The Studebaker SIX -As to Quality

For sixty-five years the name Studebaker has stood for honorable dealing with the public.

Studebaker has put into its product the most careful and experienced workmanship and the best materials that money can buy.

These combined with time honored honesty are the things that make quality.

In the Studebaker Six, quality is present in the material, deep in the vital parts where it is revealed by years of durability and by silent, smooth running efficiency.

There is further evidence of Studebaker quality which you can plainly see.

Compare its beautiful paint and varnish work with that of any car on the market.

Compare the quality of its genuine leather upholstery with that of cars costing \$2000 or over.

Note the high grade, leather bound crimson carpet in the tonneau, the genuine, pin tumbler Yale ignition lock.

Note the heavy gauge crown fenders, the beautiful head lamp mountings.

These are outward evidences of quality, but the real quality in Studebaker cars is that which meets emergencies, the life giving "factor of safety" which is splendid insurance for you to buy.

Come in and let us show you point by point the evidences of Studebaker quality.

Let us convince you that to equal the Studebaker in quality you have to pay many hundreds of dollars more.

It is well worth your while to investigate.
