Mountain Fires BRADLEY, Cal., Aug. 21.—A fire has been raging in the mountains in the vicinity of Warham, twenty-six miles east of here, for several days, and all communica-tions between here and the San Joaquin valley by the road leading to Coalinga have been cut off. The ranchers are fighting the fire day and night, with but little effect, as there is a high, hot wind blowing. Many people are leaving the vicinity on account of the oppressive heat. If the fire reaches the valleys to the south of Wartham much damage will result, as little threshing has been done in that vicinity. The heaviest thresh of grain ever known was grown there this season.

SPANISH PROSPECTS The Sneaker this week publishes ong article presenting the gloomiest view of the prospects of Spain. It says t sees no chance of the war in Cuba easing to outrage humanity until popular feeling in the United States forces to government to find a pretext for intervening and further complicates the ituation, perhaps by naval war. The Lourdes pilgrimages are in full wing. The past week has witnessed the

arrival of unwards of 40,000 people. THE HORSELESS CARRIAGE The first real effort of horseless vehieles in London was made on Thursday, when a company placed a dozen electrical cabs on the street. They resemble coupes, and the accumulators consist of forty cells capable of propelling them over fifty miles at a cost of 50 cents. The rear wheels do the driving and the front vheels do the steering. They have heavy rubber tires, have upholstered spring cushions, are speedy and almost noiseless. They appear to be giving every satisfaction. The machines seem under perfect control and tread their way wonderfully through the traffic. The tariff is the same as that of the cab.
