COAL ROAD ONLY ACTIVE FEA-TURE ON WALL STREET

RUMOR STARTED AGAIN ABOUT "CONCEALED ASSETS"

One Feature Is Strong Recovery in Rates of Foreign Exchange in Spite of London Decline

[Associated Press]
NEW YORK, Feb. 16.—Subtract the dealings n Reading from today's stock market and Reading from today's stock market and ya meager aggregate would remain. Even itted States tised the unvarying leader of a market for many months, was completely reshadowed. No news developed to explain a Reading movement beyond the revival of "Reading mystery," as it is known to the offessional element in the operations in cits. This "mystery" has to do with the oposed concealed assets of the Reading com-

stocks. This "mystery" has to do with the supposed concealed assets of the Reading company.

The point made in the present movement is that the company will be obliged to make a report under the terms of the corporation income tax law, which will disclose its "concealed assets."

The second preferred stock was marked up today to conform to the supposed exchange into common and first preferred stock. This privilege provided when the first preferred privilege made that stock more valuable than either the second preferred or common stock, and when the chances of the common stock for sharing in dividend payments were problematical, so that the exchange of half of the second preferred into common stock night present a financial advantage to the company. The purpose of such an exchange now, with the common stock, is not clear.

The tone was weak in the morning and the recovery, with the extension of the rise in Reading, was dragging and dull. Special stocks of minor importance made sharp advances, but the market was not strong until the last half hour. A feature was a strong recovery in rates of foreign exchange in spite of a decline in the private discount rate in London. Preparation for the coming payments of New York city bonds held in London is a factor in exchange.

There figured in the day's discussion the heavy increase in the European visible supply of copper shown by the fortnightly publication of statistics today.

The copper industrials moved sluggishly, but the report throws light on the failure of the favorable American copper statistics published last welt to help the copper stocks. The price of the metal declined here and in London today.

Bonds were irregular. Total sales at par value amounted to \$2.567.000. United States 2s

today.

Bonds were irregular. Total sales at par value amounted to \$2,567,000. United States 2s coupon and the 4s coupon advanced 1/4 per cent on call.

CHICAGO GRAIN

Special service to The Herald by J. C. Wil-ton, member Chicago board of trade, New York stock exchange and San Francisco bond ind stock exchange, 212 West Fifth street, Los Angeles.

CHICAGO, Feb. 16.—Crop damage reports were numerous, buying demand brisk and local speculators were in an unpleasant position from having sold wheat short near the close vesterday. There has been much new investment buying today, largely from local sources, but the crop damage news has been going at a liscount in the last half of the session of the news of snow, sleet and rain which has come from every part of the winter wheat belt today. St. Louis reports the best snow storm of
