

## NAME TRUSTEES FOR NEW COLLEGE

### PERMANENT BOARD CHOSEN AT PASADENA

President Jordan Meets Trustees Saturday—Judges Announced for Chariot Races—Other

#### Pasadena News

Pasadena Agency,  
91 North Raymond Avenue  
Telephone, Main 1762

PASADENA, Dec. 21.—The permanent board of trustees for the proposed women's college has virtually been decided and is announced as follows: H. E. Huntington, Gen. Harrison Gray Otis, Gen. M. H. Sherman, O. T. Johnson, H. C. Gillis, Dr. Norman Bridge, Dr. George E. Abbott, A. H. Fleming, Rev. M. J. McLeod and Dr. M. Linnard. It is expected that these men will be present Saturday evening, when an informal dinner will be given at the Hotel Maryland in honor of President David Starr Jordan of Leland Stanford University, at which time other questions of importance in connection with the proposed college will be discussed. There is said to be some likelihood that President Benjamin Ide Wheeler of the University of California at Berkeley will also be present as well as a number of other influential men who are quietly working for the institution. Covers will be laid for twenty-five and the dinner will begin at 6:30 o'clock. After the dinner the local board of trade expects to tender the distinguished educator an informal reception from nine to ten in the parlors of the Hotel Green.

It is understood that President Jordan has been invited to become a member of the permanent board of trustees but he has not yet given his consent, although he is deeply interested in the project. It is probable that this matter will be settled tomorrow, Dr. Jordan arriving during the day and remaining until after the reception Saturday night.

It is stated tonight that the Allen and Dorsey interests have come together as was expected and have jointly offered 130 acres for the site. This reduces the land offered to two sites again, the Kinneloa and the Dorsey-Allen tracts. Just which site will finally be accepted will not be known for some time. The chances now seem to favor the Dorsey-Allen tract.

#### Judges for Chariot Races

It is announced tonight that the following men have been chosen as judges of the tournament chariot races on New Year's day: D. M. Linnard of this city, Walter S. Newhall of Los Angeles, president of the California club, and Rev. Baker P. Lee, rector of Christ's Episcopal church at Los Angeles. Mr. Linnard is also stated by President Neff that the executive committee has decided to appoint as grand marshal for Tournament day John B. Miller, president of the Edison Electric company of Los Angeles. Mr. Miller is a resident of Pasadena and one of the best known men in Southern California. Many letters are being received by the management relative to the auction sale of boxes announced to occur tomorrow night, December 22. It has been decided to hold this opening auction at the board of trade rooms instead of at Kuranaga's and Mr. Linnard has consented to act as auctioneer for the occasion. The general sale of seats in the grandstand commences December 26. On December 30 the chariots will be driven in parade along Broadway and Spring streets, Los Angeles, preceded by a bugler, in line with the races a little novel advertising.

**Entertained the Editors**  
The party of editors from the east met with a warm welcome in this city today and expressed themselves as charmed with all that they saw. On their arrival they were given an informal luncheon at the Hotel Maryland, a number of the directors of the board of trade joining with the reception committee in entertaining the editors during the discussion of the elaborate menu. Manager Linnard of the Hotel Maryland, assisted by M. Schuyler of the New York Times editorial staff as representing the party. Rev. Robert J. Burdette made a speech and was given an ovation. After luncheon a tour of the city was made in a number of automobiles, after which the editors took their special car and left for Los Angeles. Secretary Coolidge says that three of the visitors told him that he would hear from them next winter, as they were determined to look further into the beauties of the Crown City as a place for building their permanent homes. Each of the guests was presented copies of the special board of trade souvenirs of Pasadena.

Zeno Carpenter Taber, aged 92 years, and for eighteen years a prominent

## Robbing Yourself

That is just what you are doing when you fail to get regular and sufficient sleep. Your body requires this unconscious period for repair work; without it your nerve energy becomes exhausted, and you are tired, worn-out, nervous, excitable; have headache, neuralgia, indigestion, poor appetite, or other ailments caused by a lack of nerve force. Make it your business to sleep. If you are restless, take Dr. Miles' Nervine; it soothes and strengthens the nerves, and brings sweet, refreshing, life-giving sleep, and gives the organs power to work naturally. Try it to-day.

"I had a severe spell of fever, which left me in a very weak condition and very nervous. I had severe spells of headache and neuralgia, and could sleep but very little. Every effort that was made to recover my strength was of no avail until I began taking Dr. Miles' Nervine. After I commenced to take the Nervine my sleep was profound and restful, and the pains in my head, as well as the neuralgia pains, left me to a certain extent and I grew gradually better."

Mrs. E. E. GIBBSON,  
821 Beverly Ave., Beverly Hills, Ill.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

Miles Medical Co., Elkhart, Ind.

resident of this city, died this morning at the home of his son, W. Z. Taber, on Lincoln avenue. The deceased was a well-known educator in the east before coming to California and a number of his former pupils reside in this neighborhood. In addition to his wife, who survives him, he leaves a son in this city, another, Dr. H. E. Taber, at Riverside, and two daughters—Mrs. Edna Carson of Ontario and Mrs. Kate Hoag of Compton. A brother, G. Mayer Taber, lives in Los Angeles.

#### Elke's Plans for Christmas

Pasadena Elke will play Santa Claus to the 117 inmates of the South Pasadena Orphan's home, and according to present plans the little ones will have a Christmas which they will long remember. Exalted Ruler Medill placed the children's names on separate cards, together with the age and sex, and some one member of the lodge will see that the card he draws is attached to suitable gifts. On Tuesday a special car will bring the children to Elke's hall, where a real Santa Claus will look after the distribution of the gifts. Following the glad time in the hall the children will go on a ride on the street cars about the city and then back to their homes. The angered tribe will see that the affair is done to the queen's taste.

#### Pays \$1000 a Month

Senator Barker's beautiful residence on South Grand avenue, at the end of Palmetto drive, is being put in shape for the reception of its new occupants for the season. It has been rented by Hugo R. Johnstone of Chicago, a son-in-law of S. W. Allerton of Buena Vista street, the rental price being \$1000 a month. Mr. Johnstone and his family will arrive in Pasadena in a few days.

#### Fell Twenty-five Feet

Hiram Coffee, a painter living on North Raymond avenue, fell from a scaffold this afternoon and was severely injured about the back and face. He was working about twenty-five feet from the ground when the scaffold gave way, precipitating him to the ground. It was believed that his injuries were necessarily fatal, but this evening the physician says that the man has a badly sprained back and a broken nose and that he will probably recover in a few days.

## YOUNG CORBETT MOVES QUARTERS

### RAW WINDS AT SANTA MONICA HINDER WORK

Former Champion to Begin Training in Los Angeles for Bout With Herrera Next Month

Young Corbett will not train at the Santa Monica bath house in preparation for his bout with Herrera, as the raw winds at the beach have made it impossible to maintain a regular routine at Lewis' physical culture school on south spring street.

"The winds at the seashore were too raw for training," said Young Corbett yesterday. "I did road work two mornings and found that the return run in the lake of the wind was too severe for the proper warming up. It was all right going into the mud, but coming back we would lose the benefits of the run on account of the stiff, salty breeze."

Corbett says, moreover, that he has always gained better results when training in the city. "Way, when I was getting ready for my first fight with Terry McGovern I did all my work in the city of Hartford and entered the ring in the best condition of my life. All my battles in Denver were after working in a city gymnasium and I am sure that the right thing for me to do is to train up here under conditions that have always brought the best results for me."

The little man is sensitive as regards his weight and says that there is not the slightest doubt that he will be strong and under the poundage when the time for weighing in comes around. Bothwell went through an hour of tag punching and skipping this rope yesterday, completing the afternoon's work with a grueling boxing match with George Blake, a local instructor. That the former champion retains the oldtime punch was very evident to the spectators who enjoyed the bout. He was quick as a flash and ran in and out under the lanky Blake's clever reach in fast fashion for a man who had been charged with being "all in."

Corbett is to all intents sincere when he says that he will surprise those who doubt his ability to wind up his training in top-notch condition. "I will run to the race track and back every morning and finish up with gym work in the afternoon," said he. "I may box every afternoon this week and then cut down to sparring every other day the following week. The best thing for me will be not so much boxing as steady road work and the rounds at the bag and rope."

As he stripped for the rub-down after the work, Corbett did not appear to be in the top-heavy condition which has been attributed to him and is perhaps no more than nine pounds above the weighing-in mark. The strenuous exercise did not bother his wind.

#### HOTEL CO. ISSUES BONDS

Will Spend \$200,000 in Building Big Tourist Hotel at Long Beach

Special to The Herald.  
LONG BEACH, Dec. 21.—At a meeting of the shareholders of the Long Beach Hotel company held this morning a resolution was adopted declaring the intention of the company to declare a bond issue of \$200,000. The bonds will run for twenty years at 3 per cent interest. The proceeds from their sale will be devoted to the erection of the "Bixby," the tourist hotel to be built on the bluff at the foot of Magnolia avenue. The next meeting of the board of directors will be held on December 23 at the office of Attorney Spicer, 228 Bixby building.

Mrs. Frank L. Scott left Long Beach this evening for Colorado Springs. She received word this morning that her husband was shot while boarding a train for the west at Colorado Springs. He was on his way to spend the holidays with her.

## TRACTION ROAD TO BUILD DEPOT

### BIG IMPROVEMENT PLANNED FOR SAN BERNARDINO

Building Will Provide for Offices of the Company and Be Headquarters for the Suburban Cars. Officers Prove Murder

#### Special to The Herald.

SAN BERNARDINO, Dec. 21.—The San Bernardino Valley Traction company is considering the establishment of a depot on East Third street out of which all suburban cars will run. It is planned to run the cars into the buildings on a similar plan as is done in Los Angeles and some other cities. The company has a site under contemplation and it is expected an announcement regarding the question will be forthcoming in a few days.

The building will be so constructed as to provide for the general offices of the company, waiting rooms and other features. When the new Riverside line is in operation in addition to the lines already running into the city, it will require much more in the way of facilities than the present quarters occupied by the company will provide. President A. C. Denman has just returned from the east and will complete the right of way for the Redlands cut-off and the Riverside line, so that work can be commenced at once.

#### Have Proof of Murder

There seems to be no longer any doubt that Section Foreman George Graham of the Santa Fe, who was found dead near Hawatha siding, was murdered. Sheriff Ralph returned today from the desert, where he found where the man had been hanged and killed in the rear of a tool house near Hawatha, the body being carried some distance into the brush and laid across the track where it was mangled by an east-bound freight. It had been supposed heretofore that a west-bound limited had killed him. Every effort will now be made to run down the two Mexicans who disappeared the day after the killing.

#### Rainfall Breaks Record

The rainfall at this point to this time amounts to 3.40 inches, which is much in excess of the precipitation for many years to this date in the season. Much of the grain in this section is now up and growing nicely, and the rain of yesterday will help it along, so there will be no danger of its drying up. Last year at this time there was no grain up and much of it had not yet been sown.

### CHRISTMAS DINNER HANGS ON OWNERSHIP OF DUCKS

TWO HOUSEKEEPERS CLAIM FIVE FAT WADDLERS

District Attorney's Deputy Will Be Called On to Determine Rightful Possessor of Poultry That Deserted Their Happy Home

Five great white, fat ducks, their sides fairly bursting with tender flesh, suitable for some fine Christmas dinner, strolled peacefully around the barnyard of a woman's home at Baird station, Los Angeles county, while across the way the owner looks and longs for the property which should be in her own back yard.

Yesterday the real owner of the handsome birds appealed to the district attorney's office and Deputy Paul McCormick was detailed to settle the dispute between the warring neighbors so that one of the women will have a right to eat the fowls for Christmas dinner.

According to the story told by the woman who claims to be the real owner of the ducks, yesterday, her five birds deserted a happy home, where everything was nice and comfortable, and where they were being fattened nicely for the holidays and waddled down the road.

Without ever a turn to the right or left they marched along the dusty high road and they noticed some of their friends paddling about in a particularly comfortable looking mud puddle. There was just a little opening in the fence, but the birds marched in and presently a woman came out and shut the gate and then they were prisoners. The ducks didn't care, but their owner did, and when she finally located them two weeks after their desertion, she alleges she called on her neighbor and after passing the time of day suggested that the woman might give back the birds.

"I am not certain they belong to you," said the other woman in the case. "You see I have quite a number of ducks myself and three of your ducks look so much like mine that I am not certain but that they are my own birds."

As to the other two, I have been feeding them for two weeks and you know ducks eat a great deal when once they get started."

The owner offered to pay, but when the woman, who had been boarding and rooming the ducks, demanded a dollar a head board bill for two weeks, the owner demurred and came to Los Angeles and complained.

Today a letter will be sent to the other woman by the deputy district attorney and the ducks may yet grace some Christmas dinner table.

Appointment for Yamagata

By Associated Press.

TOKIO, Dec. 21, 8 p. m.—Field Marshal Marquis Yamagata has been appointed president of the privy council.

**CREMO**  
Reina Victoria Size—5c.

A new size in a famous brand, is made under all the advantages typified in the "A" (Triangle A) mark. Its indescribable improvement in mellowness and fragrance will be apparent at the first puff. A smoker who goes through a "A" (Triangle A) factory will never smoke an "A" (Triangle A) brands thereafter. This is one more reason for "A" (Triangle A) supremacy—clean and expert manufacture.

Sold by cigar dealers everywhere Manufactured by American Cigar Company

Sorting the Tobacco Leaf Qualities  
Hand Rolling Cigars  
Picking the Ripe Tobacco Leaf  
Enjoying the Results of Systematic Cigar Production

Fine food doesn't make a feast without a skillful chef—nor good tobacco a perfect cigar without an expert cigar-maker. Poor manufacture can ruin splendid tobacco by making it into unevenly rolled, badly burning, hard drawing, unclean cigars. One leaf laid wrongly in the filler will spoil a perfect smoke. "A" (Triangle A) methods do not expose their perfectly blended tobacco to the risks of poor manufacture. All the "A" (Triangle A) brands are made in the cleanest, best ventilated, finest equipped cigar factories in the world, to enter which the workman must not only be expert, but also neat and intelligent.

### NEGRO CHURCH IS AT WAR

Troubles of African M. E. Zion Congregation Will Be Aired in Police Court

Judge Chambers will listen to the troubles of the African M. E. Zion church, 662 East Fourth street, Saturday morning. The members have had a dispute over the sale of some of the church property and this has led to a division in the congregation. A fist fight broke out a few days ago when the pastor, Rev. S. W. Hawkins, attempted to smooth the affair over. Israel Murphy swore to a complaint yesterday charging Paul Brown, one of the deacons of the church, with battery. Almost the entire flock of men, women and children are preparing to be present at the trial either as witnesses or spectators.

#### Soldier Commits Suicide

SAN FRANCISCO, Dec. 21.—Patrick Collins, thirty-five years of age, a private in the Sixty-sixth artillery stationed at the Presidio, committed suicide yesterday by shooting himself.

#### A POSSIBILITY

That Became a Fact and Pleases Many People

A. R. Lewis, M. D., in a lengthy article in the columns of the American Journal of Health, says concerning hair: "Its deterioration is a constant source of torment to humanity, consequently bald people are readily deceived by fake hair restoratives. The wish that a hair preparation will 'fill the bill' is rather to the fancy than it is likely to do so. A rare case in point is that of Newbro's Herpicide, which actually does 'fill the bill.' It destroys the parasite that attacks the hair root, and prevents dandruff, falling hair and baldness."

Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

#### Ito's Duties in Korea

By Associated Press.  
TOKIO, Dec. 21.—The duties of Resident General of Korea Ito will not be exclusively diplomatic. He will be empowered to mete punishment not exceeding one year's confinement and a fine of \$100.

### MAY DISPOSE OF BOND ISSUE

Rival San Francisco Firm to Make Offer to Board of Supervisors

Special to The Herald.  
SANTA MONICA, Dec. 21.—The \$60,000 school bond issue recently bid in by N. W. Halsey & Co. of San Francisco and acceptance of which was refused because of alleged technical errors concerning the holding of the election at which they were voted, may be turned over to H. Rollins & Sons, also of San Francisco, a competing bidder, as that firm in a letter to the board of supervisors has offered to take the entire issue without question.

The premium bid by Halsey & Co. was \$1326, and this amount Rollins & Sons offer to make good.

#### Gift to Marshal

City Marshall Barretto was today presented with a handsomely mounted Smith & Wesson revolver as a gift from his deputies.

The Christmas smoker planned by the Elks for tomorrow night has been indefinitely postponed.

#### Helps for Civilization

Leather card cases for gentlemen and ladies, cigar cases, pocket flasks, playing card cases, jewelry cases, game sets, penicils sets. We are headquarters for all these things. Sanborn, Vail & Co., 857 South Broadway.

### RAISE ENGINE FROM HARBOR

Santa Fe Locomotive Pulled Upon Wharf at Redondo by Four Electric Cars

Special to The Herald.  
REDONDO BEACH, Dec. 21.—A successful attempt to raise the Santa Fe engine which crashed through wharf No. 1 on November 21 was made this morning by the Redondo Railway company. Four electric cars were used and at the first attempt, when the locomotive had been raised a few feet, the coupling of the cars broke and the engine was lowered again. At the second attempt the engine was landed safely on the wharf. The hooks used on the locomotive were moulded from car axles. The engine is in bad condition.

#### GRANT GETS BUILDING PERMIT

Special to The Herald.  
SAN DIEGO, Dec. 21.—U. S. Grant, Jr., today went before the board of public works and filed his application for a building permit for the construction of his big hotel, which is to be erected on the Horton house site. Grant did not take out the permit but furnished the data for it and stated that he wanted the first permit issued in 1906. The permit calls for the erection of a building to cost \$500,000.

#### Refuses to Break Will

Daughter of Former Wealthy Santa Barbara Resident Denied Part of Father's Estate

Special to The Herald.  
SANTA BARBARA, Dec. 21.—After spending half a day to get a jury and half a day in taking testimony, introduced in support of the effort of Mrs. Mary Mitchell Streeter to break the will of her late father, Henry Lewis, Judge Taggart this evening threw the case out of court on motion of the respondents for a non-suit.

It was expected that the trial would last several weeks. It is probable that an appeal will be taken, as the value of the estate is placed over \$100,000. Lewis was married three times and left the bulk of his estate to the issue of the last marriage. Mrs. Streeter, sole child of the second marriage, was cut off with a legacy of one dollar. The will is attacked on the ground of Lewis' undue influence and because of the undue influence of his third wife and the children of that marriage.

Don't fool with a cold; no one can tell what the end may be. Pneumonia, croup, chronic bronchitis and consumption invariably result from neglected colds. Nothing can be compared with Chamberlain's Cough Remedy as a quick cure for colds and influenza, and by its use any serious consequences from these diseases may be avoided.

## Yes, and There's Still Time for a New Suit

You need not deny yourself the pleasure of a new suit or overcoat for Christmas.

We have convinced thousands of men that Alfred Benjamin & Co.'s clothing is superior to any local tailoring.

Right now is your opportunity to put us to the test.

Step in and be convinced that our suits and our overcoats will fit you better and please you more than any tailoring you have ever purchased in Los Angeles.

Our prices are half what a tailor would ask.

So you needn't deny yourself a Christmas suit.
