It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching preparation from the root that has ever been employed in medical practice. The unfortunate victim of hereditary disease, with wollen glands, contracted sinews and bones half carious, has been restored to health and vigor. The scrafulous patient, covered with ulcers, loathmade whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitutions, gladly testify to the efficacy of this inestimable preparation. The testimony of this inestimable preparation. The tes-timony of those who have been cured by its use, with their residences, has been published from time to time, and were it desirable a mass of the most overwhelming testimony could be brought forward, proving most conclusively its inestimable value. 12.2012 or in Roberts

Dr. Townsend—Dear Sir; I have a little girl seven years of age, who has been several years afflicted with Fits; we tried almost everything for her, but without success, at last, although we could find no recommendation in our circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did, for it has not only restored her trength, but she has had no return of the Fits, to our greripleasure and supprise. Before it the timid flee and the stoutest quail, while along its pathway thousands are cut down as summer flowers. Hearts once gay become sad, and many mourn over the desolation that this despoil-er of the threshold has occasioned. As a preventative and positive cure for ASIATIC (HOLERA and all other af-fections of the Stomach and Bowels, DR. KEELER'S CORDAL holds out the greatest promises. There is no deception in this remedy, it is capable of grappling with the severest forms of disease, and in all cases triumphs. I say it unhesitatingly, and I challenge investigation, that there is not known within the ample folds of the MATERIA MEDICA, nor by the wide spread public, a single remedy, that will under all circumstances cure one half as many cases of Summer Complaints as the Cordial. The pro-prietor asks a careful perusal of the following letter from a gentleman, well known in this city. READ THE FOLLOWING TESTIMONY. Philadelphia, June 1st, 1849. Dr. J. N. Keeler: Dear Sir—I received your note this morning asking for information as to the distribution I made of the package of Cordial you put into my posses-sion while in command of the United States Transport during the Mexican War. According to your directions a part was distributed in Vera Cruz, the other I kept for the use of my seamen and others on board, belleving I should have use for it as I had on hoard frequently from one to three hundred persons, and that many on leaving Mexico have use for it as I had on hoard frequently from one to three hundred persons, and that many on leaving Mexico would be on the sick list. Such was the fact, Dyaentery. Diarrhoea etc. estensively provailed: I used the Cordial freely and not in a single instance do I recollect of its hav-ing failed to completely cure. My own crew would often be attacked with Diarrhoea, Dysentery, peculiar to nearly all after getting on shore and eating fruit and vegetables— in such cases the Cordial failed in none to cure speedily. When in New Orleans a friend informed me of a Phila-delphia gentleman, S. Churchman Esq., was sick with the Dysentery and despaired of by the Doctor. I mentioned having a bottle or so of your Cordial—he sent it to him and in a few days I had the pleasure of seeing him on change and well. I can give you many names and test;

and in a few days find the pleasable of acough him desti-monials of the efficacy of your Cordial of necessary. I have given it to one Ship-master of this port in particular, (Capt. Whipple, ship Monegehala) and he informed me he would never be without it, and from my own opinion of it, I think it the safest and best medicine I ever used or have to be used in affections of the Stomach and known to Boweis. SANDA' SARSAPARILLA.-It has ever been a prime article of our medical creed, to recommend no advertised medicines, for we are opposed to them conscientiously and professionally, but we feel bound to deviate from this rule, and recommend to the suffering the article at the base the notice. The great medical virtues of Sarsaparilia, are well known and appreciated by physicians, but the uncertainty of the strength of the different preparations of the root, some being almost inert, has caused the medicine itself to fall into disrepute. The Messrs. Sands, it would seem, have succeeded in obtaining a powerful and uniform preparation of it. #### To the Afflicted.

Have you a cough, cold or the consumption! Dr. Hastings had his attention early drawn to the consideration of the causes of, and the cure for, con-sumption, and after numerous experiments and long years of patient and laborious study, discovered that Wood Nap-tha compounded with other vegetable substances, was a certain and speedy cure for consumption, and all diseases of the lungs. The Naptha being of a very volatile nature, immediately rises to the lungs, the sent of the disease, and attacking its stronghold, destroys all tubercles that have formed upon the lungs and prevents the formation of others. For coughs, and colds it is an invaluable remedy, curing the most severe in an incredible space of time. A single bottle will prove the virtue of this remedy.
