# FINANCE AND TRADE.

### Stock Exchange Review.

NEW YORK, May 15.—The stock market opened under a cloud, owing to the depressed condition of the London market, bank failures in Australia, embarrassment of mercantile and banking concerns in this country and talk about heavy exports of gold. Prices declined sharply and there was heavy pressure to sell. Rallies occurred at intervals, but the market failed to hold the advance and the recoveries only served to make the bears more aggressive, when the delivery hour came and no failures had been announced, the shorts took alarm and started to cover. About the same time it was reported that those interested in the National Cordage company have appointed a committee to arrange a plan of re-organization, and the finances of the concern upon investigation were found to be in much better condition than had been supposed. Cordage common thereupon rose 5¾ to 16, and preferred jumped 10 points to 49c. The remainder of the list showed advances on the lowest figures of ½ to 3⅜ per cent, and the market closed firm.

Government bonds closed steady.
