Residents of the Wolleick orchard tract complain of being troubled by loose horses belonging to one or two parties living in that vicinity. Not less than two new houses are completed every week. It is hardly necessary to add that the agent alluded to is a constant advertiser in the Herald.

IS NOISE A NUISANCE?

LODGING HOUSES VS. TOBOGGAN SLIDES.

The Finance Committee of the Council Has a Difficult Matter to Handle—A Legal Side.

A number of the residents and property owners in the vicinity of the toboggan slide on Broadway presented a protest against granting the toboggan company a license, and at the last meeting of the city council, to which the protest was addressed, that body referred the matter to its finance committee.

Yesterday morning the finance committee met and had the representatives of both sides before it, and then adjourned without any definite result. Further investigation will be necessary before the finance committee can decide whether the slide is a nuisance, and whether the city has any power to act.

The fight on the place is led by Manager Babcock of the Southern Hotel.

Mr. Hitecock, the owner of the Rivera, and J. P. Gilmore, owner of the Southern, also take a hand and they have representing over two million dollars' worth of property.

He will produce a petition, he says, signed by more than two-thirds of the property owners in the block, and representing over two million dollars' worth of property. He will also claim that the fight against him is simply a plan to bleed him and offer in evidence the fact that the parties who are making the fight against him have on numerous occasions offered to drop the matter for a consideration and threatened if they were not paid that they would make him tear down his institution.

Last night members of the council visited the different buildings where the complaints came from.

The matter will doubtless be a feature of Monday's session of the council.

INCREASED ACTIVITY

In Real Estate as Evidenced by the Following Sales.

The real estate men report a decided brightening up in the market and an excellent outlook for the fall and winter.

As an example of the increased business, Wesley Clark and E. P. Bryan made the following sales the past week, the largest number of sales ever made by them in one week since they have been in the business:

To Mrs. E. H. Davenport of Oakland, one lot in the South Bonnie Brae tract; to Mrs. Bertha Hatch, two lots in the South Bonnie Brae tract; to Henry Koster of San Bernardino, a lot on Ninth street in the Clark & Bryan tract; to J. W. Robinson, two lots in the South Bonnie Brae tract; to R. H. Howell, 130 1/2 W. southeast corner Hope and Eighth streets, for \$10,000; to William Biseon, a lot on Tenth street in the Clark & Bryan tract; to L. L. Monroe of San Francisco, two lots in the South Bonnie Brae tract; to P. Oser, a lot on Tenth street in the Clark & Bryan tract; to George Bugbee, a lot in the South Bonnie Brae tract; and a sale of \$15,000 worth of property in the same tract.

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

ANTI OIL MEN.

They Consider Legal Proceedings to Equate Well Horser.

An adjourned meeting of citizens owning property in the vicinity of the Second-street oil region was held at 8 o'clock last evening at the federal building on Main street. The meeting had been called to oppose the further development of the oil measures, and it was decided that injunction proceedings should be begun at once, through the district attorney's office, and that such other legal talent as might be necessary should be employed to assist the district attorney.

The meeting was not altogether harmonious, the question of costs giving rise to some discussion. One enthusiastic gentleman said he had \$50 to give for the payment of necessary expenses, but when the representative of the district attorney informed the meeting that it would be necessary to have on hand at least \$200 or \$300 before suit could be brought there was no satisfactory response.

The opposition to the sinking of oil wells, however, has so far crystallized so that it is certain that the oil producers will meet with some legal objections. If the matter is to be taken into the courts it is perhaps as well that suits should be begun promptly and decided one way or the other as soon as may be.

ALFRED M. SALTER.

The Candidate for Recorder, Making Good Progress.

The Democratic nominee for the responsible position of county recorder is Al M. Salter, for several years past connected with the well-known music firm of Bartlett Bros. No one questions the ability of Mr. Salter, fully competent to fill this office to the entire satisfaction of the citizens of Los Angeles county, and numerous friends are doing splendid work in his behalf; besides Al is something of a ruster himself.

The next recorder is not only well known throughout the city and county but is held in highest esteem for his many good qualities.

In numerous positions of honor and trust, he has, by his courteous bearing, his genial manner and business integrity, won for himself the admiration and good will of his fellow citizens.

In his campaign work, which has already been pretty thorough, he has at all times refrained from personalities, a fact that commends him to all who believe in clean politics. On his 40th birthday Mr. Salter received from the People's party the high compliment of nomination by acclamation, and later was endorsed by the Democrats.

He is conceded on all hands to be one of the sure winners next month by a very large majority—one we predict that will surprise the successful candidate himself.

Dr. Shores and Shores.
 Attention is called to the advertisement of Dr. Shores, which appears on another page. Although new comers in Los Angeles, the Dr. Shores' treatment is well known to the eastern public. For the past six years their headquarters have been in Salt Lake City, but being so favorably impressed with Los Angeles, it is almost certain that their large manufacturing laboratories will be removed to this city.

As Dr. Shores come highly recommended both by the public and press of Salt Lake, it is safe to predict a large and lucrative practice in Southern California.

Messrs. Beeman & Hendes of 323 South Spring street died in the city of the ladies of Los Angeles and vicinity to attend their fifth annual opening of decorative, needlework and art novelties next Monday, Tuesday and Wednesday.

THE DAIRYMEN.

They Will War Against Bogus Butter and Cheese.

An interesting meeting of the Dairymen's association of Southern California was held yesterday at the assembly hall of the new chamber of commerce in this city, at which representatives from nearly all parts of Southern California were present. The subject which received most attention was that of bogus butter and cheese products, which dairymen consider is the paramount question with them at this time, the first object being to enforce existing laws, which in a measure will protect legitimate products.

A special meeting of all dairymen is to take place at the rooms of the Los Angeles chamber of commerce on Saturday next, October 20th, at 9:30 a. m., and all who can are requested to be present.

That Joyful Meeting
 With the exhilarating sense of renewed health and strength and internal cleanliness, which follows the use of Syrup of Figs, is unknown to the few who have not progressed beyond the old time medicines and the cheap substitutes sometimes offered but never accepted by the well informed.

Ceremonial Knife.
 In former days the Mission Indians made long spears and ceremonial knives of black obsidian. The longest ones are used in their burial ceremonies and generally buried with the owner or chief. None are made now, hence they are very rare. Mr. Campbell has succeeded in getting the longest one in Southern California. It can be seen this week at his curio store, 325 South Spring street.
