

# Randal's No. 6

### Being some reasons why we solicit and merit your drug and drug sundries patronage.

There may be some in Amarillo who do not fully understand what the word REXALL means and just how it is a protection—a guarantee of satisfaction—to customers of the REXALL store.

There is a REXALL drugstore in almost every town—generally the best drugstore in the town—because all REXALL drugstores are part of a national organization associated for the purpose of studying and creating the highest possible efficiency methods for retailing drugs and drug sundries.

REXALL remedies are manufactured in the REXALL laboratories under the control of this organization, and represent the best by comparison with all of their kind of formulas sent to the home laboratories by individual druggists who have found them successful in meeting every medical and curative test.

This means that when you buy a REXALL remedy or any article from a REXALL store, you can see it with full assurance that it is positively the best, in its essential qualities, for the purpose for which it is sold.
