The preliminary examination of Sam A. Thing, charged with the murder of Santiago Socias, near Potrero, in this county, last April, was concluded this morning, when the accused was held to answer in the superior court under bond of \$2000. There was no evidence offered on the part of the defense and that of the prosecution was favorable to justifying the homicide. The case is one of unusual interest from the fact that at the time of the shooting and the inquest that followed Thing was exonerated from any crime, the jury returning a verdict that the killing was done in self defense. Since that time the Mexican authorities have been investigating the case, and at their request the present prosecution was instituted.

To the public: I was seriously afflicts for about yen years with lung, liver an kidney troubles. Tongue could naver express the misery I endured during they years. I was reduced in fiesh until I was mere skeleton. My sight and hearing were badly impaired; was constant troubled with constipation and piles, and had a severe chronic cough. In short, life were badly impaired; was constantly troubled with constipation and piles, and had a severe chronic cough. In short, life was a burden and death would have been welcome. I was treated by various specialists without avail. I finally resolved to give Dr. Wong Him, of No. 635 Upper Mais street, a trial. Of course, like many others, I had no faith in a Chinese doctor, but it took only a few doses of his life-giving herbs to knock all the skepticism out of me. In just five weeks the doctor pronounced me cured, and now I can truthfully say that I was never healthier and never felt better in my life. My sight and hearing are both fully restored; that obnoxious cough, constipation and piles are entirely cured, and I am rapidly gaining in fiesh, having gained forty pounds in two months. I earnestly recommend all sufferers and skeptics to give the doctor a trial and be convinced of his superior skill as a physician.

JOHN M. STEVENSON.

620 Bellevue avenue, Los Angeles, Cal.

To the Public: I take pleasure in testifying to my marvelous recovery under the treatment of Dr. Wong Him of 62 Upper Main st., Los Angeles, from a number of stubborn ailments, among which were chronic sick-headaches, dyspepsia and kindred stomach troubles, heart affection and kidney disease. But what I consider this physican excelled in, so far us my case is concerned, was in the restoration of my eye service. Astignatism, coupled with other disorders, was my affiletion in this respect, and, although anumber of well known skilled occulists is some of the larger cities of this country acvised me I should always have to depend upon glasses, and receive but poor service even then. Dr. Wong Him's remedies have enabled me to abandon total the upon the country wonderful. To the skill and remedies of the physician named can alone be altributed a revolution in my physical condition throughout that puzzles those who knew of the 'incurable' character of my afficiens. Respectfully,
