Down From Alaska
VICTORIA, B. C., Nov. 21.—The U. S. S. Concord, Capt. Winter, reached Es-
quimaux today from Alaska, the hav-
ing been relieved at that station by the
Marietta, which went north a few weeks
ago. The Concord left Sitka a week ago
and it on her way to San Francisco. She
will remain in port till Tuesday.

A Kern County Quake

RANDSBURG, Nov. 21.—Two very dis-
tinct earthquakes have been felt here
today, the first at 11:30 and the next an
hour later. The vibrations were from
north to south. Buildings shook per-
ceptibly, but no damage was done.

The Floor Collapsed

CLEVELAND, O., Nov. 21.—By the
collapsing of the floor of the Cory Meth-
odist chapel on Central avenue, this
evening 500 colored worshippers were pre-
cipitated to the ground, a distance of
seven feet. A panic ensued, but only
three persons were hurt, and they not
seriously.

GEN. ALGER WILL ADVERTISE PLANS OF CANADIANS

Find Hearty Support in England

STRONG HOPE ENTERTAINED
OF SETTLING MANY VEXATIOUS QUESTIONS

Even the General Arbitration Treaty, Though Sleeping Somewhat Soundly, Is Not Dead

Associated Press Special Wire.
WASHINGTON, Nov. 21.—There is good reason to believe that the British government will view with favor the formation of a commission to clear up vexatious questions between the United States and Canada. This attitude will be important in the consummation of the commission plan, for the best efforts of the United States and Canada toward a general settlement could come to naught unless the imperial government approved the efforts and stood ready to give them official execution in the form of a treaty. At first the sharp differences aroused by the recent Bering sea meeting led to the belief that Great Britain might stand in the way of a commission which would discuss among other questions, such imperial subjects as the tariff. The British have been tenacious of holding the advantages secured by Canada's preferential British tariff and it was thought the colonial office at London would not view with favor any measure by a commission which would disturb this preferential tariff. It appears, however, that the British authorities are sincerely anxious to close up the various irritating questions which have long existed between Canada and the United States, through the medium of a commission or otherwise, and that no idea is entertained that when the commission dealt with the imperial subject of the tariff it would involve any disturbance of the British-Canadian tariff relations. There are said to be many articles, such as coal and fish, which are not exchanged between Great Britain and Canada. On such articles, therefore, any reciprocal arrangement between the United States and Canada would have no influence on British trade with Canada. The home government is said to be fully conscious of the advantages which Canada may secure in the extension of American market lying alongside her, and there is understood to be every desire to aid Canada in the enjoyment of reciprocal trade with this country.

Already the British ambassador has been authorized from London to begin negotiations for reciprocal treaties between the United States and the British West Indian colonies. This is cited to show the favor which the London authorities exhibit toward securing the best reciprocal advantages for British colonies. It is said the same view would be taken in the case of the fisheries. In any event, the work of a commission would be preliminary only, and it would remain for the British government to give it effect by formal treaty.

The subjects other than the tariff, such as border immigration, fishing in the great lakes, etc., are of an imperial character, and concern only the United States and Canada. In these, it is said, Great Britain has no interest whatever except to see them settled on terms satisfactory to Canada. The lake fisheries have been a prolific source of trouble. It is claimed that the fish of the lakes, particularly white fish, are being exterminated by the lax laws of some of the states bordering on the lakes. The destruction of the fish is said to be analogous to the destruction of the seals in the Bering sea, and one of the subjects which Canada would urge before the commission would be the protection of the fisheries in the lakes.

Prof. D'Arcy Thomson, the British seal expert, having concluded his labors, left today for Toronto, intending to reach New York in time to take the Lucania for Liverpool later in the week. Prof. Thomson, who is himself a fisherman, was pleased with the recent meeting of experts, and with the results arrived at. Since the expert agreement was reached, a protocol has been signed by Mr. Hamlin, chairman of the expert meeting, and by the secretaries, Mr. Fenning and Mr. Adams, first secretary of the British government, and Mr. Fenning on behalf of the United States. This protocol sets forth the conditions under which the meeting was held, with the minutes of the proceedings, and to some extent aids in the interpretation of the agreement by showing all the circumstances leading up to it.

Sir Julian Pauncefote, the British ambassador, has been confined to his room for the last two weeks with a return of his old attack of rheumatism. It prevented his attendance at the Bering sea meetings, and in this and all other affairs of the embassy Mr. Adams, first secretary, has been in charge. In the meantime such questions as reciprocity with the British West Indies, the general arbitration treaty, etc., have been in abeyance, but they are likely to come up for discussion with the authorities here as soon as Sir Julian is fully recovered.

There is no immediate prospect of the conclusion of the reciprocity negotiations between the United States and France. Both governments have presented elaborate statistics to show their respective positions in any reciprocity arrangement, but the matter has not progressed to the point where an agreement can be foreseen.

A Harris Memorial

MEMPHIS, Tenn., Nov. 21.—The memorial exercises in commemoration of the life and services of the late Senator Isham G. Harris, twice postponed on account of yellow fever, were held tonight

SLAYERS OF ARROYO

ARE NOW ON TRIAL FOR THEIR OFFENSE
Little Doubt Entertained That Most of the Accused Will Be Condemned and Shot

MEXICO CITY, Nov. 21.—The trial of the policemen and officials of police who took an active part in the killing of Arroyo, the would-be assassin of President Diaz, draws to a close, and the verdict is expected tomorrow. Great crowds have attended, and it has been difficult to prevent the packing of the courtroom in the palace of justice.

Members of all grades of society have been present, and perfect order has prevailed. The accused realize the seriousness of their position, and the prisoners' van is called when they are taken from the court, showing the strength of public feeling against them.

Last night the prisoners were kept in the palace of justice, so great was the crowd in the street awaiting the appearance of the van. The prisoners are well guarded and a mob cannot get at them.

One of the attorneys for the defense told the jury that the case was attracting the attention of the civilized world, and that the reports were going by the Associated Press all over the globe.

Prosecuting Attorney Assophea, a young man who has won a brilliant triumph in this case and whose admirable self-possession has restrained him from replying to the innuendoes of the opposing counsel, made one of the most notable arguments in the history of the Mexican bar.

The case goes to the jury in the morning, and it is said they will take ten hours to arrive at a verdict. Popular belief is that most of the eleven men for whom the public prosecutor asks capital sentence will be condemned to be shot.

No case has ever attracted more attention here, and the trial has been eminently fair, the prisoners being allowed every opportunity to prove extenuating circumstances.

YELLOW FEVER

No Fear of Spreading Felt at San Francisco
SAN FRANCISCO, Nov. 21.—The Norwegian bark Imperator, which arrived Saturday from Apaculco with three cases of yellow fever on board, was today given a thorough overhauling by the federal and state quarantine officers. After the disinfection the vessel was towed to Angel Island, where she will be kept in quarantine until such time as all danger of contagion is past. Federal Quarantine Officer Rosenau says the people of this city are safe from the disease, as the weather is too cold for it to spread.

The case goes to the jury in the morning, and it is said they will take ten hours to arrive at a verdict. Popular belief is that most of the eleven men for whom the public prosecutor asks capital sentence will be condemned to be shot.

LA LUCHA HAS DOUBT

Of America's Friendship for Spain

THE CUBAN CONSERVATIVES

ENRAGED BY RECENT CHANGE OF POLICY

From All Parts of the Island Come Reports of Awful Suffering and Death

Associated Press Special Wire.
HAVANA, via Key West, Fla., Nov. 21.—La Lucha in a recently published editorial expresses doubt as to the sincerity of the friendship of Spain for the American government, and says:

"If the American government cannot prevent the sailing from the ports of that country of expeditions in aid of the insurgents and does not respond in other ways to Spain's efforts to come to favorable terms, it is useless for Spain to maintain friendly relations with America."

Reports from Matanzas say that the Conservatives, having become enraged at the change in the government's policy are disturbing public order. Ex-Mayor Crespo initiated the disorderly conduct by publicly giving offense to Senator Armas, the new civil governor of the province. The chief of police followed Crespo's lead by endeavoring to prevent aid being given to the suffering reconcentrados by newspaper correspondents and others. Of the reconcentrados in Matanzas, numbering more than 50,000, seventy-nine died in two days, thirty-seven from hunger. Yesterday seventeen deaths were reported, a large proportion of which were the result of starvation.

In Jauruco about 65 per cent of the deaths are caused by starvation, and the same is true of many other towns. Owing to the lack of proper clothing and of blankets, the situation of the reconcentrados is becoming worse as the winter season approaches.

Horrible episodes are of daily occurrence among the reconcentrados. After lying for days in the streets, a poor negro woman, who was suffering terribly and was unable to move, was carried away by a flood caused by a great downfall of rain. A short time afterward her dead body was found a few blocks away, and at last reports were still lying in the gutter.

Marshall Blanco has appointed thirty-four new employees at the custom house. Of these five are native Cubans and the remainder Spaniards and Reformists. The Automotors are greatly disgusted by their appointment.

Sixty persons employed about the docks and 500 others in various parts of the island have joined the revolutionists and a number of prisoners at Guines who were pardoned under the proclamation have returned to the insurgents. Smallpox is rampant in the neighborhood of the insurgent headquarters in Pinar del Rio and there are in the hospitals and the hills 1700 persons suffering from the disease.

It is stated by a prominent official of Pinar del Rio, according to an official report, that there were actually 25,000 soldiers in the province, including the bands which have recently entered the province under Maria Rodriguez and other leaders.

General Hernandez Velasco confirms the statement that the insurgents in Pinar del Rio are abundantly supplied with ammunition. Seventy of Velasco's men have arrived in Pinar del Rio suffering from wounds received in recent engagements.

The financial situation of the military administration is bad. The soldiers have not been paid in eight months. Requisitions for the military supply for the hospitals and in many towns no meat has been obtainable for many days.

Gen. Losada, sub-inspector of the health department, said recently to the correspondent of El Imparcial, in Madrid, that there were actually 25,000 soldiers in the hospitals in Cuba and that about 15,000 of this number were not suffering from any disease, but simply from need of nourishment.

A band of insurgents recently fired on the town of San Nicholas, Havana province. Rio Selco, province of Havana, reports that a fresh band of insurgents, well armed, has appeared in that vicinity.

The police recently visited the house of George W. Hyatt, chief of the relief department of the United States consulate, at 12 o'clock at night, to make inquiries as to the destination of a quantity of food which had been taken into the house during the day. The female inmates, becoming frightened, refused to open the door and insisted upon being informed of the object of the officers' visit. The police finally retired upon learning that the inmates were Americans.

A dispatch from Madrid says that Senator Giberia, deputy to the Spanish cortes and leader of the new autonomists, is on his way to Cuba, where he will enter the autonomist party upon condition that Senors Montero, Fernandez de Castro, Cuelo and Zayas leave the board of directors of the party, it being asserted that they are too pronouncedly Spanish to succeed in inducing the insurgents to accept autonomy under their leadership. Senor Jose Galvez will remain chairman of the party.

A MYSTERIOUS MISSION
NEW YORK, Nov. 21.—Marguerite Apesquiguita, leader of the Conservative party in Cuba, arrived on the French liner La Champagne from Havana today. The marquis said he had been in Spain.
