### OPPORTUNITY FOR PROFIT IN LEMONS IN THE EAST

Special to The Herald.

NEW YORK, Sept. 2—The fruit market declined this week for several reasons, Oranges were in liberal supply. Twenty carloads being received. Much of the fruit was diverted here on account of our high prices.

Recent heavy offerings caused buyers to store fruit, so that the market is pretty well supplied and this hurt the sale of the best brands. These are still wanted, however, and will sell well. The quantity to come is limited and will be carefully distributed over the remainder of the season so as not to oversupply the market. A few hundred barrels of Jamaica oranges were sold this week, the first of the season, and realized \$3.00 a barrel. More will be sold next week.

There's entirely too much grapefruit here for this time of the year, attracted by high prices. About four carloads were received this week. Prices are now very low, with no demand.

Two carloads of California lemons were sold this week. Prices were very high and will continue so as long as the fruit is good.

There are scarcely any foreign lemons now on the market. Only \$700 boxes were sold this week, ex-steamplis Sicania and Sicilia. The demand was very active. Prices were 25c to 50c higher: Fancy 300s, \$1.73; 300s, \$4.3696.75; choice 300s, \$5.75; about 50s of the conoice (off sizes), \$5.006.75. Such prices are extraordinary, but the lemon famine is keen, only 41,000 boxes now in sight, of which lemons will continue high. As California by the new season opens and California.

The supply is not enough to last until the new season opens and California
lemons will continue high. As California has over 500 carloads still to come, ship-
pers should make large profits before the new foreign season opens six weeks hence.
California growers and shippers never had a better opportunity than now.
Quotations as given above are according to grades of brands as they are reg-
istered in California in the citrus brand register.
