According to the report from which this table is taken in fifteen years the price of corn fell from 38.6 cents per bushel to 26.4 cents. At twenty-five years the price of wheat varied thus: From 1870 to 1879, \$1.05 per bushel; 1880 to 1889, \$2.7 cents; 1890 to 1895, \$4.8 cents.

It is given out that freght rates on west bound traffic is to be raised on the 1st of May. The following table shows the old and new rates, so far as already established, on carloads:
Canned goods, from New York, present rate, 65c; new rate, \$6c.
Canned goods, from Chicago, present rate, 50c; new rate, \$1.5.
Cereals, from New York, present rate, 80c; new rate, \$90c; from Chicago, present rate, 75c:

from Chicago, present rate, \$1; Starch, from Chicago, present rate, \$1; new rate, \$1.
Starch, from New York, present rate, \$1; starch, from New York, present rate, \$1.5.
Fish, smoked or salted, from New York, present rate, 90c; new rate, \$1.15.
Pickles, from New York, present rate, 90c; new rate, \$1.15.
Pickles, from Chicago, present rate, 90c; new rate, \$1.
Condensed milk, from Chicago, present rate, 90c; new rate, \$1.
Rates from other points will be advanced in proportion, on the principle that when the rate from New York is \$1, Pittsburg will be about 95 cents, Cincinnati 90c; Chicago, 85c; St. Louis 80c, and Kansas City, 75c.

burg will be about 95 cents. Cincinnati 90c; Chicago. 85c; St. Louis 89c, and Kansas City, 75c.

The greatest advance is made on goods in less than carload lots. The advance in this way being reported as generally 50 to 75 per cent. Tobacco and cigars will be affected as these goods are not as a rule brought in carload lots, and the old and new rates on these compare as follows:
Plug tobacco, from New York, present rate, \$1.30; new rate, \$1.85.

Plub tobacco, from Chicago, present rate, \$1.30; new rate, \$1.85.

Smoking tobacco, from Chicago, present rate, \$1.50; new rate, \$1.85.

Smoking tobacco, from New York, present rate, \$1.50; new rate, \$2.0; new rate, \$3.0.

This advance is no doubt the outgrowth of the new understanding brought about between the Huntington railroads and the Panama Railroad company. The competition is practically ended, and hence the people must have the screws put on them a little tighter. Some months after the traffic association of San Francisco made are alliance with the Panama Railroad company and created a genuine competition in this busness, the following statement showing the isensitical effects of such competition:

"The introduction of competition in this busness, the following statement showing the isensition, which incress to the benefit of the merchant, producer and consumer in the state. Careful estimates based upon the earnings of the transcontinental lines for last year shows this to amount to at least \$500,000 per month.

"Last season, dried fruits and raisius in boxes were charged at the rate of \$1.40

Canned goods from \$1 per 100 pounds st season to 50c by rail and 30c by sea es. "Borax from \$1 by rail to 85c by rail or

"Wool in grease from \$1.50 per 100 pounds and scoured \$2.50 per 100 pounds to 75c by all lines.
"Beans from \$1.10 per 100 pounds by rail to 50c by rail and 30c by steamer.
"Barlay from 90c by rail to 30c by rail. "Barley from 90c by rail to 30c by rail and 25c by steamer. Other California pro-lucts, including leather, have been simi-arly affected."

larly affected."

It is stated at this time that there will be no change made in rates on California products, such as dried fruits, beans, honey, wool, etc. But it is well to note that wool is the only commodity being shipped in large quantities at this time of year, and the Clipper ships via Cape Horn afford effective competition in this business. It is always the policy of the Southern Pacific to keep rates low when there is nothing to ship and to put them up when business is brisk.

Business Transacted and Prices Paid at Home and Abroad

NEW YORK, Aprl 20.—The stock market today presented a more healthy appearance that for some time past. Business was fairly large and the trading was unusually well distributed, conservative operators being gratified over the fact that although Sugar exceeded any other individual stock in point of activity, the railroad list forged to the front. The continued pressure of money in London appears to be beginning to have a hoped-for result of attracting foreign capital into this market. London quotations come higher for Americans and foreign dealers were purchasers in this market, choice investment bonds being also taken. An increase in local commission house orders was logically reflected in the larger totals of transactions for the usually active railway stocks. The continued favorable weather and the absence of any positive unfavorable news helped the bullish sentiment. There was very little news of importance bearng upon prices. The railroad bond market sympathized with the buoyant stock speculation. As reflecting the congestion of money in London it may be noted that Britsh consols made another high record today, touching 114. The return of the investment of capital in these and other prime European mortgages is so meager that it is only logical that the European investors should turn to this market. The Gould shares were conspicuous in the trading, Union Pacific trust certificates displaying exceptional activity. Sugar was well supported, and after a somewhat erratic course closed with a gain of % per cent. The general advance was stemmed for an interval about 11 oclock by realizing. The losses, however, were unimportant. Activity subsided at one time until near the close when revived animation and additional advances were recorded, imparting a buoyant ton fairly large and the trading was unusually to the closing. The grangers, Louisville and Nashville, the Gould shares and a few of the specialties were in special inquiry. The net changes record improvem

THE LONDON MARKETS.

NEW YORK, April 20.—The Evenng Post's London financial cablegram says: Consols, which have been at IR, closed at 113%. This was the only feature in an

otherwise quiet market today. Among the speculative issues, Americans were inquired for and interest in them is slowly si-reading, though the movement must not be considered firmly rooted here. The adjournment of congress has long been looked for as a bull point. Today the general tip was to buy St. Paul. The Paristourse has been firm, but closed weaker. Berlin was quiet and featureless.

CHICAGO MARKET

The Day's Transactions on the Board of

Trade

CHICAGO, April 20.—There was a moderately active market, the range being 1/4c in wheat. The feature was the May houldation, many of the larger commssion houses selling heavily, and as shorts covered quite treely on Saturday's decline, the market had little support and prices decilined. Among the bear factors presented was good weather in the wheat belt, warm rains in Illinois and Indiana and the liberal Northwest receipts. Cables, too, were strong and prospects were for larger weekly world's shipments. The price of corn suffered in sympathy with wheat. The trading in oats was pretty generally scattered and was principally in the way of exchanging May to July at ½ to ½ the premium for the latter. Provisions opened lower because of the large receipts of hogs. There were a good many buying ofders at the lower price, and some part of the early decline was recovered.

CHICAGO, April 20.—The leading futures closed as follows:
