SENATORIAL FIGHT RESTS

AWAIT COPY OF PETITION ON PEDDY'S CHARGES

By Associated Press
AUSTIN, Oct. 7.—Plans for the next move on the part of the state in litigation filed at Mobile yesterday seeking to require certification of George P. H. Peddy's name as Republican senatorial candidate were at a standstill tonight awaiting receipt of copies of the petition filed in the federal court. Until the petition is received the course to be followed will not be determined, state officials said tonight.

Attorney General Kossing or one of his assistants will probably represent the state at the hearing at New Orleans on October 16 it was said tonight, while part of the state's legal force will be at Corsicana on the same day to plead the state's case in the temporary injunction against certifying George H. Mayfield's name as Democratic nominee.

The motion to set aside the temporary order granted by the Navarro county district court has not been prepared, it was stated at the attorney general's department today but probably will be filed before October 18, the date set for the hearing.

George B. Mayfield one of the defendants to the suit filed at Mobile would make no statement on the case today. He had not received a copy of the petition tonight.

NO FIGHT LEFT IN YANKS SAYS M'GRAW; SHOULD HAVE WON YESTERDAY, HE DECLARED

By Associated Press
NEW YORK, Oct. 7.—Broken spirit is haunting the Yankees in the pit of world series defeat, in the opinion of John McGraw, Giant leader.

"There's no fight left in them," said McGraw after the fourth game today. "If they had been fighting they would not have lost in the ninth inning, for they batted several chances to tie the score."

"Bob Meusel's half hearted hoping to first in the seventh was costly to the Yanks. Had Meusel dashed to first, fighting as he should—well, figures that out. Ward's home run would have served him, and then Schang would never, in my opinion, have tried to stretch his hit in the ninth to two bases. The Yankees should have played for the tying run first."

"The Giants have been fighting every inch of the way and without their fighting spirit, they would have been perhaps three games behind instead of two ahead."

HOW ABOUT EUROPE?

Every American has been trying to answer this question, which has an important bearing upon American industry and finance, but the maze of misinformation, propaganda and theories encountered cause most people to give up in despair.

James M. Cox, Democratic candidate for president in 1920, and the editor of The Dayton News, studied Europe as an American newspaper man, from an American's viewpoint. The first of his articles will appear in Tuesday's News.

Read these articles and get a better prospective regarding the European situation.

BLOOD DRAWN WITH LASH AND TAR AND FEATHERS POURED OVER BODY, BY MEN IN K. K. K. ROBES

By Associated Press
PICKER, Okla., Oct. 7.—Jack Anderson, 16 years old, local barber, today related a story of being taken from his home early last night to a point on the banks of Lytle Creek, southwest of DeWitt, where fifteen persons dressed in regalia of the Ku Klux Klan stripped him of his clothes, applied the lash to his back and legs, gave him a coat of tar and feathers and then returned him to DeWitt where he was put off a car on main street.

Anderson said his abductors accused him of having intimate relations with a married woman and refused to heed his expostulations of innocence.

The barber said his hands were tied behind his back after his clothing was removed. Two of the number stepped forward, one with a black snake whip.

Whip Brings Blood.
"The lash was then applied and I was then given another chance to make a statement," Anderson said. "Again refusing, I was subjected to several more strokes from the whip. After a brief pause I was administered a third whipping, the whip bringing the blood with every stroke."

Anderson said other members of the party then moved to a box of wooden tar from which he was covered from head to foot with a thick application.

The barber said he was then returned to DeWitt.

Denied Use of Park.
MILWAUKEE, Wis., Oct. 7.—An apparent effort on the part of the Ku Klux Klan to use the state fair park for an initiation ceremony was blocked tonight by state officials. The first intimation of the plans of the Klan came during the afternoon when several men visited the grounds and informed the caretaker that they intended to hold a meeting there at night, but refusing to say for what purpose.

R. J. White, a member of the state fair advisory committee, was informed and getting into touch with Klan representatives who had announced a meeting would be held tonight told them that no meeting could be conducted at the park without written permission of either Governor John J. Blaine or Commissioner of Agriculture C. P. Newcomb.

About nine o'clock a large number of guards assembled at the entrance to the grounds, but finding the gate locked and Sheriff Patrick McManus, who had been called on by both Mr. White and Governor Blaine present with his deputies, no attempt was made to enter the grounds.

Giants Display More Brains and Win Again

By Associated Press
NEW YORK, Oct. 7.—Rain drops and brain flops sent the New York Americans down to another defeat today in their almost hopeless fight with the local national leaguers for the baseball championship of the world.

The Giants made four runs, barely enough to win, because they were bright boys and fast on the muddy base paths. Pelted with rain during every minute of the battle, the Yankees got only three runs because they thought and moved slowly, or not at all in the high moments of their attacks.

Such breaks in luck, as could be blamed upon the sticky weather favored the Giants who took quick advantage of them in a seven fifth inning sport and produced all of their runs but the Yankees could have won the game in spite of the adverse fortune had they made use of their legs and heads with as much vigor as they put into swinging their heavy bats.

Tonight the National League pitchers showed only one more victory to renew their 1921 lease upon the title of world's baseball champions. The defeated Yankees find themselves up against a barrier that few think they can surmount. They must win four games in succession to escape another downfall at the hands of McGraw's men.

The Yankees started off with a ruck and a furious pounding of the ball in

M. Poincaré and Lord Curzon reached an agreement this afternoon that the Greek army should be invited to evacuate Eastern Thrace on the understanding that allies should occupy the evacuated territory for a period of thirty days from the date of the completion of the evacuation of the Greek forces, in order to guarantee the safety of the 1,500,000 Turkish population. This agreement was made in accordance with the Turkish representative at Mudania on the understanding that effect thereto will only be given if the Turkish representative accept the remaining conditions laid down by the allied note to September 25, particularly respecting the control zones on both sides of the Bosphorus and the Dardanelles.
