Increase of Over 36 Per Cent—Collapse of Steel Foundries of but

Little Effect on Prices

ADVANCE IN PRICES NOT SUBSTANTIAL

The firm tone at London caused prices to advance at the opening of stock trading yesterday, but gains were soon wiped out.

Street railway sold off 1 point and Kansas City Southern preferred 1 1/2.

Havana Electric preferred and Great Northern preferred gained 1 point each and reacted 1/4 and 1/2 respectively.

St. Paul and Union Pacific each rose a point and the advance in reading to 96 contributed to a general hardening of prices despite the continued liquidation of steel foundries preferred, which fell 3/4.

Baltimore and Ohio, Texas and Pacific, Sugar and Rubber, preferred moved up a point each.

The rise in Ontario and Western was 2 1/2, Illinois Central and Northern American, 1 point.

NEW YORK, June 14.—The dead level of dullness in today's stock market was not relieved by any notable increase in earnings. The professional traders who look to a movement of prices as a medium for earning their daily bread tried during the morning to extend yesterday's decline. They succeeded in wiping out the opening advances which had been caused in sympathy with the advance of the London market, but at that point the narrow dimensions of the market again asserted themselves.

Yesterday's market was accepted as a demonstration that no new interest in the market could be looked for as a result of the peace prospects or of the Equitable Life settlement. There is some discussion, however, as to the result of the peace prospects or of the Equitable Life settlement. There is some discussion, however, as to the result of the peace prospects or of the Equitable Life settlement.

The New York Central statement of net earnings for the June quarter, partly estimated, was received with satisfaction, the balance in favor of dividends showing an increase of over 36 per cent over the corresponding quarter of last year.

The collapse in Steel Foundries preferred was of minor importance. The advance of the day were well maintained and the closing was fairly steady.

Weather conditions were reported favorably today for the crops, but the market is not likely to respond to today's developments in the crop situation.

The stocks which showed any appreciable movement today were those which are readily to respond to an impulse in any direction, or which are the subject of professional speculative interest retained in them. Canadian Pacific was responsive to such a movement. The bull market help from the financial conditions reported in the anthracite trade. Other rumors of the mysterious death of the Duke of Devonshire, however, were of no importance.

United States bonds were all unchanged on call.
