THE TOURNAMENT OF ROSES

Engages the Attention of Pasadena People

THE PLANS ARE DISCUSSED

And Another Meeting Will See Matters Well Settled

Company B, N. G. C. Meets for Business—Cottage Prayer Meetings Popular—News Brevities and Personal

PASADENA, Dec. 3.—The executive committee of the Rose Tournament association met last night at the office of Combs & Stearns, with President Stearns and Messrs. Weight, Hertel, Brown, McDonald and Hartwell present.

The president was authorized to engage the Catalina Island Marine band for the parade, which makes two bands already engaged, and there will probably be a third one.

It was resolved to invite the people of adjoining towns—North Pasadena, Pasadena, Lamanda Park, Garvanza, Monrovia, San Gabriel, Alhambra, Sierra Madre, La Canyada, Lincoln Park, Altadena and Echo Mountain—to participate in the tournament, and the secretary was instructed to send the proper invitations.

The matter of the line of march for the parade was discussed at some length, but it was finally decided to ask each member of the committee to bring in at the next meeting the plan of route. The suggestion that seemed to meet with most favor was that the procession form on East Colorado street, with detachments resting on Lake and Moline, and that the line of march be thence westward on Colorado to Orange Grove, countermarching on that avenue to give the judges an opportunity to make their inspection.

The committee recognizes the difficulty of selecting judges who will be both willing to serve in that capacity and at the same time satisfactory to those taking part in the parade, but they will endeavor to do this in the best manner possible by selecting some of them from neighboring towns, as well as from Pasadena.

The bicyclists suggested the name of W. C. Hill as chief of their division of the parade, and he will probably be appointed to that position. Captain Bangham was mentioned for chief of the division of floats, but none of the appointments will be positively settled until the next meeting, at which time the line of march will be arranged and other preliminaries decided.

It was announced that the Valley Hunt club would not enter as an organization, but that there would be many individual entries by the members of the club, under the club's colors.

Company B, the Sons of Veterans, the Knights of the Maccabees and other societies will enter, and doubtless the par-

ade will be a grand success. The committee are anxious that all who are to enter come forward at once and list their entries with the secretary, that they may be assigned to the proper class and all arrangements perfected as rapidly as possible.

COMPANY B BUSINESS.

Company B held an interesting business meeting last evening, in which a number of matters were discussed pertaining to the part the company will take in several coming events. The question of taking part in the Rose tournament has already been discussed and the club decided to enter. A committee appointed to arrange for a float or some representation of the company in the parade as follows: Sergeant Garlick, Privates Thall and Young. No doubt the boys will make a very creditable showing as they always do.

Ralph Clapp, Ralph Lewis, Alton Thayer, Messrs. Hampton, Pearson and Pascoe were admitted to membership, and their applications passed upon.

Discussion was held on the nature of the celebration, which should be made the 25th of December, which will be the sixth anniversary of the organization of the company. A committee was appointed to arrange the festivities, of which Lieutenant Collingwood was made chairman.

A committee was appointed to make arrangements for the next competitive drill to be held on December 12th, at the residence of Lieutenant Collingwood, Lieutenants Lippincott and Keene.

THE LEVANTING JUSTICE

Causes Chiao a Thousand Dollars Worth of Sorrow

Death of a Popular Young Man at San Bernardino—More Hotel Room Wanted. City Notes

SAN BERNARDINO, Dec. 3.—Orin F. Seeley, erstwhile justice of the peace at Chino, has levanted, and various people and institutions are mourning his absence to the extent of about \$1000.

In addition to being justice of the peace, Seeley was secretary of a branch of the Savings Union at Chino, an insurance agent, maintained a real estate and home-renting agency, was a member of a half dozen orders, and in one way or another managed to hold an interest in everything in the sugar factory town.

And more's the pity, since each of these different interests have suffered from his connection with them. He left Chino November 21st, came to San Bernardino, doubled back to Los Angeles and then left for the City of Mexico, where he is at present located.

His pecuniary loss will not fall below \$1000. Of this the Savings Union loses about \$250.

Dr. Kval left a wife and four small children in almost destitute circumstances, and the little home they occupy is mortgaged for \$1000.

Seeley was a hard drinker, and the real explanation of his levanting is that he was dissatisfied with his position, and this feeling led him to squander every thing, and then take to cowardly flight and desert his family.

DEATH OF BENJ. STODDARD
Benjamin Myrtle Stoddard died at his father's residence on E street at 1 o'clock this afternoon of consumption. He had been gradually failing for a year and a half—since his return from the university at Palo Alto in June 1894.

He was born in Whitewater, Wis., March 17, 1875, and was therefore in his twenty-first year at the time of his death. In the fall of 1892 he entered the University of Wisconsin, at Madison, completing his freshman year at that institution in September.

He came to San Bernardino in June, 1893, as father Dr. Stoddard, having removed from Wisconsin a few months before. In September he entered Stanford, registering as a sophomore and completing the year with credit, his work in scientific lines being exceptional. Microscopic dissection was his specialty, and some of his specimens have been given very favorable mention.

Personally Mr. Stoddard was popular in social circles of this city, and the news of his death is everywhere received with expressions of genuine sorrow.

IS NOT LARGE ENOUGH
The Stewart hotel is proving too small for the throng of winter guests who are coming to this city. For a month this caravansary has been crowded, and last night it was only with difficulty that the guests could all be furnished with rooms.

The arrivals yesterday filled two pages of the register, and the proprietors are driven to the conclusion that more rooms must be added.

The most feasible suggestion and the one which will probably be adopted is to bring the dining room down stairs. The bar has never been a very profitable feature of the house, and the space could be used to better advantage if the kitchen and dining rooms were brought down to the first floor. This would permit all the space now occupied by this department to be divided up into suites of rooms and would increase the capacity of the hotel materially. The three store rooms on the E street front now used as sample rooms might also be vacated.

NOTES OF THE DAY
The preliminary steps looking to the organization of a new musical society were taken last night. A number of people who are interested in music assembling at the Stewart. The ideas with reference to the work of the society are as yet rather indefinite, some of those attending favoring oratorio work, while others are very much in favor of extending the

Solution of a Mystery
The "apparently mysterious way" in which newly formed lakes, ponds, canals, etc., become populated with fish was discussed by some of the members assembled at a recent reunion of the Piscatorial society at the Holborn restaurant, London. More than one of them considered that this was effected by birds, which had been feeding on fish spawn elsewhere, and which, alighting on these new waters, dropped some of the spawn from their bills.

Proposed Baby Market
A French writer, M. Louis de Gramont, seriously proposes the establishment of a baby market in Paris. How many people are there, he asks, who lament the fact that they have no children in their homes; and, on the other hand, how many people are there who, having children, find the struggle with adversity too difficult, and cannot get food for those children? Let them sell their children, he says, and all will be well.
