From Mines and Oil Fields

CHAMBER OF MINES SETS DAY FOR BIG BANQUET

Prominent Speakers Will Participate in Annual Gathering of the Mining and Oil Men

The annual banquet of the chamber of mines and oils will be held at the Hotel Alexandria at 8 o'clock Friday evening, July 29. The work of the organization for the past year will be reviewed, and prominent speakers will take for their subjects the two great industries of the southwest—mining and oil. A number of tickets have already been reserved for this banquet, and on the seating canadity will be limited. and as the seating capacity will be limited, anyone desiring tickets should communicate at once with the secretary in order that reservations may be made. The members of the organiza-tion will be furnished notice this week, and from present indications it is anticipated that the entire seating capacity of the banquet hall of the Alexandria will be reserved within the next ten days or two weeks. The committee having the banquet in charge is composed of Calvert Wilson, president

of the chamber; S. E. Vermilyea and John S. Mitchell, vice presidents.

At the last meeting the committee having the matter in charge reported that between 5000 and 6000 invitations are being sent out by the chamber, a great portion of which have already been mailed, inviting mining and oi men to spend their vacations in Los These invitations are being sent throughout the southwest and old

Mexico.

The following new members were elected at the last meeting of the board

E. K. Wood Lumber company, Amer ican Steel and Wire company, John Doherty, Leon Willson, German Amercan Savings bank, Great Western Smelting and Refining company, R. W Shoemaker, Albegg & Reinhold, W. E Hughes, American Fuse Lighting com-Walter W. Brown, H. W. Johns pany, Walter W. Brown, H. W. Johns-Manville company, Radial Power Ham-

AMERICAN OIL FIELDS

Decides to Await Adequate Pipe Line Facilities Before **Bringing in Wells**

J. E. O'Donnell, sperintendent of the American Oil Fields company in the Midway and Maricopa fields, is authority for the statement that the company has stopped further drilling company has stopped further drilling in its two wells on sections 31 and 32, township 32, range 24.

High gravity oil has already been encountered in the well on section 31 at depth of 2000 feet, and there is every

depth of 2000 feet, and there is every indication that further drilling will bring immense production, and the Producers' agency is unable at the present time to handle more oil.

This ground was secured by the American Oil Fields company some

months ago from the Monte Cristo company at a price, it was stated at the time, of \$1,250,000, which included section 32 and a quarter section in-1 Later J. C. Yancey bought twenty acres in section 32, paying the record price for the Midway fields for unim proved grounds of \$3500 an acre.

Although drilling operations are no particularly difficult in this part of th field, heavy drilling equipment habeen installed, and the hole is now about 600 feet deep with 151/2-inch spe cial screw casing.

PRIOR RIGHT THE CAUSE FOR SUIT AGAINST OLD MIDWAY TRACT OWNER

Suit in a naction to quiet title to 604 acres in section 30, 31-22, Midway district, was filed in Bakersfield Friday by J. H. Hunt of Hunt brothers of San Francisco. This suit attacks the title of Isaac Strassburger and associates, who recently entered into an agreement with the Associated Oil company by which the latter company was to pay \$3,000,000 for 520 acres of the section, including the Pioneer Midway Oil company's well and other

The suit attacks the title to all of the section with the exception of the which there are no improvements. Included in the suit is the question of title to the Mays gusher, the Juno Oil company's property and the Manhattan Midway.

These property

These properties are outside of the \$3,000,000 purchase of the Associated Oil company, so that the litigation involves a large amount of money. It is asserted by persons interested in the suit that the original locators were ejected by force by the Strass-burger people about two years ago and that they claim title by reason of certificate of purchase from the state California as well as by mineral

It is said further that the Associated has not paid the Strassburger interests the purchase price, but that it has paid a deposit until a good title

CONTINUES SHIPMENTS TO THE OLD DOMINION

continping its shipments of ninety tons the Old Dominion smelter daily. ore is being stoped on the 800-foot level of the McGaw shaft. The sinking level of the McGaw shaft. The sinking of the McGaw shaft to the 800-foot level is being carried rapidly on. The results of the diamond drill hole that is being sunk to open up the Great Eastern vein at depth have been encouraging. A cross fault containing carbonate and sulphide of copper was encountered in the hole at a depth of 470 feet below the 600-foot level. At the Gardner workings the west winze the Gardner workings the west winze being sunk from the 400-foot level, continues in ore assaying 8 per cent copper, indicating a greater extent of the ore body as the winze increases

Ficketts Auto Livery, 246 S. Spring

GOVERNMENT MAY BUY LAKEVIEW SURPLUS FROM UNION COMPANY

A possible solution of the question What can we do with the Lakeview comes in the form of a well defined report that the United States government wishes to enter into a contract with the Union Oil company for 50,000,-000 barrels of oil per annum for a term of years, whenever the Union can show a surface storage of 10,000,000 barrels, which probably will be within a short time. Most of the oil will be used in

The report of the proposed deal is as yet only partly confirmed, but many persons who are thoroughly familiar with the inner workings of the oil industry believe it to be true.

BELIEVE OIL EXISTS IN BARSTOW DISTRICT

Causes Tilt in Board of Supervisors

Geologist, After Investigation, As serts Field Offers Sufficient

BARSTOW, Cal., June 27 .- Ellis Malery, eminent geologist and authority on the oil deposits of California, addressed the Chamber of Mines on the resources of the inter-mountain region, and his discourse was warmly appreciated by a full house of the chamber members. Particular interest was taken in his

Inducement to Capital

(Special to The Herald)

eference to the Barstow oil field, which he designated as one of the most omising regions of this state.
"In speaking of the Barstow region," said Mr. Mallery, "my statements are based upon the knowledge acquired

from several trips of investigation made during the past year and a half.

"In the immediate vicinity of Barstow igneous rocks prevail, which of course preclude the possibility of oil within a restricted area, but in the adjacent country and in the outlying discourse product of the country and in the outlying discourse products of the country and in the outlying discourse the country and the country and the country are the country and the country and the country are the country are the country and the country are the country a acent county and in the outlying dis-ricts of which Barstow is the geograhical center the characteristic neasures of California are well de-

Some criticism of this locality has been made because of the existence of these volcanic rocks, but it is only necessary to appreciate the signifi-cance of the igneous and sedimentary rocks in their separate occurrence to understand the relationship each bears

"Broadly speaking, the rocks making up the productive oil series of this state are no different in the Barstow field from those of other fields at present developed. resent developed.

"The necessary shales, prolific with the organic life that make oil accumulations possible, here exist, and interbedded with the shales are sand strata, both coherent and incoherent, which, coupled with overlying and underlying beds of like character, form the required reservoir for the storage of oil.

"The reservoir sands range from fine

"The reservoir sands range from fine grained to coarse conglomeritic layers, and to discover these stored accumulations is only a matter of knowledge

and capital. "In short, the field under discussion possesses great merit, and I have no hesitancy in saying that men of means can devote their energies and resources toward its development with the assurance they will reap most satisfactorily for their efforts."

HYDRO-ELECTRIC HELPS MONO LAKE COUNTRY

GOLDFIELD, June 27.—James Waren, who is associated with Joe Ford n some property in the Mono lake intry has returned from an eighteen trip there by horse and buggy. Warren says that the Aurora, Bodie and Mono lake sections are showing dro-Electric power line from Mono lake, work on which is being pushed

At Pamlico, one of the oldest camps in Esmeralda county, located between Sodaville and Hawthorne, about fifteen men are engaged in prospecting and development work. Leasers are taking out considerable good ore in the Pamlico property and are treat-ing it at the Pamlico mill.

The mill also treats other ore that is brought in by any of the prospectors, which is quite a convenience to the men throughout the district. Mr. Warren says that section looks very good to him and he is confident it will make considerable of a stir before

Proposal to Equip Hall of Records

MEMBERS WANT SUPPLY LIST

Action on the Offers Submitted Is Finally Taken Under Advisement

The board of supervisors yesterday The board of supervisors yesterday received, bids for metal, marble and wooden furniture for the new hall of records. A letter from the Art Metal Construction company stated that not enough time had been given for the preparation of the bids. Supervisor Eldridge became aroused, and pointing out that thirty-five days had been given moved that the communication given moved that the communication be consigned to the waste basket. The following bids were received: California Furniture company, \$247,990; Van Dorn Iron company, \$150,000; A. F.

Anderson company, \$170,000; M. G. West company, \$249,700. It was suggested by Supervisor Pridham that before any action is taken on the bids each supervisor be furnished with a list of the furniture required for

ach county office. Supervisor Eldridge protested, and mmediately there was a row. Pridham asked how the bids were made unless were such lists. Eldridge insisted that there was none.
"I beg your pardon, but we had each fficial make such a report," said Prid-

Then Eldridge made a motion that each supervisor be given such a list.
"That's the same motion that I made," said Pridham. "I'll second it." The motion carried. A. M. McPherson, clerk of the board, explained that not all of the officers had furnished such lists. Eldridge uttered an exclamation of triumph. This incensed Pridham and the war clouds became

olacker. It was then moved by some peace angel of the board that the bids be taken under advisement. With that the trouble was ended.

DRAMATIC CLUB HOLDS **BOX PARTY AND BANQUET**

Celebrates Success Attending Two Years' Organization

Fourteen members of the dramatic club of Westgate lodge, No. 519, of the Fraternal Brotherhood entertained at the Orpheum last night with a box party, followed by a banquet, in cele-bration of the success they have met with during their two years' organiza-

tion.
Those in attendance composed the cast of the several comedy-dramas and playlets that have been presented by the club from time to time, both before Westgate lodge and other lodges about the city. The last success was a great deal of activity on account of the approaching advent of the Hyseveral weeks ago.
