HERALD BULLETINS GIVE FIRST NEWS

Broadway Jammed by People Who Want to Get Earliest Accounts of Elections

ALL RETURNS WIN CHEERS

Partisanship Is About Equally Divided, and Woolwine Fight Leads in Interest

Broadway, between First and Second streets, was crowded for hours last night with people getting the election returns through the medium of The Herald bulletins.

In the great crowds that gathered to watch the bulletins partisanship seemed to be about equally divided. No matter what the scattering returns indicated they were greeted by cheers.

When the early returns showed Bell in the lead a number of men in the crowd secured bells and gongs of every description and for half an hour bedlam was let loose by these celebrators.

As state after state in the east showed Democratic victories and Democratic gains the Jeffersonian portion of the crowd gave itself over to celebrating.

Through special wires in The Herald office and special arrangements to flash the Associated Press bulletins in front of The Herald as soon as they were received, this party today first in getting the returns. Not only was it the first to get the results in New York, New Jersey and Ohio, but it kept up with the count for county officers as it progressed in different parts of Los Angeles county.

The big crowd in front of The Herald continued to watch the returns until after midnight. Greatest interest was aroused through the uncertainty in the state and some of the local contests. Despite the excitement aroused by some of the returns the best of order was maintained in the crowd, and the only work for the policemen in front of The Herald office was to keep a way clear for passing.

FERTILIZING COLLECTOR IS ACCUSED EMBEZZLEMENT

Driver Charged with Overweighing Butchers' Waste

Walter Hester, a driver and collector for the United Phosphate company, was arrested last night by Detectives McNamara and Dixon and booked at the central police station on a charge of petty embezzlement.

It appears that Hester collected bones, tallow and other material of a similar nature from the various meat markets in this city. The detectives say he made a practice of allowing credit for more than he purchased and dividing the difference with the persons from whom he made purchases.

According to the officers Hester bought the fertilizing material by the pound, paying a cent and a quarter for bones and more for the other stuff. He would weigh the stuff, they allege, he would add 10 per cent to the weight and then divide the difference with the seller.

All-day prayer services were held in every ward in this city under the auspices of the W. C. T. U. This organization had established headquarters in each ward and women went to places near the polls and held outdoor prayer services.

MISSOURI WOMEN PRAY AROUND POLLING PLACES

W. C. T. U. Works Hard for State-Wide Prohibition Votes

KANSAS CITY, Nov. 8.—Interest in the constitutional amendment providing for statewide prohibition overshadowed every other consideration in the election today.

After a thorough investigation of the fruit growers in Florida, following the hurricane which recently swept that state, the California Fruit Growers' exchange estimates the loss to the orange crops to be 11 per cent. In a partial report a few days ago the representative of the association made the damage 10 per cent, which was raised, following the more careful examination.

11 PER CENT DAMAGE TO FLORIDA ORANGE CROP

The shipment practically will be over by the end of the year, according to the present calculations of the shippers.

Flashlight of Crowd Watching Election Bulletins in Front of Los Angeles Herald Office Last Night

BABY CAMEL BORN ON TRAIN BOUND FOR HERE

Luna Park Management Buys One Animal in Berlin and Gets Two

At Phoenix, Ariz., is "Luna," a baby camel just one day old, awaiting to be brought to Los Angeles.

"Luna's" mother, a handsome African animal, which was born on the sands of the Sahara, was purchased by the Luna park management, Los Angeles, from the great Hagenbeck zoological gardens in Berlin. This transaction was completed a month ago and the handsome specimen was at once shipped to America.

The baby's mother forgot to mention the fact that she was expecting a daughter and the fact was not chronicled by her shippers, either, so that the park management here was greatly surprised yesterday upon receiving a telegram from the Wells-Fargo express people that a baby camel had been born in the car consigned to this city and that, in the opinion of a veterinary surgeon, neither mother nor child would be benefited by any further transportation for some days. The telegram was sent from Phoenix, Ariz., where the car had been sidetracked.

Accordingly mother and child were given in care of the Douds Transfer company of Phoenix and there they will remain a sufficient number of days to enable them to proceed with the rest of the trip.

PATRON AT RESTAURANT CUTS CHINESE IN FIGHT

Charles Martinez Uses Knife to Emphasize Objection to Bill

Suey Yuen, a Chinese restaurant keeper at Alameda and Marchessault streets, said it was porterhouse.

Martinez took dinner yesterday in Charles' place. He said it was something else, unless his taste deceived him. Then the trouble began.

Half an hour later the Oriental reached the receiving hospital with a long laceration on the forehead which he said Martinez had inflicted. The latter was arrested, charged with assault.

EXPULSION STUDENTS IN WAR AGAINST FRATERNITIES

WATERTOWN, N. Y., Nov. 8.—The war which the local board of education is waging against high school fraternities has reached a climax with the expulsion of sixty-four out of a total enrollment of 884 students in the high school.

When the Chinese protested Martinez drew a knife, according to the complaint. He struck the waiter, and the Chinatown squad stopped hostilities. The Chinese was stretched on the floor, bleeding profusely.

FLUME GATE PATENTEE WINS INFRINGEMENT SUIT

Judge Wellborn of the United States district court has entered five decrees, giving judgment for the defendants in five suits brought by Ephraim Campbell of Redlands involving a patent on a flume gate in use on irrigation projects.

Calvin M. Mangle, Concrete Pipe and Construction company, Hinde Hardware company, John F. Dostal and the Redlands Manufacturing company were the defendants charged with infringement on the patent.

FOUR MORE CONTRIBUTE TO SAVE WIDOW'S HOME

Subscriptions Amounting to \$10 Added to Vidal Fund

The Herald yesterday received four subscriptions to the fund being raised for Mrs. Dolores Vidal, the widow whose home will be taken from her unless she pays the amount of a lien assessed against it for the improvement of Mission road. Subscriptions received to date follow:

WIGGINS GOES TO ARRANGE LOS ANGELES EXHIBITS

Chamber of Commerce Secretary Prepares for Eastern Displays

Frank Wiggins, secretary of Los Angeles chamber of commerce, left for the east yesterday to complete arrangements made by the organization to install an exhibit this winter in New York and Chicago and re-establish the display now being maintained in Atlantic City.

The contrast between life in sunny Southern California and life in the wintry east will be sharply drawn, according to Mr. Wiggins, and cannot fail to bring many persons to this coast as a result. Mr. Wiggins will return to Los Angeles December 1st and during his absence H. B. Grier, assistant secretary, will be in charge of the chamber of commerce headquarters.

GIVE \$500,000 ART GIFT TO METROPOLITAN MUSEUM

Executors of Dun Estate Release Works to Institution

NEW YORK, Nov. 8.—Twenty-five paintings, valued at nearly \$500,000, will shortly be turned over to the Metropolitan Museum of Art by the executors of the estate of the late Col. E. G. Dun. The death of his widow on Sunday at Hot Springs, Va., releases these works to the institution.

Colonel Dun died in 1910. Most of the paintings are excellent specimens of the work of the Barbizons, including Millet, Corot and Daubigny. They were purchased by Colonel Dun about twenty years ago, and were valued at \$250,000. They have since appreciated in value. The gift will greatly strengthen the museum along certain lines.

EXPECT WARM FIGHT ON RECALL ARIZONA JUDGES

California Claims No Territory East of Mid-Channel in the Colorado

PHOENIX, Ariz., Nov. 8.—The boundaries controversy, which came up early in the session of the constitutional convention, was disposed of today by the adoption of the original proposition, the committee on federal relations reporting that California waived all claim to territory east of mid-channel in the Colorado river.

Today was fixed for debate on the recall measure, but after much argument and parliamentary wrangle it was postponed till Thursday morning, when it is expected a warm controversy will take place over the provision to recall the judiciary, though no minority report excepting judges from operation of the recall was submitted. The most important minority amendment offered separates the recall election and the election to fill the vacancy so created.

Gen. E. W. Thomas, commander of the department of Colorado, was extended the privilege of the floor this morning, being the first upon whom that honor has been conferred by unanimous vote as required by the rules of the convention.

Another effort made to hold night sessions during last week was defeated, the convention adjourning at noon till tomorrow morning.

TAFT CASTS BALLOT AND CONGRATULATES HARDING

President Goes to Cincinnati and Takes Long Time to Vote

CINCINNATI, Nov. 8.—President Taft arrives here today to cast his vote in the O'Brienville district of Cincinnati. He went from the train to the home of his brother, Charles P. Taft, going to the polls in the afternoon.

President Taft voted at 11:37 a. m. The polling place was an unoccupied store room at 2034 Madison road. The president spent four minutes in the booth, marking the ballot. He seemed to be examining every name on it.

President Taft sent the following telegram to Warren G. Harding, the Republican candidate for governor: "I congratulate you on your wonderful canvass. No matter what the result today you have commended yourself to your fellow citizens and have secured the support of the Republican ranks for future contests."

YOUTH STRUCK IN MOUTH BY TRIP HAMMER HANDLE

Victim of Blow Almost Bites Off End of Tongue

Struck under the chin by the handle of a small trip hammer at the Washington iron works yesterday morning, John Moore, 19 years old, an ironworker's apprentice, living at 179 Albion street, so severely injured his tongue that he was taken to the receiving hospital for treatment.

Moore was working over the hammer shortly after the works opened when the handle flew up, striking the boy under the chin. His jaws snapped together, the teeth closing over the tongue. The tip of that organ was nearly bitten off.

MANY PROFESSIONAL MEN TALK WOMAN'S SUFFRAGE

ChARGES WOMAN MOVED RENTED HOUSE FURNITURE

Charged with "switching" furniture from one house to another without permission of the owner, Mrs. Emma Reid of 1037 West Seventh street will appear before Police Judge Chambers this morning to answer to a charge of petty larceny. She is held in the city jail in default of \$500 bail.

Several weeks ago Mrs. Reid rented a house from Mrs. Minnie Glickner in South Pasadena. According to the complaint, during the absence of Mrs. Glickner from the city Mrs. Reid removed the furniture from the rented house to one at 1037 West Seventh street. Mrs. Glickner says she did not authorize the transfer.

S. P. TO OPERATE PACIFIC ELECTRIC

Henry E. Huntington Confirms a Report of Contemplated Management Change

TRANSFER BEING NEGOTIATED

Railroad May Trade Los Angeles Line Holdings to Get Ownership of P. E.

The Southern Pacific will, within a short time, own outright and operate all the interurban lines formerly controlled by the Pacific Electric company and the Huntington family.

The announcement comes as the result of a conference held yesterday afternoon between the heads of the two corporations concerned. All yesterday afternoon Mr. Huntington and W. E. Dunn, head of the Pacific Electric legal department, and William F. Horton, president of the legal department of the Southern Pacific in California; Epes Randolph, head of the same company's interests in Arizona, and Paul Shoup, assistant general manager of the Southern Pacific's electric lines in California, were closeted together. Following the meeting Mr. Huntington advised that negotiations had been entered into which contemplated his retirement from the Pacific Electric and the operation of that line by the Southern Pacific. He stated that the negotiations had not gone far enough to warrant stating this as an absolute fact, but that if satisfactory arrangements could be made the change would be made. He said:

"The result of yesterday's conference will probably result in my retiring from the management of the Pacific Electric, in fact retiring from that line entirely, and devoting my time to the Los Angeles railway exclusively. The change has not been definitely made yet, the negotiations simply being a way and nothing has been decided. We will be in conference again tomorrow, and I will have something more definite to give out following that conference."

MAY BE TRADE OF INTERESTS

Under the present arrangements the Huntington interests own one-half the stock of the Pacific Electric and the Southern Pacific also owns 45 per cent of the Los Angeles street railway. It is believed that the Huntington interests are trading their shares in the Pacific Electric company for the Southern Pacific's interest in the Los Angeles railway, which will give them absolute control of the Los Angeles railway, although completely ousting them from the Pacific Electric.

"If the Southern Pacific takes over the Pacific Electric," continued Mr. Huntington, in speaking of the result of the conference, "that company will be a local policy in operating it. Of this I am sure. The Southern Pacific will operate the property along the lines which the present management has done, carrying out the improvements which we have begun and those which we have contemplated."

No reason for the change in management of the company would be given by officials of the company. A few weeks ago the Los Angeles Railway corporation, a concern organized to take over the assets of the Los Angeles Railway corporation, absorbed the city lines of the Pacific Electric company. At that time it was rumored that Mr. Huntington was about to relinquish control of the Pacific Electric in favor of the Southern Pacific. This fact was denied at the time by officers of the company, who stated that the move was made solely to make universal transfers possible a few days later the absorption of the Los Angeles and Redondo Railway company by the Pacific Electric was announced. This also was denied, but following yesterday's conference, the truth of the rumors became evident.

REPORTS DENIED AT FIRST

The report that the Pacific Electric was to be absorbed by the Southern Pacific was denied at first also by officials of the electric company. This fact, it is said, lends strength to a report in financial circles that the Huntington interests are being forced to retire from the road by the Southern Pacific, which corporation is desirous to centralize under one head its electric holdings.

It is believed that the retirement of Mr. Huntington does not mean the retirement of officials of the company other than those closely identified with the Huntington interests. In all probability the Pacific Electric, the former Los Angeles and Redondo and the Los Angeles-Pasadena lines will be consolidated under one head and J. McMillan, present general manager of the Pacific Electric, put in charge of the consolidated lines as general manager, Thomas McCaffery, general superintendent, moving up in the same manner, and D. A. Munger, general passenger agent for the Pacific Electric, becoming general traffic manager of the entire system.

It is said that to make room for this last change D. Pontius, at present traffic manager of the Los Angeles-Pasadena line will be consolidated under one head and J. McMillan, present general manager of the Pacific Electric, put in charge of the consolidated lines as general manager, Thomas McCaffery, general superintendent, moving up in the same manner, and D. A. Munger, general passenger agent for the Pacific Electric, becoming general traffic manager of the entire system.

No definite date for the change has been set, according to officials, who state that none will be until after the deal is completely settled. It is believed, however, that the change will come next January 1.

Bullock's Velvet Boots Like Drawing \$4. A last that is very popular, and velvet is the leading leather for dress wear right now—durable and comfortable. —Note the short vamp style. —Either flexible extension or hand-turned soles. —Very reasonable, too, for they are only \$4 a pair. —Shoe Department, Main Floor.

FIND TRANSIENT GUEST WITH BULLET IN HEAD Beside Revolver and Empty Wine Bottles, Suicide Leaves Letter to Brother

Fred Bachelor, a transient, was found dead in his room in the Ramona hotel, 205 1/2 South Spring street, early yesterday morning with a bullet in his head and a revolver, with one chamber empty, lying beside the body on the bed. Coroner Hartwell signed a certificate of suicide.

In the suicide's pocket the authorities found a letter, addressed to Emil Bachelor, supposed to be the dead man's brother. The letter was addressed to postoffice box 55, Heaton, N. D. As the envelope was sealed, the coroner declined to make the contents of the letter public.

Bachelor had been staying at the Ramona several days, but seldom left his room. He was last seen alive at 5 o'clock Monday evening, when he went to a restaurant to get supper. The body was discovered shortly after 6 o'clock yesterday morning when a Japanese went to the room to awaken Bachelor.

On the dresser in the room two empty bottles of port wine were found. The authorities are of the opinion the man had been drinking heavily.

None of the attaches of the Ramona knew anything about Bachelor's business in Los Angeles.

ENGINEERS PRAISE CANAL PANAMA, Nov. 8.—The engineers of the American Institute of Mining sailed today for New York. While here they made a thorough inspection of the canal work and appeared to have nothing but praise for what they saw.

GIRL, 12, BEGS POLICE TO HELP FIND FATHER Child in Orphanage Says She Thinks Parent Will Be Glad to See Her

In an effort to find her father, from whom she was taken in infancy and placed in an orphanage in New York, Hortense Hughes 12 years old now living in another orphanage in Montclair, Mo. has written the chief of police of this city.

Chief Galloway yesterday received a letter from the girl penned in a childish hand begging the Los Angeles authorities to help find her father. She says she has reason to believe her parent is in this city and would be glad to hear from his daughter.

"Please find out if he is ever married and if he had a daughter named Hortense" the child writes. "If you will give me all the information you can get I will be so thankful."

The meaning in the child's letter in some parts is not entirely clear. In the first paragraph she refers to herself as "Hortense Hazelton" but she signs the letter with "Hortense Hughes." The police believe she was adopted into some family before being placed in the New York orphanage and her name changed. She says her father's name is H. W. Hazelton.

WHITE HOUSE COW HAS SON WASHINGTON, Nov. 8.—Pauline Wayne 110, the White House cow, gave birth to a 100-pound son today. They named him Big Bill, because of his unusual size and energy. Big Bill will go tomorrow to live on a farm in Maryland. He was presented to W. W. Price, a newspaper man attached to the White House, who is known to many public men as "Big Bill."
