Legislative.

COLUMBIA, February 12.—In the Senate the following were read a third time, passed and sent to the House:

A bill to declare valid the Charleston election.

A bill to provide for the revision of the statute laws.

A bill to regulate the formation of corporations.

A bill to amend the Homestead act.

A joint resolution directing the county commissioners of Oconee to sell the State interest in the Keowee and Tuckaseege Turnpike road.

The following were read a second time, and ordered to be engrossed:

A bill to authorize a loan for the relief of the treasury.

A bill to define the manner of confessing judgments.

A bill to incorporate the Union Star Fire Engine Company of Charleston.

A bill to incorporate certain Fire Engine Companies of Charleston.

A bill to amend an act to lease the State road leading from Greenville county, across Saluda Mountain, to Henderson county, North Carolina.

A bill to amend an act to define the jurisdiction and regulate the practice of probate courts.

A bill to authorize the consolidation of the Charlotte and South Carolina Railroad Company, and Columbia and Augusta Railroad Company.

A bill to amend an act to regulate attachments.

Corbin introduced a bill to punish bribery and corruption, which was read and referred.

The bill to incorporate the Ashley Fire Engine Company passed, and was ordered to be enrolled.

The following acts were ratified:

An act to enforce the provisions of the Civil Rights bill.

An act to authorize the building of a bridge to connect the islands of John's and Wadmalaw.

An act to incorporate the Wilson Bridge Company.

An act to incorporate certain fire engine companies.

An act to incorporate the Mission Presbyterian Church of Charleston.

An act to incorporate the Citizens' Savings Bank of South Carolina.

A joint resolution relieving E. W. Oliver, late sheriff of Fairfield county, of the penalty of five per cent. per month upon executions not returned by him.

In the House, the bill from the Senate to validate the Charleston election was read the first time, and referred to the Joint Committees of Elections and Judiciary.

The Savannah and Charleston Railroad bill was reported on favorably by the Railroad Committee.

The bill to incorporate certain societies in Charleston passed, and was sent to the Senate.

Wells introduced a bill to authorize Wilson & Co. to build a dock and collect wharfage at Beaufort.

The Mount Pleasant and Sullivan's Island Ferry bill was discussed until the House adjourned.

WASHINGTON, February 16.—Wilkes Booth's body was quietly delivered to his friends last evening.

The amendment to the tax bill, adopted last night, permits whiskey to remain in bond until April 20th, 1870, but subjects it to one cent gallon tax per month after April 20th, 1869. On and after to-day, smoking and fine-cut chewing tobacco, offered for sale, must be packed and stamped according to law.

The Senate passed a bill making it a misdemeanor to loan money on United States notes as collateral.

The House is considering the removal of disabilities. Beck is arguing against McKee's motion to strike out all Kentucky names. The Baltimore and Ohio Railroad is represented here in strong force, opposing the bill making 400 feet the minimum span for bridges over navigable streams.

The House, after a long debate on the relief bill, come to a vote on the motion to exclude John W. Wright, Sheriff of Richmond, which was lost—46 to 76. The motion excluding Kentuckians failed—55 to 109. The bill finally passed—130 to 48. The banking currency bill was resumed, when the previous question was seconded with the understanding that the vote will be taken to-morrow.—The bill authorizes, among other things, the comptroller to issue circulating notes, under the regulation provided in the bill to the amount not exceeding $10,000,000, to each of the following States: Kentucky, Nevada, Virginia, North Carolina, South Carolina, Tennessee, Georgia, Alabama, Florida, Mississippi, Louisiana, Texas, Arkansas. The increased circulation to be allowed to these States only as it is withdrawn from others which have an excess. The Senate bill, allowing Pierce, formerly Consul at Matamoras, $17,000 for assistance rendered refugees during the war, passed. Adjourned.

Gen. E. B. C. Cash and several of his employees, had a narrow escape from drowning, in Chesterfield, a few days ago. An enclosure in which was some live stock, became surrounded by the high waters, when the parties above named attempted the rescue of the animals; but the boat upset, and all were thrown into the water. Eight fine blooded colts were drowned. It is feared that the freshet has [illegible]

RAILROAD TO ASHEVILLE, NORTH CAROLINA.—The Union (S. C.) *Times*, in alluding to the bill before the Legislature to build a railroad from Spartanburg, in this State, to Asheville, North Carolina, says:

"The importance of this road can scarcely be exaggerated. South Carolina has long wanted, long needed, a direct connection with the granaries of the West. This can now be had, by constructing this proposed road. Before the road can possibly be finished, there will be a railroad connection between Louisville and Cincinnati, and Asheville, N. C. Upon the completion, therefore, of this proposed road, Spartanburg, Columbia, and Charleston will be linked with the Ohio River by an almost air-line. The advantage of this route over all others are many. The Butt Mountain Gap seems to have been intended for a railroad crossing. No tunneling is required. The cost of construction will be no more than for a road of the same length in any part of South Carolina. Indeed, the road can be built for less money than is required to complete other roads now in process of construction across the Blue Ridge. When this road is built, Charleston will be a large city. It is the only route by which Charleston is the nearest outlet to the sea. Neither Wilmington nor Savannah can compete with her, for the distance is too much in her favor. A glance at the map will show this."

WITHDRAWAL OF THE INDICTMENTS AGAINST PRESIDENT DAVIS AND OTHERS.—RICHMOND, VA., February 11.—In the United States District Court today, the District Attorney, under instructions from the Attorney General, in accordance with President Johnson's Amnesty Proclamation, entered a *nolle prosequi* in both indictments against Jefferson Davis, and in those against Gen. Lee, Wade Hampton, Breckinridge, Longstreet, Wise, Pryor, Seddon, Mahone, Early, and thirty others. On motion of Robert Ould the Court ordered that the securities on Davis's bail bond be discharged from further consideration.

The withdrawal of the indictments against Mr. Davis and others, furnishes the consummation of the beneficent act of amnesty which was proclaimed by President Johnson on Christmas day. It forms the fitting close of an administration which has been signalized by an earnest and persistent effort to heal the wounds of the late fratricidal strife, and inaugurate the policy of a new dynasty, whose watchword in the famous declaration of Grant—"Let us have peace." Henceforth the brand has been removed from these illustrious statesmen and soldiers who were the representative men of the sections in which they lived, and were the most eminent defenders of the principles for which we all contended.

OFFICE OF UDOLPHO WOLFE.

Sole Importer of the Schiedam Aromatic Schnapp

22 BEAVER STREET.

New York, Nov. 3, 1868.

To the People of the Southern States:

When the pure medicinal restorative, now so widely known as Wolfe's Schiedam Schnapps, was introduced into the world under the endorsement of four thousand leading members of the medical profession some 20 years ago, its proprietor was well aware that it could not wholly escape the penalty attached to all new and useful preparations. He, therefore, endeavored to invest it with strongest possible safeguard against counterfeiters, and to render all attempts to pirate it difficult and dangerous. It was submitted to distinguished chemists for analysis, and pronounced by them the purest spirit ever manufactured. Its purity and properties having been thus ascertained, samples of the article were forwarded to ten thousand physicians, including all the leading practitioners in the United States, for purposes of experiment. A circular, requesting a trial of the preparation, and a report of the result, accompanied each specimen. Four thousand of the most eminent medical men in the Union promptly responded. Their opinions of the article were unanimously favorable. Such a reparation they said, had long been wanted by the profession, as no reliance could be placed on the ordinary liquors of commerce, all of which were more or less adulterated, and therefore unfit for medical purposes. The peculiar excellence and strength of the oil of juniper, which formed one of the principle ingredients of the Schnapps, together with an unalloyed character of the alcoholic element, give it, in the estimation of the faculty, a marked superiority over every other diffusive stimulant as a diuretic, tonic and restorative.

These satisfactory credentials from professional men of the highest rank were published in a condensed form, and enclosed with each bottle of the Schnapps, at one of the guarantees of its genuineness. Other precautions against fraud were also adopted; a patent was obtained for the article, the label was copyrighted, a *fac simile* of the proprietor's autograph signature was attached to each label and cover, his name and that of the preparation were embossed on the bottles, and the corks were sealed with his private seal. No article had ever been sold in this country under the name of Schnapps prior to the introduction of Wolfe's Schiedam Aromatic Schnapps, in 1854, and the label was deposited, as his trade mark, in the United States District Court for the Southern District of New York during that year.

It might be supposed by persons unacquainted with the daring character of the pirate who preys upon the reputation of honorable merchants by vending deleterious trash under their name, that the protections so carefully thrown around these Schnapps would have precluded the introductions and sale of counterfeits. They seem, however, only to have stimulated the rapacity of imposters. The trade mark of the proprietor has been stolen, the indorsement which his Schiedam Aromatic Schnapps alone received from the medical profession has been claimed by mendacious humbugs; his labels and bottles have been imitated, his advertisements paraphrased, his circulars copied, and worse than all, dishonorable retailers, after disposing of the genuine contents of his bottles, have filled them up with common gin, the most deleterious of all liquors, and thus made his name and brand a cover for pursuit.

The public, the medical profession and the sick, for whom the Shiedam Aroma ic Schnapps is prescribed as a remedy, are equally interested with the proprietor in the detection and suppression of these nefarious practices. The genuine article, manufactured at the establishment of the undersigned, in Schiedam, Holland, is distilled from a barley of the finest quality, and flavored with an essential extract of the berry of the Italian Juniper of unequalled purity. By a process unknown to the preparation of any other liquor, it is freed from nearly all its acidulous and mineral elements.

Complaints have been received from the leading physicians and families in the Southern States of the sale of cheap imitations of the Schiedam Aromatic Schnapps in small quantities; and travellers, who are in the habit of using it as an antidote to the baneful influences [illegible]

palmed off upon the unwary. The agents of the undersigned have been requested to institute inquiries on the subject and to forward to him the names of such parties as they may ascertain to be engaged in the nefarious practice of deception. In conclusion, the undersigned would say that he has produced, from under the hands of the most distinguished men of science in America, proofs unanswerable of the purity and medicinal excellence of the Schiedam Aromatic Schnapps; that he has expended many thousand dollars in surrounding it with guarantees and safeguards, which he designed should protect the public and himself against fraudulent imitations; that he has shown it to be the only liquor in the world that can be uniformly depended upon as unadulterated; that he has challenged investigation, analysis, comparison, and experiment in all its forms; and from every ordeal the preparation which bears his name, seal and trade mark has come off triumphant. It therefore feels it a duty he owes to his fellow citizens generally, to the medical profession and the sick, to denounce and expose the chicanians who counterfeit these evidences of identity, and he calls upon the press and the public to aid him in his efforts to remedy so great an evil.

The following letters and certificates from the leading physicians and chemists of the city will prove to the reader that all goods sold by the undersigned are all they are represented to be.

UDOLPHO WOLFE.

I feel bound to say, that I regard your Schnapps as being in every respect pre-eminently pure and deserving of medical patronage. At all events, it is the purest possible article of Holland Gin, heretofore unattainable, and as such may be safely prescribed by physicians.

DAVID L. MOTT M. D.,
Pharmaceutical Chemist, New York.

26 PINE STREET NEW YORK, Nov 21, 1867

UDOLPHO WOLFE, Esq., *Present*:

DEAR SIR: I have made a chemical examination of a sample of your Schiedam Schnapps with the intent of determining if any foreign or injurious substance had been added to the simple distilled spirits.

The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixture. I have been unable to discover any trace of the deleterious substances which are employed in the adulteration of liquors. I would not hesitate to use myself or to recommend to others, for medicinal purposes the Schiedam Schnapps as an excellent and unobjectionable variety of gin.

Very respectfully yours,
CHAS. A. SEELY, Chemist.

NEW YORK, 53 CEDAR STREET, Nov. 26, 1867

UDOLPHO WOLFE, Esq. *present*:

DEAR SIR: I have submitted to chemical analysis two bottles of "Schiedam Schnapps," which I took from the fresh package in your bonded warehouse, and find, as before, that the spiritous liquor is free from injurious ingredients or falsification; that it has the marks of being aged and not recently prepared by mechanical admixture or alcohol and aromatics.

Respectfully, FRED F. MAYER, Chemist.

NEW YORK, Tuesday, May 1.

UDOLPHO WOLFE, ESQ. DEAR SIR: The want of pure Wines and Liquors for medicinal purposes has been long felt by the profession, and thousands of lives have been sacrificed by the use of adulterated or ficieg. Delirium tremens and other diseases of brain and nerves, so rife in this country, are very rare in Europe, owing, in a great degree, to the difference in quality of the spirits sold.

We have tested the several articles imported and sold by you, including your Gin which you sell under the name of Aromatic Schiedam Schnapps, which we consider justly entitled to the high reputation it has acquired in this country; and from your long experience as a foreign importer, your Bottled Wines and Liquors should meet with the same demand.

We would recommend you to appoint some of the respectable apothecaries in the different parts of the city as agents for the sale of your Brandies and Wines, where the profession can obtain the same when needed for medicinal purposes.

Wishing you success in the new enterprise, we remain your obedient servants

HARRISON'S

PLANT FERTILIZER.

Price Reduced from $65.00 to $55.00 per ton of 2,000 lbs., Cash.

AT THE SOLICITATIONS OF MANY friends, I have REDUCED the price of my "Plant Fertilizer," FOR THIS SEASON ONLY, TO $55 00 PER TON, for the purpose of introducing it to the Planters of Northern and Middle Georgia, and South Carolina (and most earnestly desire to have it practically tested alongside of other well-known Superphosphate and Fertilizers, and feel assured a fair impartial trial will convince the most skeptical of its *superior fertilizing qualities* in the first as well as succeeding crops, both as to the economy and durability.

W. H. HARRISON,
(Successor to ALEX. HARRISON)
