MRS. GEORGE SIBLEY

Agent, Venice of America

Office at Ocean Park

Sales upwards of \$300,000 in a single week is the remarkable record of one woman--MRS. SIBLEY--since "Venice of America" was put on the market. Early investors are doubling their holdings. Those who buy now will double their money; but delay may mean disappointment--because all the choicest sites will soon be sold. **BUY NOW**--whether as an investment or for a home.

Venice of America is the "Pride of the Pacific Coast." Over five hundred thousand dollars are being expended on canals and other artistic features characteristic of the ORIGINAL VENICE; lakes and lagoons, a marine

hotel and auditorium, business streets in arcade style--these are a few of the features peculiar to this unique Beach Resort; while every idea detrimental to making Venice a place of homes is to be eliminated, and every comfort procurable introduced.

Venice of America is but fourteen miles from Los Angeles, between aristocratic Ocean Park and beautiful Playa del Rey--and aside from its intrinsic value, property so located is bound to bring several times the prices for which it is at present offered.
