The department denied that former Governor Hunt had been appointed as conciliator and added that such appointment appeared un- necessary and unlikely at this time.

GLOBE MINERS DELIVER ULTIMATUM TO CAMPBELL.

GLOBE, Ariz., July 4.—The Metal Mine Workers branch of the Indus- trial Workers of the World delivered their ultimatum to Governor Thomas E. Campbell at 5 o'clock this afternoon at a conference when they in- formed Arizona's chief executive that they would not return to work until every one of their demands were granted by the big copper companies in the Globe-Miami district.

They informed him that while they were picketing in conjunction with the International Union of Mine, Mill and Smelter Workers they were not in accord with the demands made by this organization and that they would not return to work if the International demands were not granted.

General Manager P. G. Beckett, of the Old Dominion company, refused to join the conference and asserts that he will not enter into any future conferences with the strikers until he is guaranteed ample pro- tection for the men who have been loyal to the company and remained at their posts.

THOUSANDS OF STRIKERS CELEBRATE THE FOURTH

BISBEE, Ariz., July 4.—A monster parade, in which miners and other citizens marched, was the only de- velopment of the strike situation here today, where for more than a week a number of members of the Metal Mine Workers Industrial Union have been on strike.

Although leaders of the Union, which is a branch of the Industrial Workers of the World, had urged the miners to keep away from the parade, several hundred of them joined, the advice and marched in a body carrying American flags.

When a speaker of the parade made some alleged slurring remarks about the American flag, half a dozen miners and citizens attacked him. He was removed to the hospital when he got him out of a crowd which quickly gathered.

Mine operators declared after the parade they were confident most of the men who quit work last week would return to the mines tomorrow. They attributed a supposed change in sentiment among the workers to the activities of the "Miners' Loyalty League," composed of miners who did not heed the call of the Industrial Union. The Miners' Loyalty League is said to have 1,450 members.

As a result of the demonstration by the Miners' Loyalty League, strike leaders are reported to be ac- ranging for a larger number of pickets tomorrow.

Civil Authorities Begin Work Of Collecting Evidence to Be Presented to Grand Jury On July 9.

By Associated Press.
EAST ST. LOUIS, Ill., July 4.—A federal investigation of Monday's race riots, in which 32 negroes and four whites were killed and approxi- mately 216 negro homes were burn- ed, was begun today by Colonel George Hunter, chief quarter-master of the central division of the United States army. Colonel Hunter is under instructions to make a full re- port of the trouble to Major General Thomas H. Barry at Chicago, com- mandant of the central department.

For the first time since the riot- ing began Sunday midnight this city was absolutely quiet today. No trouble of any kind was reported and the fire department, which was kept busy constantly Monday night and all day yesterday fighting fires in the negro district, did not receive an alarm.

Residents of the city spent a dreary Fourth of July, for the most part remaining in their homes. More than 2,000 Illinois National Guards patrolled the streets. The city's Fourth of July celebration which was to have been held in City Hall Park, was called off and all saloons and theaters remained closed. Guardsmen prevented citizens from congregating in any section of the city.

The only excitement of the day was the finding of three negro bodies badly mutilated in Cahokia Creek, bringing the death list to 37.

Civil authorities began the work of collecting and preparing evidence to be presented to the grand jury July 9. Only two of the 97 men ar- rested Monday night on charges of leading to riot are being held. The others were released yesterday on the ground that there was insufficient evidence against them. The authori- ties say that the ring leaders of the riots are known and that action will be taken against them at the proper time.

PERSHING IS GIVEN FLAGS

Crowds Around Historic Square Go Wild When Dignitaries Inspect Troops From Across the Sea.

By Associated Press.
PARIS, July 4.—All of France celebrated the Fourth of July. Paris turned out a crowd that no American city ever surpassed for size and en- thusiasm and profusion of stars and stripes.

A battalion of the first American expeditionary force about to leave for training behind the battle front had its first official review in France and was the center of the celebration. Everywhere the American flag was flying from public buildings, hotels and residences, and from automobiles, cable and carts. Horses' bridles and the lapsels of pedestrians carried them.

Streets Are Jammed.
The crowds began to gather early at vantage points. Due de Vernois was choked long before 8 o'clock this morning, when the Republican Guards' bands executed a field reveille under General Pershing's win- dows, and all routes toward the In- valides were thronged even before Pershing's men turned out.

About the court of honor, where the Americans were drawn up with a detachment of French territorials, the buildings overflowed with crowd- ed humanity to the roofs. All around the khaki clad men from the United States were trophies and souvenirs of war—German cannon, aeroplanes, machine guns and many appliances for burning suffocating gas. Behind them in the Chapeau, separating the court of honor from Napoleon's tomb were German battle flags, trophies of the Marne and Aisne behind Prussian banners of 1870.

Pershing Receives Banner.
There in the chapel before the tomb of Napoleon, General Pershing received American flags and banners from the hands of President Poincare. Almost the entire history of the struggle of the French against the Germans looked down upon the scene from paintings portraying heroic in- stants in France's battles from Charlemagne to Napoleon. There was a sharp contrast between the khaki and plain wide-brimmed hats of Pershing's men and the gay dress of d'Arbanast's plumed musketeers and Napoleon's grenadiers.

The archbishop of the east crowd reached its highest pitch when Gen- eral Pershing, escorted by President Poincare, Marshal Joffre and other high French dignitaries passed along reviewing the lines of Americans drawn upon square formations. Cheering broke out again when the American band struck up the "Mar- shall's" and again when the French band played the "Star Spangled Ban- ner" and marching received the flags from the president.
