN HAIR DYE is the best and cheapest made. Its price is only 75 cents, and each bottle contains double the quantity of dye in those usually sold for $1.

THE HAIR DYE is manufactured by a peculiar process, which renders it infinitely superior to any dye in market. Being complete in one bottle, no preparation is required, which greatly simplifies the application.

IN USING THIS DYE you avoid that scurvy, dead appearance by which dyed hair and whiskers are so readily recognized, when an inferior article has been used, as it produces a perfectly natural color of any shade that is required, from a rich brown to a jetty, lustrous black, that will not soil or stain the clothing. Invest 75 cents, and you will be convinced. Sold by all Druggists and Fancy Goods Dealers.

HUNNEWELL'S

ELECTIC PILLS. The claims for this valued Family Pill are beyond that of any other in use. A test of them will not only prove this, but the error of GriPing which has heretofore been called Character. The Elyptic Pills never require over two, and seldom but one for the dose, act on the bowels without the slightest griping, a point of the greatest importance, particularly in

Chronic Constipation,

for which take a Single Pill every, or every other night. They never produce debility and cure Indigestion, Dyspepsia, Head Ache, Liver and Kidney Complaints, Piles, Worms, Loss of, or Impurities of the Blood, Loss of Appetite, and all Derangements of Bowels or Stomach.

Impotency Cured,

AFTER ALL OTHER TREATMENT FAILS.

DR. A. GIBSON,

Formerly of New York City, will pay one hundred dollars for the case that he ever fails to cure the above named disease. He will pay the same sum for the worst stricture in the human form. United States treats the same diseases with equal success.

After many years of laboring study and experience Dr. Gibson is happy in being able to announce to the unfortunate, that he has perfected a system of treatment

THE SPEEDY AND PERMANENT CURE of the above, and also all contagious diseases of the Reproductive Organs, with all bad effects arising therefrom, including General

DEBILITY OR NERVOUS PROSTRATION.

Hitherto, needed in curing months this dirty, nasty, disgusting, expended hundreds of dollars with half-styled physicians, who profess to treat all private diseases, and without receiving the least particle of benefit.

Dr. Gibson does not boast that he is a member of some College in London or Paris, as perhaps some others do for the purpose of censuring the innocent, but who but one grand object, and that to be realized. But what Dr. G. might boast of is this, that he is able to give entire satisfaction to those who receive consultation in his office, and that his success has perfected an American system of treatment which challenges the World's Medical Science, or any part of it, to produce to equal for the radical cure of seminal weakness, all diseases or derangements of the Urinary Organs, arising from mercury or at or secret abuse.

Dr. Gibson also claims for his new treatment the following advantages over all others yet discovered. And, first, the agents used are in no respects disagreeable; he uses no rules of the dark ages, such as Mercury, or any other poisonous drug; secondly, no restriction in diet or business is required; third, his treatment is positive and certain in all cases. He invites the attention of the afflicted, or private journal in the United States, and demonstrate the immense superiority of his new system of treatment over any now in the world, in point of promptness, permanency, mildness, safety and convenience to the patient.

Dr. Gibson is permanently located in Cleveland, and has during the past five years performed many cures of diseases which had resisted the skill of all other modes of treatment. References can be given to individuals of the first respectability in Cleveland, Boston, New York and other cities, in regard to skill and integrity in all professional transactions. Dyspepsia, Nervousness, Scrofula, all diseases of the Urinary Organs, and all Chronic Diseases treated with superior success.

CITY NEWS.

Every facility for a Business Education furnished at Bryant & Stratton's College.

THE OAK LEAF.—The beautiful schooner Oak Leaf, launched a few weeks since from the yard of A. M. Peck & Co., loaded Wednesday for Chicago. There is no finer craft on the lakes than this neat little topsail schooner.

PASSAIC.—The Passaic, Capt. Mitchell, of the Erie Railway Steamboat Line, arrived yesterday morning with a full load of freight and passengers for this point and Toledo. She left for Toledo last night.

CHICAGO.—The propellor Chicago, of the New York Central Line, advertised to leave for Chicago Wednesday night, was delayed. She left yesterday morning on her first trip this season.

BUSINESS MEN WANTED—To locate permanently in numerous cities and towns in each State of the Union, to introduce and superintend the sale of our subscription Publications. Apply, with references, to R. H. Curran, at the "Sartain Gallery of Art," 25 Mocument Square.

BREVETTED.—We are glad to learn that the rank of Brevet Brigadier General has been conferred on Colonel Barnett, of this city, by the War Department. The artillery of the State was distinguished for gallant services during the entire war and much of its efficiency was due to the ability and energy of Colonel Barnett. The honorary rank could not have been more worthily bestowed.

THE POTATO TRADE.—Every steamer from Detroit brings a large freight cargo of potatoes, and every sail vessel brings more or less of the same necessary vegetable. They are mostly sent into the interior of the State and to Western Pennsylvania and distributed among the destitute towns. The Toledo *Blade* says that there were 14,665 bushels of potatoes shipped from Toledo to Cleveland, last week. And 85,356 bushels have been shipped to that place from Toledo since the first of January.

THE ILLINOIS.—The Illinois, Capt. Sweet, left the dock of Pettitt & Holland last night on her first trip of the season, for Lake Superior and intermediate points. She is a low-pressure side wheel steamer, and was formerly considered the finest boat of the Line. Her new owners have refitted her throughout, so that now she is in better condition than ever before. Her machinery is new, and of the best and most approved pattern. The bedding is all new, and the entire boat has been repainted; Captain Sweet is well known in the city as the popular Captain of the North Star for several years.

THE INDIANS.

Terrible Slaughter at Fort Grant

A Thousand Soldiers Massacred by Two Thousand Indians.

General Terry Nominated for Senator in Connecticut.

A Riot in the City of Baltimore.

Negroes Attacking the Whites.

New Gold Diggings in New Westminster.

Cattle Plague in Washington.

General News.

Concluded.

NEW YORK, May 10.—The Tribune's special says that the arguments in the cases of the John D. Daniels' Madiera goods return and the Constartis, which have been in litigation for nearly fifty years, were concluded to-day before the mixed Commission under the convention between the United States and New Granada, Sir Frederick Bruce sitting as umpire. These cases involve in the whole $700,000. Only one-half of this amount is claimed for New Granada, the other half having been heretofore recognized by Ecuador and Venezuela. The decision will be rendered within eight days.

Elected.

PROVIDENCE, R. I., May 9.—Thomas A. Doyle, Independent candidate, was to-day elected Mayor of this city by a majority of 214. The City Council was elected chiefly on local issues without reference to political questions.

Congressional Caucus.

NEW HAVEN, CONN., May 9.—At the Republican caucus to-night seven informal ballots were taken for a Congressional candidate. The first ballot stood: Foster 65, Governor Buckingham 55; Terry 24. The last ballot stood: Foster 65, Buckingham 1, Terry 69. General Orris S. Terry was then unanimously nominated.

Man Shot.

BALTIMORE, May 10.—A man named John Price shot another, named Clinton Jones, last night, in the American Theatre, corner of Baltimore and Calvert streets. Jones died at midnight. He was a second in the recent prize fight.

Returned Home.

The First Regiment of Colored Maryland Troops returned home to-day and made a handsome appearance whilst passing through the Western section of the city. A conflict occurred between some of the colored people following the soldiers and a number of whites. Blows were exchanged and fire arms are reported to have been used and one or two parties wounded.

From San Francisco.

SAN FRANCISCO, May 6.—A special messenger arrived yesterday at San Angeles, bringing a dispatch from the commander of Fort Grant to General Mason, announcing that Fort Goodwin, Arizona had been taken by 2,000 Indians, and that the garrison, numbering 1,024 men, was massacred, with one exception, and the fort burned. The man who escaped was out hunting at the time and witnessed the commotion from a distance. He saw the fort burning and heard the firing of guns during the fight, which lasted nearly an hour. It is supposed that the Indians gained admission to the fort under a pretext of entering into a treaty of peace, which General Mason had instructed the commander of the fort to make.

SAN FRANCISCO, May 9.—The roads in the interior are now passible, and large quantities of freight have been forwarded. A letter, dated Maricippa Wells, Arizona, states that Brevet Major Charles F. Muller, Captain Company B, 14th Infantry, and Surgeon Tappan, U. S. A., were fired on by Apaches at Cottonwood Springs. The former was killed and the latter badly wounded.

Mining shares are firmer. Yellow Jacket 723; Alpha 329; Challor Potosi 324.

A despatch received yesterday from New Westminister, reports that new gold diggings, paying nine dollars per pan, have been struck on Clemens Creek, near Big Bend mines. Hundreds of boats are going up the Columbia river laden with miners and provisions. It is rumored that the United States Soldiers at Fort Colville have deserted and gone to the mines, taking their arms with them.

The Charter election in Virginia City resulted in the success of the Union ticket. The Charter election at Stockton also resulted in the success of the Union ticket at that place.

Convention.

CINCINNATI, May 10—A convention of the non-Episcopal Methodist Churches assembled in this city yesterday to discuss and effect a basis of union. Delegates representing nearly every church in the Northern States were present. The convention will probably last several days.

Railroad Suit.

The suit between the Ohio & Mississippi and Indianapolis & Cincinnati Railroad companies for alleged breach of contract, commenced yesterday before the Superior Court. The damages claimed are $1,500,000. Prominent lawyers are engaged on both sides.

The City Solicitor has entered suits against several of the street railroad companies for charging higher rates of fare than their contracts allow.

South American News.

NEW YORK, May 10.—The Herald's Valparaizo correspondent says that the Spaniards have received an addition to their squadron of one screw frigate of sixty guns, two corvettes and one transport, the latter bringing a large supply of clothing and ordnance stores. They also had in the squadron 1,500 marines for shore duty.

The English residents of Santiago confirmed the resolutions of those of Valprraiso against the conduct of the English Admiral in not preventing the bombardment.

The French residents put in a claim for their losses.

The report of the Spanish Admiral is published, in which he says that Commodore Rogers, after his efforts for peaceable settlement of difficulties were thwarted by Chili, commended the action as right and said that moderation and dignity were on the side of Spain.

The English Admiral said that the insult offered by the Chilians in proposing a naval combat was sufficient justification of the bombardment.

The Spanish Admiral also says that the Chilian government was opposed to the removal of foreigners property.

The World's special says that the House Bank Committee are preparing a bill intended to remedy the defects in the National Banking law. It will also provide for the equalization of currency among the States.

The Times' special says: The citizens of Columbia, S. C., have appointed a committee to ascertain whether Sherman or Hampton set fire to that city.

Horace Rublee, Esq., of Wisconsin, has been nominated by the President as United States Consul to Rotterdam.

Mr. Rubles is editor of the Madison, Wis., Journal.

The Herald's special says it is confidently expected that the business of Congress will be cleared up so that the adjournment will be had by the middle of next month.

Seizure of a British Schooner by the Fenians.

NEW YORK, May 10.—Captain McBlane, of the British Schooner Wentworth, from Windsor to this port, reports that on the 2d inst. his vessel was seized off Grand Mien by a party of sixty men, under command of Colonel Kelley, who said they were Fenians. They scuttled the fishing craft they were in, and after keeping possession of the Wentworth about four hours, landed at a place called Brady's Mistake. They acted in a very orderly manner, doing no damage to the vessel or crew. After they left Captain McBlane assumed command and proceeded on his voyage.

Washington News.

From Louisiana.

NEW ORLEANS, May 9.—Private circles are severe on Sheridan's report to the Reconstruction Committee, and say the charge of quarrelsomeness among themselves is ridiculous. Northern capital is invited and not troubled.

Texas advices report the cotton crop as large.

Pension Decision.

NEW YORK, May 10.—The Tribune's special says that the Committee on Pensions have decided that in the filing of claims for pensions, the last clause of the 6th section of the supplementary pension act of July, 1864, provides that in every case in which a claim for pension has been filed more than three years after the discharge or decease of the party on whose account the claim is made, the pension, if allowed, shall commence from the date of the last paper.

Many cases have arisen in which minor children, after the death or re-marriage of the widow without having received a pension, have filed a claim more than three years after the death of the father. The Commissioner decides that in all such cases the law does not apply, provided an application made within the prescribed time by the widow, was already pending; but the claim of minor children must be made within three years from the date of the widows death or re-marriage, to be exempt from the operation of the limiting statute.

The Merchants National Bank.

Further investigation into the affairs of the Merchants National Bank, shows the complete rottenness of the concern. It has already transpired that in addition to the government losses already published there were $250,000 deposited by T. J. Stobbs, the disbursing clerk of the Treasury Department. The indications are that the wreck is complete, and the depositors will get little or nothing.

The New York Collectorship.

The Senate Committee on Commerce will take final action to-morrow on the case of Mr. Smythe, Collector for New York. There is no doubt but that a favorable report will be made in this case.

The Herald's special says unfavorable comment is excited here by the fact of Paymasters and others having such large sums of money deposited in the banks to their own credit, and on which they undoubtedly receive interest or "douceurs" in some way, while government is paying a high rate of interest on the same money, obtained by loans and otherwise. Several millions are reported to be thus on deposit in this city at one bank almost within a stone's throw from the city vaults.

Cattle Plague.

Well informed persons in regard to the matter assert that not less than 500 cows in this district and vicinity have died during the last six months from the disease known as the cattle plague, and many dairymen have been compelled to abandon their business owing to the great mortality among their stock. The disease, it is alleged, was introduced here from Pennsylvania. The same authority also states that the prevalence of this disease accounts for the poor beef to be found in the market. The disease being incurable, the cattle are killed as soon as attacked and sold to unsuspecting citizens.

False Rumor.

WASHINGTON, May 10.—The telegram from Harrisburg that Secretary Seward passed through that city yesterday en route for New York, is incorrect. The Secretary was in Washington yesterday and is to-day at the State Department as usual.

Doings in Congress.

The House Election Committee is likely to decide in favor of Fuller's right to Dawson's seat from Pennsylvania.

The Senate Finance Committee have about agreed to report Sherman's loan bill.

AMERICAN WATCHES.

REDUCTION IN PRICE.

OF THE

American Watches,

Made at Waltham, Mass.

IN CONSEQUENCE OF THE RECENT great decline in gold and silver and all the materials used in the manufacture of our goods and in anticipation of a still farther decline, we have reduced our prices to as low a point as they can be placed

With Gold at Par,

so that no one need hesitate to buy a watch now from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

More than 200,000 Watches

have given our productions the very highest rank among time-keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until, for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in stating that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES, he different grades are distinguished by the following trade-marks engraved on the plate:

1. "American Watch Co.," Waltham, Mass.
2. "Appleton, Tracy & Co.," Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is named "Appleton, Tracy & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watches is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co., of Waltham, Mass., authorize us to state that without distinction of trade-marks or price,

All the Products of their Factory are fully Warranted.

to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this warantee is good at all times against the company or their agents and that if after the most thorough trial any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham, are for sale by dealers generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.
