RAILROAD AGENTS DOUBT SCOTT'S WISH FOR TRAIN

Death Valley Spender Fails to Complete Negotiations With Santa Fe

"Death Valley" Scott was conspicuously absent from the headquarters of the Santa Fe railroad all day yesterday. According to the program he was to have made the final arrangement by which a special train was to carry him from Los Angeles to Chicago, "just for the fun of the thing." But beyond informing General Passenger Agent John J. Byrne that he "would be over to see him some time" there were no developments.

Yesterday in his unintelligible scrawl he placed the name of himself and wife on the register of the Lankershim and was given a suite of two rooms on the third floor.

Several agents of eastern lines were given to understand that Scott would be at the Hollenbeck early in the afternoon and it might be well for them to get into the band wagon. They did not put in an appearance. Scott may have plenty of money, but somehow or other the railroad men could not be made to believe that the Death Valley Croesus desires a train as ardently as he says he does.

FEDERAL BUILDING PLANS IN HANDS OF ARCHITECT

J. Knox Taylor Expected to Arrive in Los Angeles Septem-ber 1

With the return of Postmaster Flint from his eastern trip comes the news that J. Knox Taylor, government architect, will visit Los Angeles within a few weeks and bring the plans and specifications for the proposed post-office building to be erected on the Downey-block site.

According to Mr. Flint the building, as now contemplated, will be six stories in height and the plans are drawn on the estimate of cost of \$1,500,000, it being assumed that the government will add \$500,000 to the appropriation already made at the next session of congress.

The contracts for building and supplies will be let when Mr. Taylor arrives and will require completion of the building within two and one-half years from the date of beginning operations. It is said that the new building will be the handsomest in the country and will have all modern improvements, both as regards building and postal conveniences.

RHEUMATISM COMMON IN SUMMER

The time to get rid of Rheumatism is in Summer while the blood is endeavoring to purge itself of all poisons and impurities, and the skin is active, with all the pores and glands open and able, in this way, to assist in the elimination.

Columbus, O., 1355 Mt. Vernon, Ave. Six years ago I had a severe attack of inflammatory Rheumatism, and the doctors I had did me no good. They changed medicine every week and nothing they prescribed seemed to help me. Finally I left off their medicine and began the use of S. S. S. My knee and elbow joints were swollen terribly, and at one time my hands were so swollen and painful that I could not close them when opened. I was getting discouraged, you may be sure, when I began S. S. S., but as I saw it was helping me I continued it, and today I am a sound, well man and have never had a return of the disease.
R. H. CHAPMAN.

The inactivity of the Liver, Kidneys and Bowels causes the refuse matter to remain in the system, which, coming in contact with the different acids of the body, forms uric acid to be absorbed by the blood and distributed to the different joints and muscles, producing the pains, inflammation and other distressing symptoms of Rheumatism. The wandering pains of the disease remind the sufferer that the poison is still in the blood and he should lose no time in getting it out. S. S. S. neutralizes the acid and makes the blood rich and pure. It tones up every organ and cures the disease permanently. S. S. S. contains no harmful minerals to disagreeably affect the system, but while curing the disease builds up every part of the body by its fine tonic effect.
