WASHINGTON, May 26, 1881.

Register and Receiver, Los Angeles, California:
GENTLEMEN:—You are hereby advised that, on the 24th inst. Hon. S. J. Kirkwood, Secretary of the Interior, reversed the decision of this office, dated April 14, 1890, in the case of Henry Dalton vs. J. W. Haines, awarding to Dalton lands within the lines of the O'Farreil survey not patented to others. This action closes said case. You will please notify all parties in interest of this decision, a copy of

reset of this decision, a copy of which is herewith inclesed.

Very respectfully,

J. A. WILLIAMSON, Commissioner.

Something more than mere ownership of the lands is thus required, in order to this right of purchase. There must be proof of their use, improvement and continued actual possession from the date of the acquisition of the applicant's title. Dalton's purchase from Arenas was in 1844, prior to the acquisition of Mexican territory by the United States, under the treaty of Guadalupe Hidalgo, in 1848, and before the laws of the United States could operate on the land against the parties, none of whom were American citizens; and a strict construction of the section might require this proof from 1844. I am inclined, however, to hold him to proof from 1848 (when the territory was acquired by the United States) as the parties of the section of the section of the section might require this proof from 1844. I am inclined, however, to hold him to proof from 1848 (when the territory was acquired by the United States) as the section of the section of the section might require this proof from 1844. I am inclined, however, to hold him to proof from 1848 (when the United States) as the section of the section of the section might require the parties of the section of the sectio

purposes of the Act. The questions involved are not the rights of the settlers, nor of the Railroad Company, but those of Dalton only, under his applications, and inquiry was limited thereto at the hearing. There is no proof that prior to 1851 Dalton ever used or improved any of the lands involved. From 1851 to 1855 about 150 acres within his patented lines appear to have been cultivated, and crops were raised thereon in 1857 and 1858. In 1855 he fencedla large field, but the fence was removed after Hancock's survey in 1859 or 1860, where it extended on outside lands. Settlers began to occupy these lands in 1859, and Dalton testifies that, from that time he has not possessed 1859, and Dalton testifies that, from that time he has not possessed nor occupied the lands claimed by them. His vineyard, orchards flouring mill and buidings are within his patented lines. He has erected no buildings outside these lines within the last 20 years. Since 1855 he has had very few cattle, and these have grazed both inside and outside his patented lines, in common with the stock of the settlers. There is some evidence tending to show that he had, at times, rented certain tracts, but these times are subsequent to 1859. The seven witnesses introduced by
