### ADVISORY BOARD HONEST WORK IS STANDS BY CHIEF

GOOD ROADS COMMITTEE

STOP TO CONFLICT

Letter of Chairman Butler Is Em- Protection of the Weak from Injustice phatic Refusal to Approve Half

Project

Eleven members of the Los Angeles good roads advisory committee assembled in the chamber of commerce yesterday and, after a lengthy conference regarding the action of the board of supervisors in ignoring them when two appointments were made on the highway commission, those of J. W. Calvert and Martin Marsh, and asking their opinion only as to the appointment of George H. Bixby, decided to stand by the action of their chairman, Sidney A. Butler, in declining to consider Bixby's name unless the appointments of Calvert and Marsh were also referred to them.

The sentiment of the committee was expressed in a letter addressed to the supervisors by Mr. Butler, in which he says the committee should not be called upon to consider the qualifications of one member of the highway commission to the exclusion of other.

"What is the League of Justice and what does it stand for?"

This question is tersely answered in a neat eight-page folder which is just out to interested parties by the officers of the league. So often has the question been asked "What is your purpose?" that officers of the League of Justice decided to prepare a short "statement to the public," setting forth briefly and pointedly the objects and purposes of the new organization which was started in Los Angeles on May 29, when Mayor Taylor of San Francisco visited Los Angeles to assist in launching the project.

In the pamphlet just issued the purposes of the League of Justice are given as:

"The League of Justice and mare implies, an organization of citizens intended to promote justice and what does it stand for?"

This question is tersely answered in a neat eight-page folder which is just of the league. So often has the question been asked "What is your purpose?" that officers of the League of Justice decided to prepare a short "statement to the public," setting forth briefly and pointedly the objects and purposes of the new organization which was started in Los Angeles to assist in launching the project.

In the League of Justice and what does it stand for

Mr. Butler's letter is as follows: "To chairman and members of the board of supervisors—Gentlemen: At a meeting of the advisory committee held in the directors' room of the chamber of commerce on the 29th day of July, 1909, the matter of the appointment by you of George H. Bixby as a member of the highway commission was by me presented to that body. After a careful and thorough discussion of the matter of the appointment, the letter under date of July 24, which, under instructions, I submitted to your honorable body touching these appointments, was read and unanimously indorsed and approved as the action of the advisory committee, and by unanimous vote of the committee I am directed to state to you that this committee declines to either approve or alternative of the public servants; to elevate the standard of citizenship and civic righteousness; to protect the government, national, state and municipal from the aggressive and pernicious activities of segifish and greedy politicians, and from the inactivity and indifference of the better class of citizens to educate the coming generation and the immigrant mittee declines to either approve or disapprove the appointment of Mr. Bixby for the reason that it cannot consistently see how it should be called

the consolidation committee; E. C. Bichousky, Pomona; Mayor Thomas Earley, Pasadena; J. M. Schneider, president of the Merchants and Manufacturers' association; Harry Barn-dollar, Long Beach; William Mulholchief engineer of the aqueduct; Ethel Mitchell, because of whose ruin James Slauson, vice president chamber of commerce; A. A. Hubbard, member of the board of public works, and Homer Hamlin, city engineer.
District Attorney Fredericks w also present in response to an invitathe letter of Chairman Nellis of the

supervisors addressed to him several days ago, in which the writer status of the advisory committee. This are planning and work together for a philip Rastatter, an employe of the supervisors when it meets next the supervisors when it is made to build the supervisors when the supervisors when it is made to build the supervisors when the supervisors when the supervisor
