The Planing Mill Site Question Still Unsettled

THE NEW ENTANGLEMENTS

Threaten to Delay Proceedings for Some Time

PASADENA, June 20.-The settlement of the Mann & Daniels mill site dispute, which was thought to have been disposed of at the special meeting of the city council last Wednesday, again bobs up serenely, as unsettled as ever. There seems to have been a misunderstanding as to the terms of the offer of E. C. Webster, or else somebody has backed out; at any rate they cannot agree, and the whole question is opened up again. According to Mr. Mann and others who were present at the council meeting aforesaid, Mr. Webster agreed to purchase the site which was considered by him and others in the neighborhood as an objectionable location for the mill. and to pay \$250 down with the balance at the end of ninety days, putting up good collateral security for the balance till paid. But when the final talk on the matter was had Mr. Webster would not put up both the cash payment and the security, saying his offer was to put up one or the other, but not both. The price agreed upon was \$5100. The council granted a permit for the mill to be built upon another site which was unobjectionable to the property owners who had defeated the first attempt to locate the mill, this latter site to be purchased with the money received from Mr. Webster for the first one. As a matter of fact, the second site for which the council readily granted a permit is nearer to the center granted a permit is nearer to the center of business than the first for which they would not grant a permit. The way it stands now, since Mr. Webster will furnish enough cash in purchasing the former site to help with building the mill, Mann & Daniels cannot go ahead on the proposition. It is to be hoped that the matter can be adjusted so that the project can go ahead, for it is a good thing ject can go ahead, for it is a good thing for the town, employing many hands. A Y SOCIAL

Normal School Students at the Beach-Social Doings

SANTA MONICA, June 20.-The excursion of the state normal school has been a success. Six cars on the Southern Pacific accommodated the large number participating. The party was in charge of Prof. C, H. Miller and Prof. E. T. Pierce. A half hour was spent at the Soldiers' Home and then the trip was continued direct to the end of the great wharf, where another enjoyable half hour was spent, when the whole party returned to Santa Monica, where most of the visitors indulged in a surf bath before lunch. They have all entered with refreshing zest into the enjoyment of the day and a number will remain for a few days.

A number of Riverside people in parties have visited Coldwater canyon this week. One was a party of high school scholars chaperoned by Prof. Reed, and another was composed of Prof. Hyatt, W. T. Falkner and Silas Masters and their families.

Miss Demis Smith, teacher in the Thirteenth street school, left for Pasadena today to spend a portion of her vacation.

Park Commissioner A. S. White, Brad Morse and J. A. Simms have notified E. H. Gruwell, secretary of the executive committee of the Fourth of July committee, giving their official consent to the use of the park for holding the literary exercises on the Fourth.

There was some very careless handling of firecrackers and bombs last night during the parade. H. F. Gilliand had his face badly burned and a piece of flesh cut out of his neck by a large cannon firecracker going off in his hand, and a woman's dress caught fide from a bunch of lighted firecrackers being thrown under her.

A young brute, thought to be about 16 years of age, assaulted a little girl in the vicinity of the Sixth street school house last night. He did not accomplish his purpose, but succeeded in frightening the little girl almost into spasms. The officers are on the trail.

Miss Pryne, one of the teachers in the high school, will spend her summer vacation at Palo Alto, and will take advantare of the summer school at Stanford while there in gaining more knowledge to assist her in her work in the schools here. This desire on the part of teachers to improve themselves and in keeping abreast with tho times is commendable.

A Way to Escape the Most Dreadful Curse With Which Man Is Afflicted-Open to All

The Herald reporter visited the offices of the National Liquor Cure company at 122 and 123 Wilson block, in an endeavor to secure an interview which was denied us during the week on account of stress of business. It was our good fortune to meet the lady manager, Mrs. Hotchkiss, who volunteered to give us a few min-utes' interview. She said, when asked, it might be considered odd to find a woman in this line of business, but she was satisfied after a long experience that women must be met by women in a case of this kind; "and," said she, "I have la-bored for years with and for women and I know just how to sympathize with them, and I know, also, that they will come to and talk with one of their own sex more readily than with men. I feel satisfied that we are doing a grand mis-sionary work and that we are making very many happy homes throughout the country." In reply to the question, "Are you meeting with the success anticipated when you first opened the offices? that we never betray our trust. "We simply give the patient the medicine to carry home, and he can hide it from his family if he sees fit. Then he is not asked to take hypodermic injections nor to follow a lot of tyrannical rules, but simply takes the remedy when he feels like taking a drink, and before he knows it he is cured and that's the end of the matter. My experience has taught me that men seldom like to pose as 'before and after, examples of expertite and fore and after examples of appetite, and though there are a few who are working for the good of thir fellow men and will go out and lecture on the subject and acknowledge their former drunken ca-rousals, as did John Gough, yet as a rule

they seldom wish to refer to it.
"I wish you could hear our patients come in and talk of their restoration. The joy depicted on their faces would prove to you what a glorious work we are doing. One man since last January has put his money, which formerly went into the saloons, into a house and lot on the installment plan; another has gone into the country and has gone to work as foreman of a large ranch from which he had been discharged for drunkenness, and another has gone to San Francisco as salesman in a large grocery house. I could tell you many touching stories of ladies who have fallen into the habit, and of their restoration and thankfulness; also of wives and mothers who have sought for and administered the cure to their male relatives. I could go on ad infinitum, but it is enough to say that we are doing good work and are proud of it."

A Chinese truck team ran away on Morris street this morning, and, turning down Fourth street, overturned and collided with a surrey from which Mr. McClellan had just stepped. The surrey was demolished, the horse thrown to the pavement and the vegetable wagon righted and tore down the street at an astonishing pace for a Chinese team, a lady having a narrow escape from being run over.

inadequate for general purposes, and the use of sea water for street sprinkling has become an urgent necessity. The estimated cost of machinery, pipes and other appliances necessary to accomplish the purpose is \$25,000. City Attorney Thomas McNulta is now preparing an ordinance calling for an election, and the people will pass upon the issue.

Although the bill making Santa Barbara a sub-port of entry has not been signed by the president, a number of aspirants have already appeared for the position of port collector. Among them are School Trustee M. B. McDuffie, Councilman C. E. Lataillade and Ygnacio Del Valle of Los Angeles, at present port inspector here. The Democratic county central committee will probably indorse Lataillade.

Col. Fernando Cardenas, government agent at the Sanja Cota reservation, is in this city. He states that things are quiet among the Indians, with the exception of the regular Saturday night outbreaks, when the aborigines invariably attempt to capture Santa Ynez.

The Republicans will hold their ratification meeting this evening at Channel City hall. J. W. Taggart, S. E. Crow and W. P. Butcher are among the speakers. The ticket and platform meet the approval of the party in this county, even the financial plank being lost in the manifest enthusiasm over McKinley and Hobart.

AMATEUR BASEBALL The High School Boys Give the Whittier Lad A Lesson in the Game

In a well played and altogether most exciting game of baseball the Los Angeles high school team yesterday defeated the team from the Whittier state school by a score of 10 to 1. The pitching was the feature of the game; hits were few and far between. Superior pitching and battery work won the game for the high schools. McCann and Ferguson for Whittier and Harvey and Strohm for the high schools were the batteries. Fif teen strikeouts were credited to Harvey and ten to McCann. Tufts' home run drew out a great deal of applause and the crowd was well pleased with the

creditable exhibition of the national game.
The high school club has played eleven games and won nine, giving them proud game average of .818.

A Midnight Row A reception at Billy Smith's saloon at Requena and Los Angeles streets was Requent and Los Angeles streets was interfered with by a gang of toughs, and a free fight resulted in one man having his head badly cut. The wounded man and another named Tom Scott were brought to the county jail by Officer Werdin, one to have his wounds attended by the police surgeon and the other booked for disturbing the peace. for disturbing the peace.

Works Like a Charm

During the past three years whenever burning the past three years whenever anyone of our family has been attacked by a cough arising from "Grippe" or other cause we have resorted to the use of Tip Top Cough syrup. In every instance it has worked like a charm and we feel warranted in giving it a cordial recommendation.—Prof. F. W. Livingston. San Diego. Cal. ston, San Diego, Cal.

Taken to the Hospital

T. G. Smith, who on Friday evening attempted to end his existence by cutting his throat with a jackknife back of a saloon on Main street, was yesterday so far recovered that he was able to walk out of the receiving hospital to the ambulance, which conveyed him to the county infirmary, where he will be kept during convalescence.

216 and 218 South Spring Street Will you allow yourself to fall into the miserable state of Nervous Debility when there is a cure at

T IS PITIABLE to think of the vast number of men who go on f rom day to day suffering mental and physical torture as a result of their weakness, while right at their doors other men are being cured of the same disease. One who has not known it himself cannot realize the feelings of the man in an advanced stage of Nervous Debility, nor does he hear of it, for these men do not talk of their troubles. Even when they are fortunately led to use the remedy which is now so well known-Dr. Sanden's Electric Belt-and are cured by it, they do not mention it to their closest friends; nence the prevalence of this trouble and the means of cure are appreciated

only by those who have had experience. Considering these points, it is worth while to note how many meathrow aside all feelings of delicacy and give to the world, for the benefit of fellow-sufferers, the fact of their cure by Dr. Sanden's Electric Belt.

"I could dance with joy when I consider that I have been saved from the necessity of living the rest of my life in that miserable condition," says A. J. Morse, Los Gatos, Cal., after using Dr. Sanden's Belt one month. Such gratitude must give vent to words of praise. Mr. Morse is a man

past his prime and was given up by Dr. Urquhart of Los Gatos. He was in the last stages of Nervous Debility and is now fast recovering his strength. Mr. L. L. Jaccard, one of the best known and most respected men in Alameda County, in the jewelry business at San Leandro, was cured by Dr. Sanden's Electric Belt over a year ago. Last week he said: "I have no delicacy in making this statement. Your Belt has cured me of a varicocele and weakness that has been slowly destroying me for twenty-six years, and now that I am cured I think it is no more than right to tell the rest of the poor sufferers of it. A thing that is really good ought to be spoken of."

Mr. Jaccard is now one of the best specimens of physical manhood in Ala-

meda County. He is fifty years of age, five feet nine inches in height,

weighs 210 pounds and does not carry an ounce of superfluous flesh. His form is a mass of muscle. Strength of manhood is not dependent upon flesh. Fat men are seldom vigorous. This strength is in the nerves, and the life is electricity. This explains the reason for the inevitable failure of drugs and the success of Dr.

Sanden's Electric Belt in restoring the lost power. Applied for three to six hours in the twenty-four, at any time during the day or night that is most convenient to the patient, it saturates the system with Electric energy (animal magnetism), and this energy slowly builds up the forces of all vital parts. The vigor of manhood expands and becomes perfect in two or three months.

"I received your belt on February 9 last, and wore it for two or three hours every night for about two months. I am cured, and my partner, Henry Mauvis, used the same belt for vital weakness and it has cured him."

says Julius Jahn, Silver Star, Montana, May 17. No remedy is so easy to use as Dr. Sanden's Electric Belt. None gives such quick results. It has a patented regulator, which enables the wearer to turn the current on mild or strong at will while the Belt is on the body. It is warranted to last and give a strong electric current for one year. It

is by all means the surest cure for any weakness. Young, middle-aged and old men should send for Dr. Sanden's famous work, "Three Classes of Men," which will be sent, closely sealed, without marks, free. It gives full information, and hundreds of letters from people cured. It may save you a great deal of suffering. Address or call,
